

**NOTICE OF MEETING OF THE  
CARSON AREA METROPOLITAN PLANNING  
ORGANIZATION (CAMPO)**

**Day:** Wednesday  
**Date:** May 8, 2019  
**Time:** Beginning at 4:30 pm  
**Location:** Community Center, Sierra Room, 851 East William Street, Carson City, Nevada

**AGENDA**

**AGENDA NOTES:** The Carson Area Metropolitan Planning Organization (CAMPO) is pleased to make reasonable accommodations for members of the public who are disabled and wish to attend the meeting. If special arrangements for the meeting are necessary, please notify Carson Area Metropolitan Planning Organization staff in writing at 3505 Butti Way, Carson City, Nevada, 89701, or Comments@CarsonAreaMPO.com, or call Lucia Maloney at (775) 887-2355 at least 24 hours in advance.

For more information or for copies of the supporting material regarding any of the items listed on the agenda, please contact Lucia Maloney, Transportation Manager, at (775) 887-2355. Additionally, the agenda with all supporting material is posted on the CAMPO website at [www.carson.org/agendas](http://www.carson.org/agendas), or is available upon request at 3505 Butti Way, Carson City, Nevada, 89701.

- 1. ROLL CALL AND DETERMINATION OF A QUORUM**
- 2. AGENDA MANAGEMENT NOTICE:** The Chair may take items on the agenda out of order; combine two or more agenda items for consideration; and/or remove an item from the agenda or delay discussion relating to an item on the agenda at any time.
- 3. DISCLOSURES:** Any member of the CAMPO Board may inform the Chair of his or her intent to make a disclosure of a conflict of interest on any item appearing on the agenda or on any matter relating to the CAMPO's official business. Such disclosures must also be made at such time the specific agenda item is introduced.
- 4. PUBLIC COMMENT:** Members of the public who wish to address the CAMPO Board may approach the podium and speak on any matter relevant to or within the authority of CAMPO. Comments are limited to three minutes per person per topic. If your item requires extended discussion, please request the Chair to calendar the matter for a future CAMPO meeting. No action may be taken upon a matter raised under this item of the agenda until the matter itself has been specifically included on an Agenda as an item upon which action may be taken.
- 5. APPROVAL OF MINUTES:**
  - 5-A For Possible Action** – Discussion and possible approval of the March 13, 2019 draft minutes.

## 6. PUBLIC MEETING ITEM(S):

**6-A For Possible Action** – Discussion and possible action to authorize the Transportation Manager to sign Cooperative Agreement No. PR186-19-804 for commitment to complete the Fiscal Year (FY) 2020 Unified Planning Work Program (UPWP) and to authorize the Transportation Manager to sign future amendments to this agreement regarding time extensions or to a change in the value of funding of up to 10% of the initial funding amount.

**Staff Summary:** The proposed agreement commits CAMPO to perform work tasks in the UPWP for the time period of July 1, 2019 through June 30, 2020 and to comply with the matching requirements for the expenditure of federal Consolidated Planning Grant (CPG) funds.

**6-B For Possible Action** – Discussion and possible action to approve an amendment to the 2019/2020 Unified Planning Work Program (UPWP).

**Staff Summary:** This is the second amendment to CAMPO's 2019/2020 UPWP, developed in response to the FY 2020 funding estimate provide to CAMPO by NDOT staff in April 2019. The amendment includes a reduction in funding within General Administration and Work Program Oversight (Task 1.1), adding funding for the 2040 Regional Transportation Plan (Task 3.1), adding funding to Regional Consistency Review (Task 3.5), adding funding to Update and Maintain the Transportation Improvement Program (Task 4.2), and adding funding to Data Management, Collection, and Performance Measurement (Task 4.4). The amendment also amends the scope for Intelligent Transportation Systems (ITS) Planning (Task 3.3) and Non-Motorized Asset Management (5.3), and provides refined scheduled milestone dates across several tasks.

**6-C For Possible Action** – Discussion and possible action regarding approval of a formal amendment to CAMPO's Federal Fiscal Year (FFY) 2018-2021 Transportation Improvement Program.

**Staff Summary:** The proposed amendment will add and amend projects in the CAMPO FFYs 2018-2021 Transportation Improvement Program (TIP). The project being added is the Carson Area Transportation System Management Plan and the projects being amended are the Fairview Drive Reconstruction Project and the Airport Road Sewer and Road Project.

**6-D For Information Only** – Presentation and discussion about the 2018 Jump Around Carson (JAC) Non-Rider survey conducted October 29 through December 2, 2018 as part of the Unified Planning Work Program.

