

**OPEN SPACE ADVISORY COMMITTEE  
STAFF REPORT**

**MEETING DATE:** August 19, 2013

**AGENDA ITEM NUMBER:** 3G

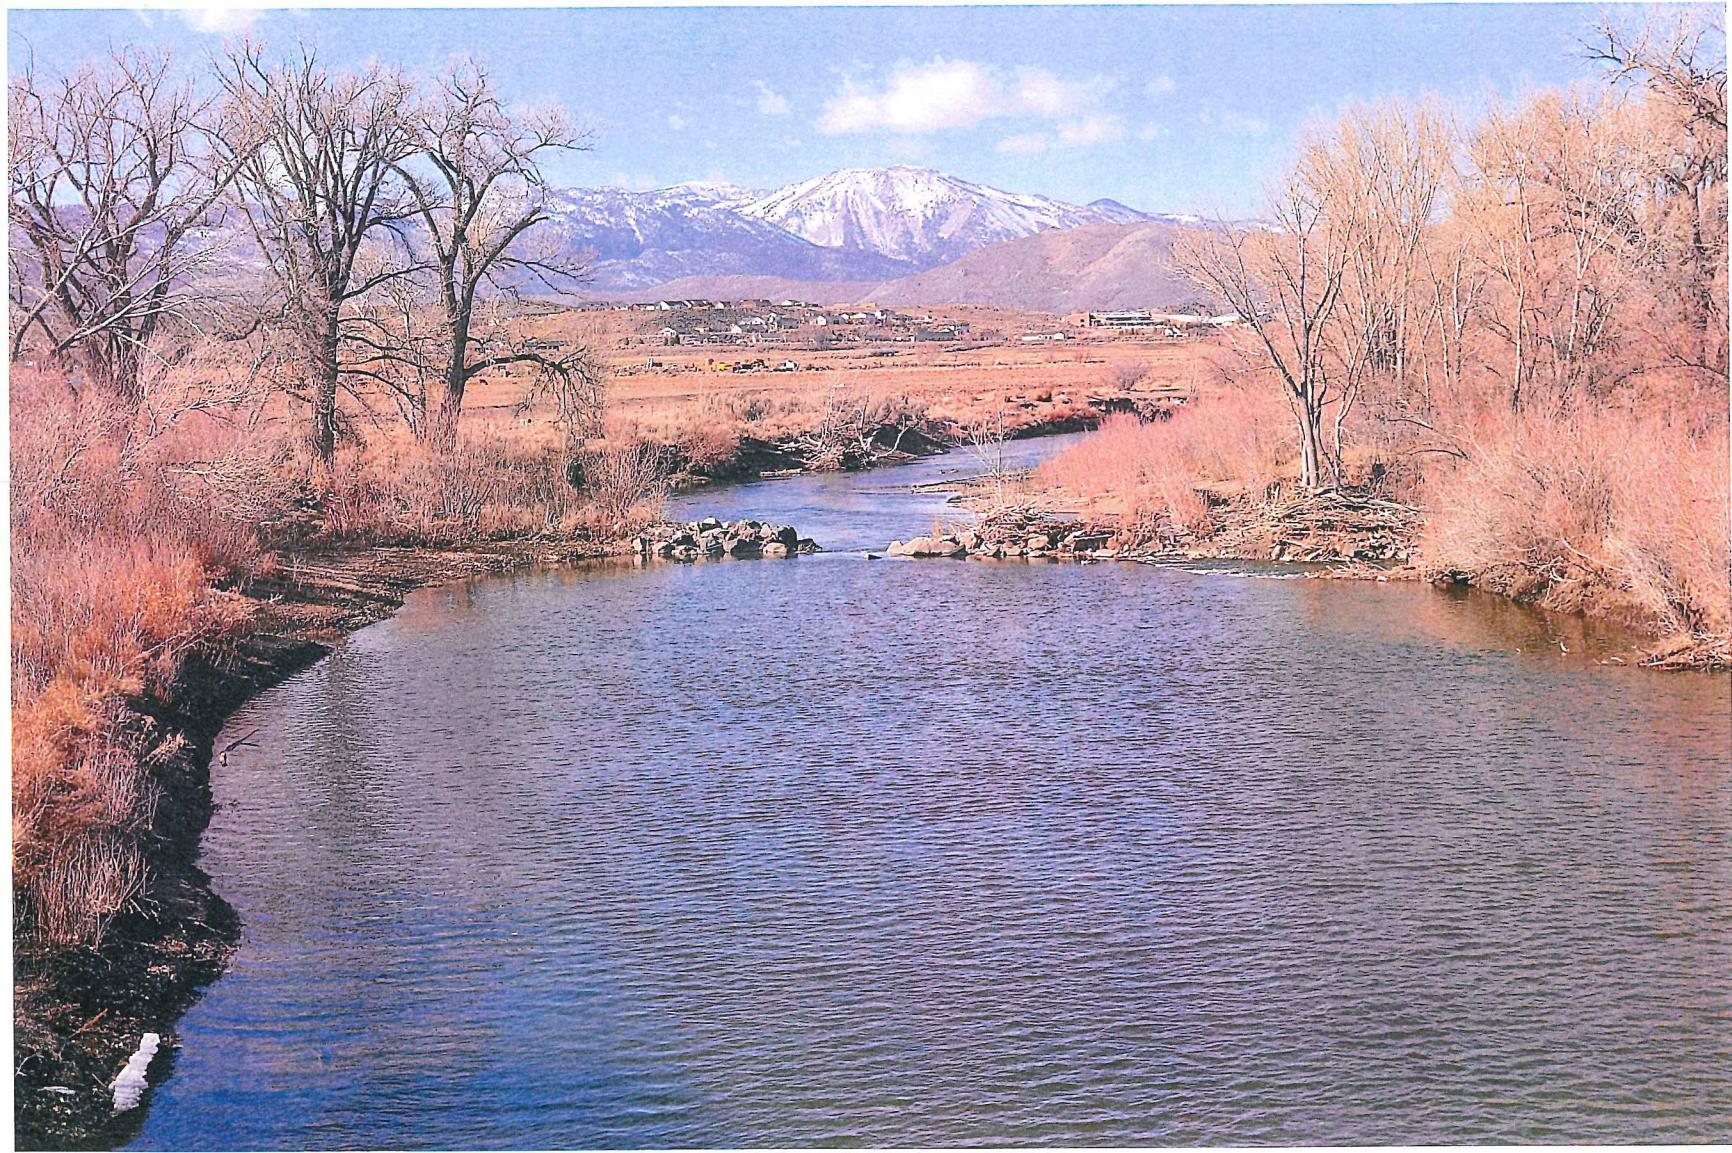

**STAFF:** Juan F. Guzman, Open Space Manager

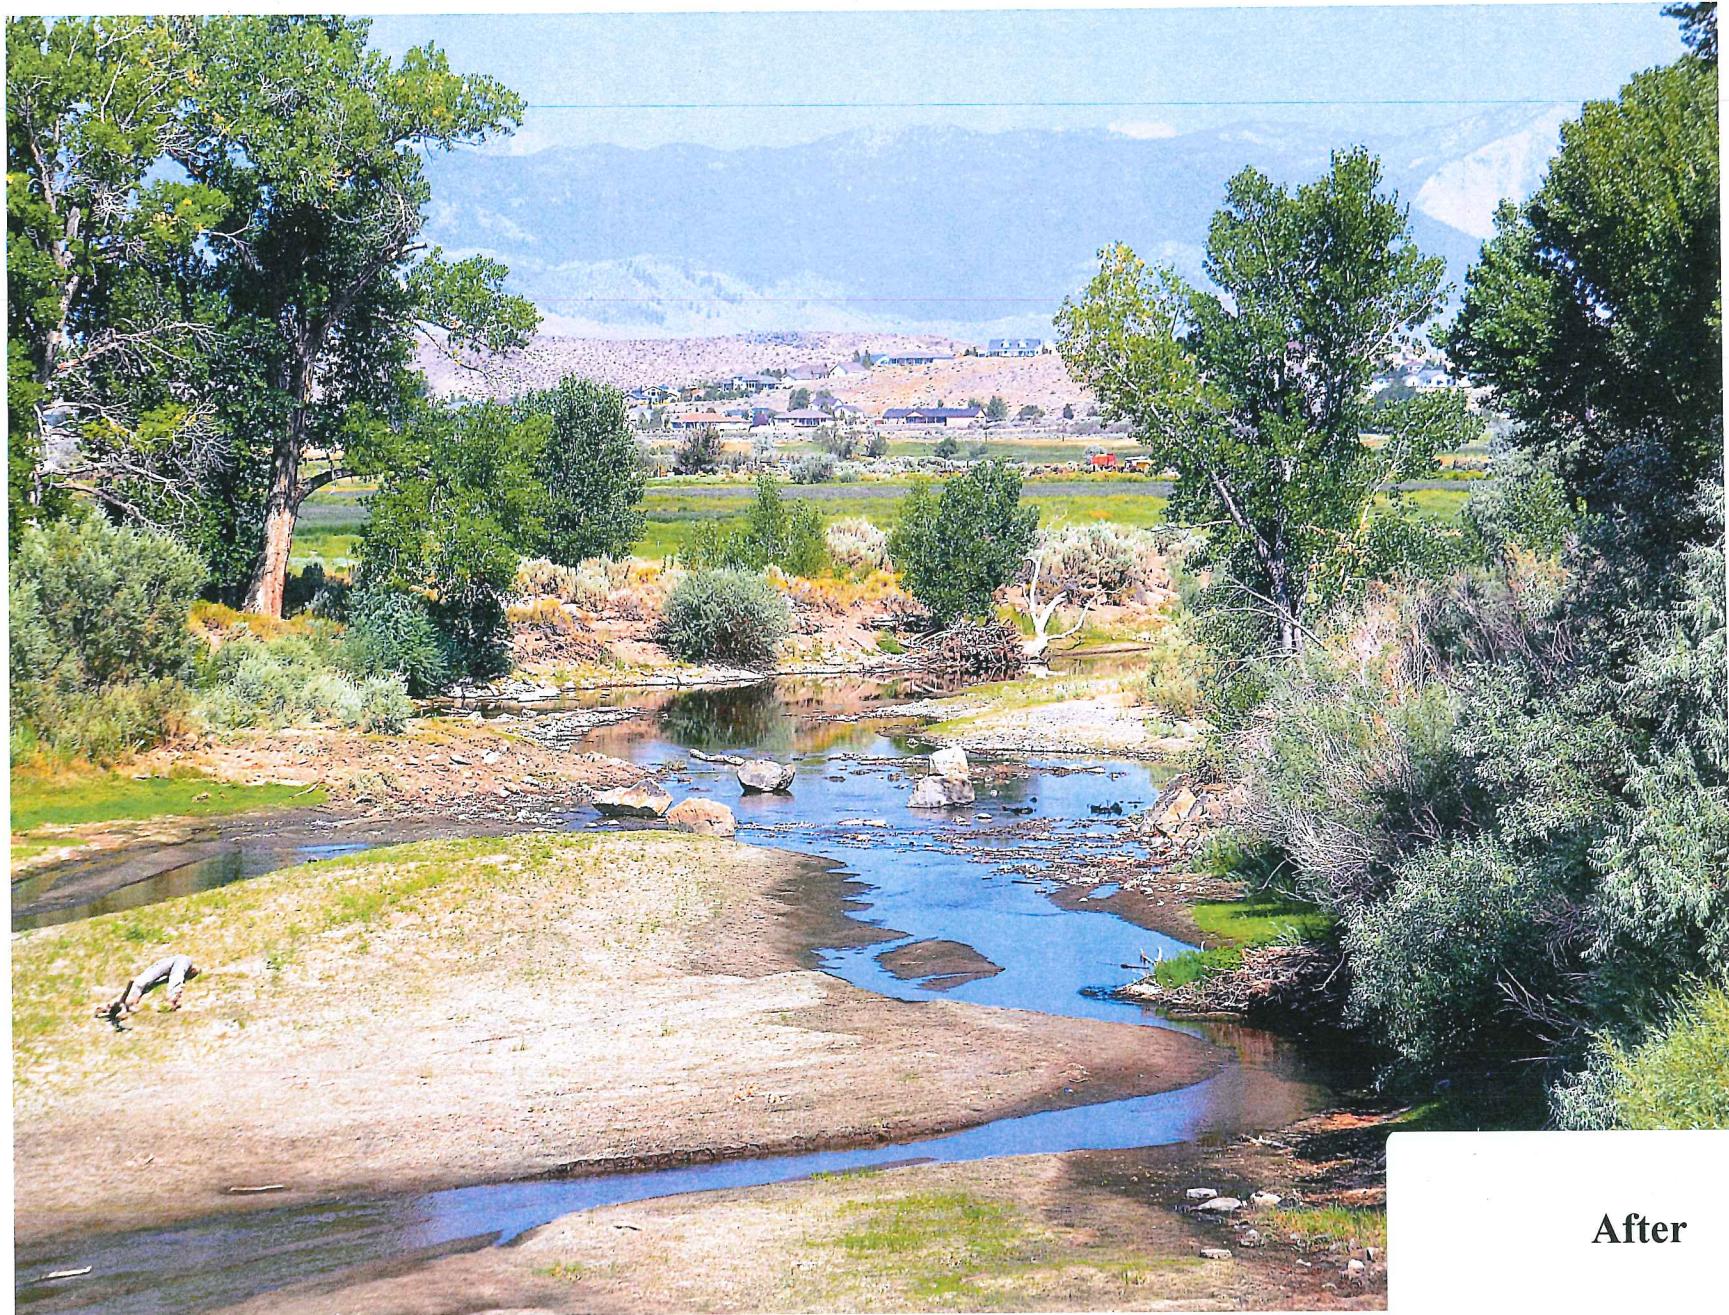

**REQUEST:** Discussion only regarding the removal of the Andersen's / Lloyd's Diversion.

**GENERAL DISCUSSION:** On July 22, 2013, Horizon Construction, under the supervision of Paul Pugsley, completed the Andersen Diversion removal from the Carson River just downstream from Lloyd's Bridge. The work was completed without any problems and most of the rocks within the area were stacked towards the east side of the river in order to protect the private property owners from the advancement of erosion. The removal of the diversion required some administrative water rights matters that were completed prior to the physical work. Staff is of the opinion that Horizon Construction did an excellent job in minimizing impacts to the river environment.

**RECOMMENDED ACTION:** This item is for discussion only. No action may be taken at this time.

**Before**

**After**

**After**  
**Rocks placed to slow down**  
**erosion on east shore**
