**RE:** Carson City Planning Commission, Fandango – Verizon Wirless, Request to continue SUP 15-095 indefinitely (Item F4, 10/28/2015 Agenda)

---

Dear Susan – I am writing to request that 1) this agenda item be heard first, and 2) that the Planning Commission move to continue consideration of this SUP application to an indetermined date. We are evaluating some currently undetermined design changes that may (or may not) affect the method of stealthing required by code.

Nonetheless, as the Applicant, I will be present this evening until this item is continued.

Sorry for late notice, and thank you for your understanding.

Best regards,

*Buzz Lynn*