**Staff Summary:** A survey was conducted from October 29 through December 2, 2018, to understand travel preferences and capture basic demographics of the portion of the public that chooses not to use JAC transit services. The survey was conducted as part of CAMPO's 2019/2020 Unified Planning Work Program (UPWP) transit non-rider survey (Task 2.2). Survey results were compared to the JAC transit user survey conducted in 2017 to understand opportunities to increase ridership and customer satisfaction.

**7. INTERNAL COMMUNICATIONS AND ADMINISTRATIVE MATTERS – Non-Action Items:**

7-A Future Agenda Items

**8. BOARD COMMENTS: For Information Only** – Status reports and comments from the members of the CAMPO Board.

**9. The Next Meeting is Tentatively Scheduled** – 4:30 p.m., Wednesday, June 12, 2019, at the Sierra Room - Community Center, 851 East William Street.

**10. PUBLIC COMMENT:** Members of the public who wish to address the CAMPO Board may approach the podium and speak on any matter relevant to or within the authority of CAMPO. Comments are limited to three minutes per person per topic. If your item requires extended discussion, please request the Chair to calendar the matter for a future CAMPO meeting. No action may be taken upon a matter raised under this item of the agenda until the matter itself has been specifically included on an Agenda as an item upon which action may be taken.

**11. ADJOURNMENT: For Possible Action**

This agenda has been posted at the following locations on Thursday, May 2, 2019, before 5:00 p.m.:

City Hall, 201 North Carson Street  
Community Center, Sierra Room, 851 East William Street  
Carson City Library, Carson City Library, 900 North Roop Street  
Carson City Public Works, 3505 Butti Way  
Carson City Planning Division, 108 E. Proctor Street  
Douglas County Executive Offices, 1594 Esmeralda Avenue, Minden  
Lyon County Manager's Office, 27 South Main Street, Yerington  
Nevada Department of Transportation, 1263 S. Stewart Street, Carson City

**CARSON AREA METROPOLITAN PLANNING ORGANIZATION**

**Minutes of the March 13, 2019 Meeting**

**Page 1**

**DRAFT**

A regular meeting of the Carson Area Metropolitan Planning Organization was scheduled for 4:30 p.m. on Wednesday, March 13, 2019 in the Community Center Sierra Room, 851 East William Street, Carson City, Nevada.

**PRESENT:** Chairperson Mark Kimbrough  
Vice Chairperson Greg Stedfield  
Member Lori Bagwell  
Member Brad Bonkowski  
Member Jon Erb  
Member Vida Keller  
Member Chas Macquarie  
Ex-Officio Member Sondra Rosenberg

**STAFF:** Darren Schulz, Public Works Department Director  
Lucia Maloney, Transportation Manager  
Dirk Goering, Senior Transportation Planner  
Daniel Anderson, Transportation Planner / Analyst  
Todd Reese, Deputy District Attorney  
Kathleen King, Chief Deputy Clerk

**NOTE:** A recording of these proceedings, the CAMPO's agenda materials, and any written comments or documentation provided to the Clerk, during the meeting, are part of the public record. These materials are available for review, in the Clerk's Office, during regular business hours.

**1. CALL TO ORDER AND DETERMINATION OF A QUORUM (4:34:11)** - Chairperson Kimbrough called the meeting to order at 4:34 p.m. Ms. King called the roll; a quorum was present. Chairperson Kimbrough welcomed Member Keller.

**2. AGENDA MANAGEMENT NOTICE (4:34:46)** - Chairperson Kimbrough entertained modifications to the agenda; however, none were forthcoming.

**3. DISCLOSURES (4:34:50)** - Chairperson Kimbrough entertained disclosures; however, none were forthcoming.

**4. PUBLIC COMMENT (4:34:59)** - Chairperson Kimbrough entertained public comment; however, none was forthcoming.

**5. POSSIBLE ACTION ON APPROVAL OF MINUTES - February 13, 2019 (4:35:18)** - Chairperson Kimbrough introduced this item, and entertained a motion. **Member Bonkowski moved to approve the minutes, as presented. Member Bagwell seconded the motion. Motion carried 7-0.**

**6. PUBLIC MEETING ITEMS:**

**6(A) PRESENTATION AND DISCUSSION REGARDING THE ONE TAHOE: A TRANSPORTATION FUNDING INITIATIVE BEING UNDERTAKEN BY THE TAHOE TRANSPORTATION DISTRICT (4:35:45)** - Chairperson Kimbrough introduced this item. Tahoe Transportation District Manager Carl Hasty provided an overview of the subject presentation. Consultant

**CARSON AREA METROPOLITAN PLANNING ORGANIZATION**

**Minutes of the March 13, 2019 Meeting**

**Page 2**

**DRAFT**

Greg Krauss narrated a SlideShow presentation, copies of which were included in the agenda materials. Mr. Hasty responded to questions of clarification. Chairperson Kimbrough entertained additional CAMPO member questions or comments and public comments and, when none were forthcoming, thanked the gentlemen for their presentation.

