Open Space / Property Manager Juan Guzman reviewed the agenda report. He thanked Supervisors Williamson and Aldean for their assistance in refining the provisions of the deed restriction. Supervisor Aldean inquired as to the difference in the percentage contributions for the two Carson River corridor properties. Mr. Guzman explained that "one appraisal covered the cost of more than one property. ... Then, you divide the appraisal in half and claim half of each property." He further explained the intent to contribute a proportional share. "Because we did a proportional share, it turned out that one property would contribute more money than the other property." Supervisor Aldean pointed out a typographical error on Attachment C, page 11 of 18. Discussion took place regarding the condition of a portion of the Jarrard property adjacent to East Fifth Street.

Mayor Crowell entertained public comment and, when none was forthcoming, a motion. **Supervisor Williamson moved to authorize the Open Space Manager to execute a Question #1 State Conservation Program funding agreement and deed restriction, and other matters properly related thereto, in order to obtain approximately \$2,184,070 in reimbursement for the fee title acquisition of the Hutchison, Desormier, and Andersen open space properties. reviewed the agenda report, and introduced Parks and Recreation Director of Operations Scott Fahrenbruch and Carson City School District Operations Manager Mark Korinek. Mr. Fahrenbruch provided background information and reviewed the provisions of the interlocal agreement, copies of which were included in the agenda materials.

In response to a question regarding the provisions of paragraph 4, Independent Public Agencies, Mr. Moellendorf agreed that all references to the School District should be removed. He explained the intent of the paragraph to clarify that the City would be responsible for all City employee benefits. Supervisor Aldean advised that she would provide Mr. Fahrenbruch with additional suggested clerical revisions. In response to a question, Mr. Korinek advised that the Carson High School grounds are maintained “quite efficiently” with a “multitude of equipment ... that [the School District] already has under service contracts.” In addition, there is currently no Parks and Recreation Department use of the high school grounds. Supervisor Williamson advised of the past practice of the Capital Soccer Club to donate funding to the Carson City School District to assist with maintenance of the Carson Middle School field. She expressed the hope that, if this practice has continued, the funding would be allocated to “the people maintaining the facility.” Mr. Fahrenbruch advised that he schedules most, if not all, of the school district fields for Youth Sports Association practices. He acknowledged that the only facility not scheduled is Carson High School, which has its own grounds crew. He advised that Youth Sports Association user groups are very generous with donations. Supervisor Livermore advised that the Youth Sports Association funds four seasonal Parks Department positions. He expressed the belief that the subject interlocal agreement will serve the Youth Sports Association in that Mr. Fahrenbruch will be able to “quickly and easily address issues of field maintenance ...” He advised that both the Parks and Recreation Commission and the Youth Sports Association had endorsed the interlocal agreement. In response to a question, Mr. Korinek advised that the interlocal agreement will assist the School District in continuing to accommodate after-hours use of school facilities. He discussed “slight alterations” to the facility environments in consideration of energy cost savings. He suggested the interlocal agreement should be cause for celebration in that Mr. Fahrenbruch “and his crew have the expertise to take care of some of these facilities” in consideration of recent manpower reductions. Supervisor Walt commended the partnership between the School District and the City represented by the interlocal agreement.

Mayor Crowell entertained public comment. (9:19:57) In reference to previous comments, Tim Howard suggested the use of artificial turf.

Mayor Crowell entertained additional public comment; however, none was forthcoming. He commended the interlocal agreement in consideration of sharing efficiencies and services between jurisdictions in this community. He entertained a motion. **Supervisor Livermore moved to adopt Resolution No. 2009-R-40, a resolution adopting and approving an interlocal agreement between the Carson City School District, a political subdivision of the State of Nevada, and Carson City, Nevada, a consolidated municipality and political subdivision of the State of Nevada, for the Carson City Parks and Recreation Department to perform all turf maintenance operations during the months of March through October, annually, on approximately 18 acres of Carson City School District playing fields and passive grounds where natural grass grows. Supervisor Walt seconded the motion.** Upon Supervisor Livermore’s agreement to consider an amendment, Supervisor Aldean suggested amending the approval subject to the elimination of the references to the School District under Section 4, subparagraphs 3, 4, and 6. **Supervisor Livermore so amended his motion. Supervisor Walt continued her second. Motion carried 5-0.**

In response to a question, he explained the provisions of the Carson City Municipal Code to approve development agreements by ordinance. In response to a further question, he was unaware of any legal advantages to approving development agreements by ordinance. Mr. Rombardo suggested the possibility that the ordinance process involves two public readings.

