

Supervisor Fettic moved that the Board direct the Community Development Director to prepare a Resolution for a Master Plan Amendment to be brought to the Board of Supervisors at our next regular meeting concerning MPA-91/92-2. Supervisor Bennett seconded the motion. Supervisor Smith expressed his concern with the proposal and reasons for not supporting it. Supervisor Bennett also expressed her concerns that the Master Plan needed to be addressed and that the proposal would merely piece meal it and tie future Board's hands. She expressed her regret to Mr. Jacobsen. She was willing to reconsider the plan once the entire plan is reconsidered and adequate public input is provided. The motion was then voted by roll call with the following result: Smith - No; Tatro - No; Bennett - Regretfully No, not at this point, when we have a better opportunity to look at the picture on the whole, when we have had plenty of public input and we are going to take a look, she could support it, but at this time we are not acting in the best interest of the entire City at this point; Fettic - Yes; and Mayor Teixeira - Yes. Motion failed 2-3.
