11(B) POSSIBLE ACTION TO APPROVE CONTRACT NO. 1617-097, 911 PHONE SERVICES WITH AT&T CORPORATION, FOR AN ANNUAL AMOUNT OF \$174,598.56, FOR FIVE YEARS FOR A TOTAL CONTRACT AMOUNT OF \$872,992.80, TO BE FUNDED FROM THE 911 SURCHARGE FUND (8:57:44) - Mayor Crowell introduced this item, and Purchasing and Contracts Administrator Laura Rader reviewed the agenda materials. Kent Ames, of AT&T Public Safety, responded to questions of clarification, and explained the requirement for the upgrade. Chief Schreihans responded to questions regarding the 9-1-1 surcharge fund. Sheriff Furlong stated, "This is a statewide issue. It is recognized that the fees that are being generated at this point, today, are not sufficient to maintain the technologies ..." In response to a question, Sheriff Furlong anticipated that "other than routine maintenance, equipment breakages, ..." there would not be "another hit ... The data systems that we upgraded last year are completed. They are all in. All systems are running. The 9-1-1 system, obviously, is a parallel fee to that. I cannot anticipate, other than regular maintenance in the next two to three years, where we would have another surcharge needed."

In response to a question, Sheriff's Department Communications Manager Karin Mracek reviewed the list of other vendors contacted. In response to a question, Chief Schreihans advised that the 9-1-1 surcharge fee increase is "on the Governor's agenda because they have to do it on a statewide level." He advised of the necessity to eventually replace the radio systems in the dispatch center. "That's going to be an expensive hit but it doesn't come through this particular fund. ... that's downstream a couple years from now just so you're aware of it on the radar that there are some radio upgrades that have to happen." Chief Schreihans and Mr. Ames responded to additional questions of clarification.

Mayor Crowell entertained public comment. (9:14:02) 9-1-1 Surcharge Advisory Committee Chair Anne Keast read a prepared statement into the record expressing support for the contract.

The funding listed in the "Financial Information" portion of the staff report was generated from the Fall Tree Care Seminar. She advised that the Parks and Recreation Department does not currently have a certified arborist. "... we would really like to embrace that Urban Forestry Program within our Department, specifically in our Parks Operations Division. We do have staff interested and passionate about this field and that would like to be certified ... We're working with other agencies in the region to do some collaborative outreach and education. ... we want to make sure that we provide continuing education opportunities, education for the public, and taking that on and we're looking forward to doing that. ... we're currently going through a strategic planning process right now for the Department. We'll be incorporating this in our strategic plan." Ms. Budge discussed the Tree City USA designation which "demonstrates a commitment from the community, especially the City. You have to have a \$2 per capita investment in trees to even get that designation among a multitude of other requirements." Mayor Crowell entertained additional public comment and, when none was forthcoming, a motion. **Supervisor Bagwell moved to authorize the Parks, Recreation, and Open Space Department to submit three separate Land and Water Conservation Fund grant applications for the following projects: (1) the Disc Golf Course Complex site improvements; (2) the Ross Gold Park Playground replacement; and (3) purchase, through a fee-title acquisition, 20 acres of land along U.S. Highway 50 near the Clear Creek Interchange, APN 007-051-81, from W. Mr. Krahn responded to questions of clarification, and discussion ensued. Supervisor Bonkowski requested assurance that “it's broad enough that we can use it; for instance, if we can't replace all of the playground equipment the way we've just discussed and we have to scale it back, that we can still use this money for the improvements in the park, which is the asphalt, the sidewalks, the trails, the other things that are in there.” Supervisor Bonkowski reiterated “that if we don't get all of the funding from all of the funding sources, ... I'd like to have the ability to revisit this and not have it come back in the eleventh hour as a request for more funds because we have to move this project forward.” Mr. Krahn acknowledged his understanding. Supervisor Barrette expressed agreement.

Mayor Crowell entertained public comment and, when none was forthcoming, a motion. **Supervisor Bagwell moved to authorize \$86,643 in Residential Construction Tax funds for the Ross Gold Park project. Supervisor Abowd seconded the motion.** Mayor Crowell entertained discussion on the motion and, when none was forthcoming, called for a vote.

13. PARKS, RECREATION, AND OPEN SPACE DEPARTMENT - POSSIBLE ACTION TO FORMALLY AGREE TO THE ASSIGNMENT OF THE SURFACE WATER RIGHTS AND RESPONSIBILITIES, AS INDICATED IN THE 2007 PURCHASE AND SALE AGREEMENT FOR APN 010-071-25, FROM THE ROBERT LORIN ANDERSEN TRUST TO THE LIMITED LIABILITY COMPANY: CRANDALL-ANDERSEN, AND TO AUTHORIZE THE MAYOR AND MS. BOLLINGER TO SIGN THE CONSENT AGREEMENT ON BEHALF OF THE CITY (10:48:09) - Mayor Crowell introduced this item, and Open Space Administrator Ann Bollinger reviewed the agenda materials. In response to a question, Attorney Jennifer Mahe, representing Mickey Andersen, stated, “Assuming that the transfer is approved, the LLC would be willing to discuss possibly entering into an option with the City if there's any interest. ... that's a conversation ... I think we could have down the road.”

