MEMORANDUM

Historic Resource Commission Meeting of November 12, 2015

TO: Historic Resource Commission **Item F-3**

FROM: Susan Dorr Pansky, AICP
Planning Manager

DATE: November 4, 2015

SUBJECT: HRC-15-070 – 2016 Historic Preservation Fund Grant - Possible Project Re-selection

If project re-selection is desired, staff recommends the following motion:

RECOMMENDED MOTION: "I move to recommend that staff submit a 2016 Historic Preservation Fund Grant application for the 'INSERT PROJECT NAME HERE' project on behalf of Carson City, a Certified Local Government."

At the September 10, 2015 Historic Resources Commission (HRC) meeting, the HRC directed staff to apply for 2016 Historic Preservation Fund (HPF) grants for two projects from the recommended project list. These projects included the following:

1. Nevada State Prison Historic Structures Reports
2. Carson City Blue Line Maintenance, Historic Building Markers and Historic District Street Sign Toppers

After the meeting, staff discussed the HRC's selection with the State Historic Preservation Office (SHPO) and was informed that the Carson City Blue Line Maintenance, Historic Building Markers and Historic District Street Sign Toppers would not be eligible for the Historic Preservation Fund grant money.

Additionally, SHPO advised staff that applying for two projects would ultimately result in SHPO asking Carson City to choose which one was of highest priority, as they would not fund a portion of both, but rather one project or the other.

As a result, staff is currently planning to move forward with an HPF grant application for only the Nevada State Prison Historic Structures Reports. However, prior to preparing the grant application, staff would like to request final direction from the HRC in the event that the HRC would like to select a different project.

Staff would also like to offer HRC training on Historic Preservation as an additional use of the grant funding. This option was suggested by SHPO as a result of staff requesting training for the HRC on various topics. There are several training programs available through the National Alliance of Preservation Commissions. If this option is selected, staff requests that the HRC

provide direction on the type of training they would like to receive. If this option is not selected for the 2016 grant cycle, staff recommends that it stay on the list for consideration in future grant cycles.

Re-selection, if desired, will not impact staff's ability to submit the 2016 application on time, as SHPO has informed staff that the application deadline for the 2016 grant funding is going to be extended to February 2016 for all applications statewide. The following list contains the current suggested projects for HPF grant funding:

1. Kings Canyon Cultural Resources Inventory including parcels not included in the 2013 scope of work due to lack of funding, and also including the Toll Gate and Quill Ranch House foundations and immediate surroundings (this was the project that originally selected by the Historic Resources Commission, then changed to the Nevada State Prison after the award)
2. Kings Canyon Road National Register of Historic Places Designation
3. Nevada State Prison Historic Structures Report (currently selected for 2016 grant application)
4. Historic Preservation training through the National Alliance of Preservation Commissions

provide direction on the type of training they would like to receive. If this option is not selected for the 2016 grant cycle, staff recommends that it stay on the list for consideration in future grant cycles.

Re-selection, if desired, will not impact staff's ability to submit the 2016 application on time, as SHPO has informed staff that the application deadline for the 2016 grant funding is going to be extended to February 2016 for all applications statewide. The following list contains the current suggested projects for HPF grant funding:

1. Kings Canyon Cultural Resources Inventory including parcels not included in the 2013 scope of work due to lack of funding, and also including the Toll Gate and Quill Ranch House foundations and immediate surroundings (this was the project that originally selected by the Historic Resources Commission, then changed to the Nevada State Prison after the award)
2. Kings Canyon Road National Register of Historic Places Designation
3. Nevada State Prison Historic Structures Report (currently selected for 2016 grant application)
4. Historic Preservation training through the National Alliance of Preservation Commissions

MEMORANDUM

Historic Resource Commission Meeting of November 12, 2015

TO: Historic Resource Commission **Item F-3**

FROM: Susan Dorr Pansky, AICP
Planning Manager

DATE: November 4, 2015

SUBJECT: HRC-15-070 – 2016 Historic Preservation Fund Grant - Possible Project Re-selection

If project re-selection is desired, staff recommends the following motion:

RECOMMENDED MOTION: "I move to recommend that staff submit a 2016 Historic Preservation Fund Grant application for the 'INSERT PROJECT NAME HERE' project on behalf of Carson City, a Certified Local Government."

At the September 10, 2015 Historic Resources Commission (HRC) meeting, the HRC directed staff to apply for 2016 Historic Preservation Fund (HPF) grants for two projects from the recommended project list. These projects included the following:

1. Nevada State Prison Historic Structures Reports
2. Carson City Blue Line Maintenance, Historic Building Markers and Historic District Street Sign Toppers

After the meeting, staff discussed the HRC's selection with the State Historic Preservation Office (SHPO) and was informed that the Carson City Blue Line Maintenance, Historic Building Markers and Historic District Street Sign Toppers would not be eligible for the Historic Preservation Fund grant money.

Additionally, SHPO advised staff that applying for two projects would ultimately result in SHPO asking Carson City to choose which one was of highest priority, as they would not fund a portion of both, but rather one project or the other.

As a result, staff is currently planning to move forward with an HPF grant application for only the Nevada State Prison Historic Structures Reports. However, prior to preparing the grant application, staff would like to request final direction from the HRC in the event that the HRC would like to select a different project.

Staff would also like to offer HRC training on Historic Preservation as an additional use of the grant funding. This option was suggested by SHPO as a result of staff requesting training for the HRC on various topics. There are several training programs available through the National Alliance of Preservation Commissions. If this option is selected, staff requests that the HRC

provide direction on the type of training they would like to receive. If this option is not selected for the 2016 grant cycle, staff recommends that it stay on the list for consideration in future grant cycles.

Re-selection, if desired, will not impact staff's ability to submit the 2016 application on time, as SHPO has informed staff that the application deadline for the 2016 grant funding is going to be extended to February 2016 for all applications statewide. The following list contains the current suggested projects for HPF grant funding:

1. Kings Canyon Cultural Resources Inventory including parcels not included in the 2013 scope of work due to lack of funding, and also including the Toll Gate and Quill Ranch House foundations and immediate surroundings (this was the project that originally selected by the Historic Resources Commission, then changed to the Nevada State Prison after the award)
2. Kings Canyon Road National Register of Historic Places Designation
3. Nevada State Prison Historic Structures Report (currently selected for 2016 grant application)
4. Historic Preservation training through the National Alliance of Preservation Commissions
