## **Background/Issues & Analysis**

The purpose of the Carson City School District Emergency Operations Plan (EOP) is to identify and respond to incidents by outlining the responsibilities and duties of the District and its employees. Developing, maintaining, and exercising the plan empowers employees in an incident to act quickly and knowledgeably. In addition, the plan educates staff, faculty, students, and other key stakeholders on their roles and responsibilities before, during, and after an incident.

The Emergency Operations Plan outlines the expectations of staff/faculty; roles and responsibilities; direction and control systems; internal and external communications plans; training and sustainability plans; authority and references as defined by local, State, and Federal government mandates; common and specialized procedures; and specific hazard vulnerabilities and responses/recovery.

In accordance with NRS 388, the District has ensured that community partners participate on the District's EOP Development Committee. Community partners include the local emergency manager, law enforcement, school resource officers, and safety officials, as well as public and mental health associates. The City has also ensured that the School District participates in the Local Emergency Planning Committee (LEPC) by affording the District voting representation on the LEPC.

These two committees are both integral in developing, maintaining and exercising the Carson City School District Emergency Operations Plan. This presentation will provide an overview of the National Incident Management System, Incident Command System and how these structures support school districts, local, state and federal emergency response agencies in working together when responding to emergencies.