Mayor Crowell entertained additional questions or comments of the Board members and public comment. (10:50:38) Bruce Kittess advised of having spoken at “the acquisition hearing in 2007 and was in favor of it. At that time, Vidler Water [Company] had the option to buy the water. And at that time, because the real estate market was booming out in Dayton, the water rights were up in the \$20,000 range for purchase.” Mr. Kittess provided background information, and noted that the Andersens have the “right to use their water on the property. And the reason they want to do that is that if ... the rancher that owns the water rights can't use the water on the property, they could lose their Alpine water rights. And, at that time, ... when the City purchased the Jarrard property, ... 478 acres, ... one of the ranchers said the water rights are more than what you're paying for the property. So the City paid \$3.5 million for the 86 acres and \$3.7

CARSON CITY BOARD OF SUPERVISORS

Page 8

million for the Jarrard property and, in both cases, the ranchers retained the water rights and can use the water rights so they don't lose it. ... that goes back to the question that Supervisor Abowd has and which my interest is because I think someday ... the City will need the property for effluent. ... you're only discussing the Andersen but the subject is the same for Jarrard. Do the ... existing agreements enable the ranchers to continue to use ... their water on the property which would postpone the City being able to use it for effluent if you need it? And given the City has purchased a lot of water rights from Minden now, I don't know why the City would be in the market to buy water. So really you're waiting for the building boom out in Dayton in order for the need for those water rights to be purchased. And they are in the Dayton segment of it. ... the main purpose for my question is to explain the full story that both those ranchers have to ... use their water on the property for beneficial use. The water belongs to them. So do the contracts permit the continued use of their water on the 478 acres?"

Ms. Bollinger provided background information on the City's acquisition of the Andersen and Jarrard properties. "... as long as they hold water rights, they reserve the right to use them on the land and continue irrigation. Because, with the State Engineer, if you don't use your water rights you risk losing them. ... for us, it was also a mutual benefit of having a land manager on the land. ... the next step forward, as the agreement says, is upon the sale of the water rights, each party can remain on the land up to 4 years to help them transition out of their business, but the City also has to find water one way or another to put on the land. That is also in our agreement with the State of Nevada. There is a Question #1 program that helped purchase these lands as well. ... as you're aware, I had talked with Public Works so we know ... this issue is out there that we do need to find water one way or another. ... and you'll see that on our work plan for 2017 ..."

Supervisor Bonkowski noted "this is an assignment of the water rights between related parties. This is not a sale of the water rights so it doesn't affect the ability of the owner of water rights to use it on the property." Ms. Bollinger acknowledged the accuracy of the statement. In response to Mr. Kittess' comments, Mayor Crowell provided background information on acquisition of the Town of Minden water rights. "... it was part of a transaction to move water here."

Mayor Crowell entertained additional public comment and, when none was forthcoming, a motion. **Supervisor Bonkowski moved to consent to the assignment of the surface water rights and responsibilities, pursuant to the Purchase and Sale Agreement, for APN 010-071-25, as outlined in the agreement from the Lorin Andersen Trust to Crandall-Andersen, LLC, and to authorize the Mayor and Ms. Bollinger to sign the consent agreement on behalf of the City. Supervisor Barrette seconded the motion.** Mayor Crowell entertained discussion on the motion and, when none was forthcoming, called for a vote.

Planning Manager Hope Sullivan reviewed the agenda materials in conjunction with displayed slides, and responded to questions of clarification. Supervisor Abowd noted “we live in a high wind prone area. Second, ... the various agencies involved always take the path of least resistance and so, of course, going above ground

is the easier way to go. ... personally, I'm opposed to that in this area. ... it creates problems down the road that, if done right the first time, would not create problems.”

Supervisor Bonkowski expressed agreement with Supervisor Abowd's comments. Supervisor Bonkowski suggested looking into the necessity of changing the name of “Sierra Pacific Power” to “NV Energy” at the title to 1.5e. Supervisor Bagwell suggested changing the title to “Utility Companies,” and discussion followed. Mayor Crowell suggested including language requiring underground utilities, and Ms. Sullivan suggested that a finding could be added. Mr. Plemel clarified “this is relating to big utility corridors. This is the stuff that goes across BLM and ... from one end of the county to the other. This isn't the local stuff that goes down the streets, although it may if that ends up being one of these major corridors. But ... this is not subverting the franchise agreement that the City is already into with the companies.” Mr. Plemel expressed the belief that “the intent of these corridors is to allow them specifically to do overhead ...; that's the intent of the legislation for these ... big transmission lines.”

In response to a question regarding the language of the statute, Ms. Sullivan explained the objective “to look at large carriers and to make sure no municipality will block the passage through their jurisdiction. ... we came up with a minimum to comply with state law.” Consensus of the Board was to request staff to revise the language, and reagendaize the item for review and approval. No formal action was taken.

14(E) POSSIBLE ACTION TO ACCEPT THE CARSON CITY MASTER PLAN ANNUAL REPORT FOR CONSIDERATION IN SETTING CITY STRATEGIC PLAN GOALS AND WORK PROGRAMS FOR 2017 (11:14:12) - Mayor Crowell introduced this item.