Mayor Crowell entertained public comment and, when none was forthcoming, a motion. **Supervisor Williamson moved to introduce, on first reading, Bill No. 114, an ordinance approving a development agreement between Carson City and Roventini, LLC, regarding the development of a planned unit development subdivision, known as Clearview Ridge, located west of Cochise Street between West Roventini Way and West Overland Street east of Voltaire Street, APNs 009-263-06, -07, -08, and -09, to extend the approval of the tentative map, and other matters properly related thereto. Supervisor Livermore seconded the motion. Motion carried 5-0.**

15(B) ACTION TO ADOPT BILL NO. 113, ON SECOND READING, AN ORDINANCE AMENDING THE CARSON CITY MUNICIPAL CODE, TITLE 18, ZONING, CHAPTER 18.03, DEFINITIONS, SECTION 18.03.010, WORDS AND TERMS DEFINED, TO MODIFY THE DEFINITION OF “WIND ENERGY / CONVERSION FACILITY” TO “WIND ENERGY CONVERSION SYSTEM, PRIVATE USE” AND TO ADD A DEFINITION FOR “WIND MACHINE;” AND AMENDING THE CARSON CITY MUNICIPAL CODE, TITLE 18, ZONING, CHAPTER 18.05, GENERAL PROVISIONS, BY ADDING SECTION 18.05.080, PRIVATE USE WIND ENERGY CONVERSION SYSTEMS, TO SET FORTH SPECIFIC STANDARDS AND CRITERIA FOR THESE SYSTEMS, AND OTHER MATTERS PROPERLY RELATED THERETO (9:26:52) - Mr. Plemel introduced this item, and advised that minor revisions in accordance with the action on first reading had been made. He further advised that staff had received no additional comments since first reading. He explained that the 12-month review, requested at the June 18th Board of Supervisors meeting, was not included in the ordinance provisions but will be scheduled as a matter of process.

Mayor Crowell opened this item to public comment. (9:28:31) Tim Howard advised of having discussed the issue of wind turbine colors with Mr. Plemel, and requested a certified letter from the Board of Supervisors to “send to the manufacturers to request them to change their wind generators from white to your specific colors.”

Mayor Crowell advised of having recently reviewed wind generator manufacturer’s literature, which indicated a vertical spire of only thirty feet and 6 dB above ambient noise. He suggested that adoption of the ordinance will not stifle the market, which appears to be trending toward mitigating noise issues. He entertained additional comments or questions and, when none were forthcoming, a motion. **Supervisor Williamson moved to adopt Bill No. 113, on second reading, Ordinance No. 2009-14, an ordinance**

Open Space / Property Manager Juan Guzman and Planning Division Director Lee Plemel provided background information on development of the charrette summary, particularly noting the involvement of the Friends of Silver Saddle Ranch in securing grant funding for the project. Mr. Plemel advised that presentation of the charrette summary will be scheduled as part of the grass-roots planning portion of the upcoming Nevada Chapter Conference of the American Planning Association in October. Mr. Guzman discussed details of the charrette process, which included a tour of the planning area, and distributed to the Board members and the Clerk a brochure developed as part of the process, entitled *Self-Guided Tour*. Mr. Plemel and Mr. Guzman reviewed the charrette summary, copies of which were included in the agenda materials, in conjunction with a SlideShow presentation. In reference to that portion of the presentation relative to off-road use, Mayor Crowell expressed understanding for allowing motorized use on the south side of Prison Hill. He advised of “numerous tracks where people are using motorized vehicles, particularly in Dead Truck Canyon and ... the north side of the peak of Prison Hill.” He suggested that the “motorized users on the south ... try and police your own.” Mr. Plemel expressed understanding for the possibility of confusion over the motorized and non-motorized boundaries. He noted a recommendation, included in the charrette summary, to better define the boundaries in conjunction with the topography and to develop a management plan to address the issue. He noted the overall concept of passive recreation “within this area along the River and in Prison Hill ...”

Supervisor Williamson advised of having participated, together with Supervisor Aldean, in the final day of the charrette process. Supervisor Williamson noted the “outstanding” aspect of the process in that “all the people that had an interest in this were there.” Mayor Crowell described the Prison Hill area as an “amazing testament to what we can do in this community in terms of open space.” He described the area as a “gem” right in the middle of the capital city of Nevada, and commended everyone involved in the charrette process.

Supervisor Walt commended everyone involved in the planning charrette, and discussed the potential opportunities for community events. She suggested presenting the charrette summary to the Carson City Convention and Visitors Bureau, and encouraged working together to market the area for events. Supervisor Williamson thanked everyone involved in the charrette process, and agreed with Mayor Crowell’s earlier comments that the area is very special. She noted challenges associated with scheduling

events at the Silver Saddle Ranch which she suggested may be overcome in the near future as the City takes over management. She further noted the increased equestrian use of the Silver Saddle Ranch, and discussed additional uses of the Ranch for certain events. She described the charrette process as very positive and collaborative. She discussed the importance of “listening to the answers” to questions, and encouraged accepting the recommendations of the charrette summary. Supervisor Aldean referred to that portion of the charrette summary relative to invasive species, and discussed the importance of an aggressive public education effort to ensure zebra and quagga mussels are not allowed to establish in the Carson River system. She suggested including appropriate language in the “mission” portion of the charrette summary. She further suggested the involvement of a Carson River Advisory Committee member in the Lake Tahoe aquatic invasive species working group. Supervisor Livermore expressed appreciation for presentation of the “dynamic document.” He agreed with Supervisor Walt’s comments regarding the importance of marketing the area. In reference to the Carson River Aquatic Trail, he discussed the importance of marketing Carson City’s trails system, and of preserving the scenic value of Prison Hill.

