Subject: Progress report

Roger,

We have reached 3500 trees.

All of the parks are done with the exception of Mills which will be done Tuesday the 22nd.

I am doing the downtown trees myself to be sure and inspect each one from a city foresters eye.

I started at 5th and am moving to the north and am at 2nd street. So many really big great trees down there!!

Also, I just wanted to say that we have worked in Sparks and Reno Parks and nobody does the quality job your staff does.

Myself and my staff have been really impressed!

Thank you

Dale Carlon
