provide the presentation. In response to a question, Sheriff Furlong anticipates that enforcement along Highway 50 will “have to return to its previous levels.” He expressed the opinion that public awareness will increase and take the place of enforcement. He discussed the intent that personal responsibility will become routine; not motivated by threat of enforcement along the subject stretch of highway.

Chairperson McKenna inquired as to needed assistance. Sheriff Furlong advised that the Sheriff’s Department traffic management functions were mandatorily decreased in 2010. “That decision was based on economics, and that’s continuing on today.” Sheriff Furlong further advised that the effects have been evident in all areas of Carson City. “We have to have that function back at the Sheriff’s Department eventually.” He expressed the hope to secure grant funding and general funding to reinstate the “full-time engaged traffic management unit for the City. ... it is essential. If a person is not paying attention on Highway 50, they’re not paying attention on Carson Street either. If they’re speeding on Highway 50, they’re probably speeding on Saliman.”

Mr. Pittenger discussed two contracts to be awarded, in the near future, which allocate federal funding for traffic safety enhancement projects on Fairview Drive and East Fifth Street. Sheriff Furlong commended Mr. Pittenger on the excellent working relationship between the Sheriff’s Department and the Transportation Division. Sheriff Furlong discussed transportation improvements throughout the City which have decreased the incidence of traffic accidents over the past ten years. Mr. Pittenger discussed the benefits of incremental changes over time, and expressed appreciation for the Sheriff’s Department support.

Chairperson McKenna entertained public comment; however, none was forthcoming. Sheriff Furlong thanked the commission for the opportunity to provide the presentation. He expressed the belief that “the public ... holds the key and your taking time ... to have me here today is another one of those public releases that allows folks to get that message.” Chairperson McKenna called again for public comment and, when none was forthcoming, thanked Sheriff Furlong.

F-2. INFORMATION ONLY ON AN UPDATE OF THE RTC INTERCITY BUS ROUTE FROM RENO TO CARSON CITY (5:42:59) - Chairperson McKenna introduced this item.

Mr. Pittenger provided background information, and introduced Ed Park of the Reno Transportation Commission. Mr. Park provided background information on the RTC Intercity service, noting that today marked the 13th anniversary. He discussed a round trip addition, on July 25, 2011, due to increased demand. “This cost the Washoe RTC about \$58,000 a year.” Mr. Park reviewed statistical information on ridership, cost, and fares over the past fiscal year. He responded to questions of clarification regarding fares and costs. Mr. Pittenger provided additional clarification regarding the share of costs between the Carson City and Washoe County RTCs. Mr. Park responded to additional questions of clarification regarding ridership statistics. At Vice Chairperson Mallory’s request, Mr. Park offered to provide cost-per-hour information to Mr. Pittenger for distribution to the commissioners.

Chairperson McKenna entertained additional commissioner questions or comments and, when none were forthcoming, public comment. When no public comment was forthcoming, Chairperson McKenna thanked Mr. Park for his attendance and participation.