**6(B) PRESENTATION AND DISCUSSION REGARDING ONGOING EFFORTS TO UPDATE CARSON CITY'S AMERICANS WITH DISABILITIES ACT ("ADA") TRANSITION PLAN FOR TRANSPORTATION FACILITIES, UNIFIED PLANNING WORK PROGRAM TASK**

**3.4 (5:01:46)** - Chairperson Kimbrough introduced this item, and Mr. Goering presented the agenda materials. Mr. Anderson reviewed the workflow process and GIS interface in conjunction with displayed software. He described plans to "focus on getting missing ramps. There are a lot of locations throughout the City where ramps are needed. And we also want to start focusing on condition assessments so we can track the life of a certain sidewalk or ramp."

Mr. Goering advised that a public meeting will be scheduled in late spring, and he anticipates the plan will be completed in late summer. Mr. Goering further advised that City staff is working with NDOT staff to ensure compliance. Mr. Anderson and Mr. Goering responded to questions of clarification. In response to a question, Ms. Maloney advised that, as part of the CAMPO Unified Planning Work Program, asset management tasks are being included. She clarified there is no dedicated budget line item for asset management. In response to a question, Mr. Schulz advised of a budget line item in the Streets Division, specifically earmarked for sidewalk repair and maintenance. "It is never enough. In fact, they finish with that money ... two or three months before the end of the fiscal year and then we move those crews on to other street projects because they're out of money ... And that money is specifically just for supplies for sidewalk repair and maintenance. It doesn't cover the salaries of the people that work on it. That line item for FY 20 ... is budgeted around \$220,000."

In response to a question, Member Erb advised that Douglas County does not have the same maps as Carson City or CAMPO relative to the ADA process. "We're probably a few steps behind Carson City in our transition plan. We had none that existed. We started it last year basically because of [the federal mandate.] Ms. Maloney discussed the intent to ensure we're looking at the full CAMPO area for planning and improvements in the long-term.

In response to a question, Mr. Goering advised that CAMPO funded staff's time to develop the software application. The application is being implemented throughout Carson City. "So it is a team effort but there are resources from CAMPO that are being used to build the inventory which is a requirement of the ADA Transition Plan." In response to a comment, Mr. Anderson advised of the intent to make the software application public. Ex-Officio Member Rosenberg advised that NDOT also has an ADA Transition Plan, and she offered to share information with the City. Chairperson Kimbrough entertained public comment; however, none was forthcoming.

**7. INTERNAL COMMUNICATIONS AND ADMINISTRATIVE MATTERS; FUTURE**

**AGENDA ITEMS (5:21:03)** - Chairperson Kimbrough introduced this item. Ms. Maloney reported that, as of Monday, March 18<sup>th</sup>, "CAMPO will be fully staffed. We'll have a new Transit Coordinator ... starting Monday." Ms. Maloney reviewed current projects, including the ADA Transition Plan, an amendment to the Public Participation Plan, and documents monitoring. She advised that the April CAMPO meeting may be canceled.

**CARSON AREA METROPOLITAN PLANNING ORGANIZATION**

**Minutes of the March 13, 2019 Meeting**

**Page 3**

**DRAFT**

**8. CAMPO MEMBER COMMENTS (5:22:03)** - Chairperson Kimbrough entertained CAMPO member comments. Ms. Keller greeted the CAMPO members. None of the other CAMPO members had any comments.

**9. THE NEXT MEETING IS TENTATIVELY SCHEDULED FOR 4:30 P.M. ON WEDNESDAY, APRIL 10, 2019 IN THE COMMUNITY CENTER SIERRA ROOM, 851 EAST WILLIAM STREET (5:22:47)** - Chairperson Kimbrough read this information into the record.

**10. PUBLIC COMMENT (5:22:54)** - Chairperson Kimbrough entertained public comment; however, none was forthcoming.

**11. ACTION ON ADJOURNMENT (5:23:03)** - Upon motion by Member Bonkowski, Chairperson Kimbrough adjourned the meeting at 5:23 p.m.