Mayor Crowell opened this item to public comment and, when none was forthcoming, entertained a motion. **Supervisor Williamson moved to accept the recommendations of the Silver Saddle Ranch and Carson River Charrette Summary, Creating a Community Vision, regarding the planning vision for public recreation and open space opportunities on the Silver Saddle Ranch, Prison Hill area, and along the Carson River. 16. PARKS AND RECREATION AND CARSON RIVER ADVISORY COMMITTEE - ACTION TO APPROVE THE CARSON RIVER ADVISORY COMMITTEE’S ANNUAL WORK PLAN AND ANNUAL GOALS FOR CALENDAR YEARS 2009 AND 2010 (10:12:27) - Mayor Crowell introduced this item. Park Planner Vern Krahn introduced Carson River Advisory Committee (“CRAC”) Chair Randy Pahl and Vice Chair Paul Pugsley, and reviewed the agenda report. Mayor Crowell thanked CRAC Chairperson Pahl for his service to Carson City.

(10:15:31) CRAC Chairperson Pahl narrated a PowerPoint presentation of the CRAC annual work plan and goals, copies of which were included in the agenda materials.

Supervisor Williamson thanked Mr. Pahl for his presentation, and provided background information on the CRAC’s purview over the Carson River corridor. Mr. Pahl acknowledged the CRAC’s interest in issues of development in the flood plain or watershed that may impact the River. Supervisor Williamson thanked the CRAC for their constant efforts and for synthesizing their goals. Mayor Crowell expressed appreciation for Supervisor Williamson’s comments and for the goals developed by the CRAC. He expressed understanding for the connection between the River and the city’s watershed, and encouraged discretion in consideration of watershed issues. Mr. Pahl assured the Board that the CRAC has “plenty of work. We don’t want to make this too large.”

(10:32:44) In response to a question, CRAC Vice Chair Paul Pugsley advised that he serves as Watershed Coordinator for the Carson Valley Conservation District. “We don’t play a role anything like what the advisory committee in Carson City does as far as advising” the Douglas County Commissioners. Mr. Pugsley advised that the Dayton Valley Conservation District is most concerned about the Carson River in Lyon County, but does not have an advisory responsibility to the Lyon County Commissioners. “The same is true ... in Churchill County. To a great extent, the Carson River Advisory Committee is unique in the watershed.” Mr. Pugsley discussed the Carson River Coalition, sponsored by the Carson Water

Subconservancy District, and the Western Nevada RC&D's role in watershed issues. Supervisor Aldean noted the many groups with essentially the same mission but no close cooperation. In reference to her earlier concerns regarding invasive species, she noted the Carson River is part of one water system. "At some level, there has to be some interface between people who are concerned about the health of the Carson River and what's happening at Lake Tahoe ..." Supervisor Aldean reiterated the suggestion for a CRAC member to become involved in the Lake Tahoe aquatic invasive species working group. Mr. Pugsley advised that he and Mr. Pahl would consider Supervisor Aldean's suggestion as guidance.

In response to a question, Mr. Werner advised of "an ongoing group" comprised of representatives of the City's Public Works and Parks and Recreation Departments and the University of Nevada Cooperative Extension "to deal with noxious weeds." Mayor Crowell expressed concern over non-native plants which have become a threat, and discussion ensued. Mr. Pahl advised that the CRAC's habitat conservation plan will address the problem. Mr. Krahn advised that Resources Specialist Ann Bollinger has been working to remove noxious weeds and non-native plants in conjunction with recent projects in the area of the Morgan Mill Road river access.

Mayor Crowell opened this item to public comment and, when none was forthcoming, entertained a motion. **Supervisor Aldean moved to approve the Carson River Advisory Committee's annual work plan and annual goals for calendar years 2009 and 2010. Supervisor Walt seconded the motion. Motion carried 5-0.** Mayor Crowell thanked Mr. Pahl and Mr. Pugsley, and recessed the meeting at 10:40 a.m.

Mr. Rackley narrated a PowerPoint presentation, entitled *2010 Carson City Water Plan, Source to Tap*, copies of which were distributed to the Board members and the Clerk. He and Mr. Burnham responded to questions of clarification and discussion ensued at various points throughout the presentation. Mr. Burnham advised that the arsenic treatment plant construction is complete, and anticipates that it will be in production within the next couple weeks.

Mr. Rackley and Mr. Burnham acknowledged that Carson City's drinking water is safe. Mr. Rackley stated that Carson City's water system is in no jeopardy, and is being managed "very, very well." Water quality and water supply issues are being managed, and "it's safe and reliable." Mr. Rackley acknowledged that the community and the water system will benefit from individuals and families reducing their use of drinkable water. Mayor Crowell thanked Mr. Rackley and Mr. Burnham for their presentation.
