RE: Charter Review Committee

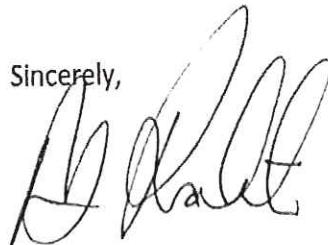

Dear Larry,

I apologize for not being able to make the initial meeting of the current Charter Review Committee. I need to be on a conference call at 3:00 PM. I would appreciate the opportunity to serve as the committee's chairman and would like to be considered for the position.

I believe that every citizen concern regarding our City Charter should be heard before the Charter Review Committee. Our City Charter should be treated like the United States Constitution and should only be changed or modified after great consternation and thought.

This will be my third term on the Charter Review Committee having served as Vice Chair of the committee during the last term.

Sincerely,

Bruce Robertson