The Minutes of the March 13, 2019 Carson Area Metropolitan Planning Organization meeting are so approved this \_\_\_\_\_ day of April, 2019.

---

MARK KIMBROUGH, Chair

## STAFF REPORT

**Report To:** The Carson Area Metropolitan Planning Organization (CAMPO)

**Meeting Date:** May 8, 2019

**Staff Contact:** Lucia Maloney, Transportation Manager

**Agenda Title: For Possible Action** – Discussion and possible action to authorize the Transportation Manager to sign Cooperative Agreement No. PR186-19-804 for commitment to complete the Fiscal Year (FY) 2020 Unified Planning Work Program (UPWP) and to authorize the Transportation Manager to sign future amendments to this agreement regarding time extensions or to a change in the value of funding of up to 10% of the initial funding amount.

**Staff Summary:** The proposed agreement commits CAMPO to perform work tasks in the UPWP for the time period of July 1, 2019 through June 30, 2020 and to comply with the matching requirements for the expenditure of federal Consolidated Planning Grant (CPG) funds.

**Agenda Action:** Formal Action/Motion

**Time Requested:** 10 minutes

### **Proposed Motion**

I move to authorize the Transportation Manager to sign Cooperative Agreement No. PR186-19-804 for commitment to complete the Fiscal Year (FY) 2020 Unified Planning Work Program (UPWP) and to authorize the Transportation Manager to sign future amendments to this agreement regarding time extensions or a change in the value of funding of up to 10% of the initial funding amount.

### **Background/Issues & Analysis**

The proposed cooperative agreement commits CAMPO to perform work tasks in the UPWP for the time period of July 1, 2019 through June 30, 2020 and to comply with the matching requirements for the expenditure of federal Consolidated Planning Grant (CPG) funds allocated to the UPWP. This agreement is updated annually.

### **Applicable Statute, Code, Policy, Rule or Regulation**

-NRS Chapter 338

**Financial Information**

Is there a fiscal impact?  Yes  No

If yes, Fund Name, Account Name / Account Number: CAMPO fund, Services and Supplies account / 245-3028-431.12-01

Is it currently budgeted?  Yes  No

Explanation of Fiscal Impact: As shown in the agreement, an estimated amount of \$411,124.64 in Federal Consolidated Planning Grant (CPG) funding is available to perform work tasks in the UPWP for the time period of July 1, 2019 through June 30, 2020. The 2020 fiscal year proposed UPWP budget is for \$357,644, which is less than the funding available. This is reimbursable by Federal Consolidated Planning Grant (CPG) funds at a rate of 95%. For fiscal year 2020, the 5% local match is \$17,882, which will be split among the three member counties of Carson City, Douglas County, and Lyon County as shown in the Table below. The fiscal year 2020 member county invoice will include a portion of the ending FY19 share cost, increased as a result of a FY19 amendment (February 2019).

**FY 2019/2020 Local Match Combined**

County	Pct.	FY 2019			FY 2020 (as amended May 2019)
		As adopted May 2019	As Amended Feb. 2019	Increase	
Carson City	66%	\$12,665	\$13,825	\$1,160	\$11,856
Douglas County	15%	\$2,942	\$3,211	\$270	\$2,754
Lyon County	18%	\$3,496	\$3,816	\$320	\$3,272
Total	100%	\$19,103	\$20,853	\$1,750	\$17,882

**Alternatives**

-Not approve the amendment and provide alternate direction to staff

**Supporting Material**

COOPERATIVE AGREEMENT

This Agreement is made and entered into on \_\_\_\_\_, by and between the STATE OF NEVADA, acting by and through its Department of Transportation, hereinafter called the "DEPARTMENT", and the Carson Area Metropolitan Planning Organization, hereinafter called the "MPO".

The undersigned signatory MPO hereby commits to complete during State Fiscal Year (FY) starting July 1, 2019, and ending June 30, 2020, the Unified Planning Work Program (UPWP) as approved and is incorporated herein by this reference and made an express part of this Agreement.

All of the obligations, duties, terms and conditions set forth in the Cooperative Agreement NM111-16-804 and executed with effective dates of October 1, 2016, to September 30, 2020, between the MPO and the DEPARTMENT are incorporated herein by this reference as part of this UPWP Agreement for State Fiscal Year 2020.

The federal letter of approval to the DEPARTMENT from the Nevada Division of the Federal Highway Administration (FHWA) and Federal Transit Administration that approves the UPWP covering the time period of July 1, 2019, through June 30, 2020, is incorporated herein by this reference and made an express part of this Agreement.

The MPO agrees to comply with FHWA matching requirements for "Consolidated Planning Grant" funds obligated and encumbered against this UPWP. This UPWP obligates and encumbers only these following federal funds: FHWA – Metropolitan Planning (PL), 95/5 (federal/local). All local match funds are to be provided from non-federal sources.

Subject to availability of funds this FY, UPWP funds encumbered by the DEPARTMENT include, but may not exceed, the following: The estimated amount of federal funds for FY 2020 is Four Hundred Eleven Thousand One Hundred Twenty-Four and 64/100 Dollars (\$411,124.64).

Reimbursement of these funds will begin when the funds are made available to the DEPARTMENT. When federal funds become available this Agreement will be amended. The estimated amount of local match to be paid by the MPO is Twenty-One Thousand Six Hundred Thirty-Eight and 14/100 Dollars (\$21,638.14).

Should the MPO expend funds in excess of those federal funds actually encumbered for FY 2020 against this UPWP, those costs shall be borne solely by the MPO.

IN WITNESS WHEREOF, the parties have executed this Agreement on the day and year first above written.

## STAFF REPORT

**Report To:** The Carson Area Metropolitan Planning Organization (CAMPO)

**Meeting Date:** May 8, 2019

**Staff Contact:** Lucia Maloney, Transportation Manager

**Agenda Title:** **For Possible Action** – Discussion and possible action to approve an amendment to the 2019/2020 Unified Planning Work Program (UPWP).

**Staff Summary:** This is the second amendment to CAMPO’s 2019/2020 UPWP, developed in response to the FY 2020 funding estimate provide to CAMPO by NDOT staff in April 2019. The amendment includes a reduction in funding within General Administration and Work Program Oversight (Task 1.1), adding funding for the 2040 Regional Transportation Plan (Task 3.1), adding funding to Regional Consistency Review (Task 3.5), adding funding to Update and Maintain the Transportation Improvement Program (Task 4.2), and adding funding to Data Management, Collection, and Performance Measurement (Task 4.4). The amendment also amends the scope for Intelligent Transportation Systems (ITS) Planning (Task 3.3) and Non-Motorized Asset Management (5.3), and provides refined scheduled milestone dates across several tasks.

**Agenda Action:** Formal Action/Motion

**Time Requested:** 15 minutes

### **Proposed Motion**

I move to approve CAMPO’s FY 2019/2020 2-year Unified Planning Work Program as amended in Exhibit-2.

### **Previous Action**

The FY 2019/2020 UPWP was approved by CAMPO on May 9, 2018. The document was formally amended on February 13, 2019.

### **Background/Issues & Analysis**

As a result of receiving a draft funding agreement from NDOT for FY 2020, additional funds must be budgeted into the 2-year FY 2019/2020 UPWP. Task budgets from FY 2019 were reviewed to understand projected expenditure trends and additional funding was added or removed commiserate with forecast funding needs for FY 2020 in those tasks.

An official public comment period for this amendment was open from April 4 through May 4, 2019. No public comments were received.

The requested amendment will not alter the total amount authorized to CAMPO by NDOT for the 2019 fiscal year and is consistent with the draft funding agreement provided to CAMPO by NDOT for the 2020 fiscal year.

### **Applicable Statute, Code, Policy, Rule or Regulation**

-23 CFR Part 450C

**Financial Information**

Is there a fiscal impact?  Yes  No

If yes, Fund Name, Account Name / Account Number: CAMPO fund, Services and Supplies account / 245-3028-431.12.01

Is it currently budgeted?  Yes  No

Explanation of Fiscal Impact: If approved, the UPWP budget will be amended as shown in Tables 4.1 and 5.1 of Exhibit-1 attached. The total amended work program budget is \$774,694 with a total amended FY 2020 budget of \$357,644. Federal Consolidated Planning Grant (CPG) funding is eligible for a 5% local match requirement payable by the local jurisdictions. The FY 2019 (as adopted May 2018), FY 2019 (as amended February 2019), and FY 2020 as proposed local match funding is provided in the table below. The FY 2019 (as adopted May 2018) local match was invoiced to the local jurisdictions in August 2018. The FY 2019 increased local match portion and FY 2020 local match is planned to be invoiced in August 2019.

**FY 2019/2020 Local Match Combined**

County	Pct.	FY 2019			FY 2020 (as amended May 2019)
		As adopted May 2019	As Amended Feb. 2019	Increase	
Carson City	66%	\$12,665	\$13,825	\$1,160	\$11,856
Douglas County	15%	\$2,942	\$3,211	\$270	\$2,754
Lyon County	18%	\$3,496	\$3,816	\$320	\$3,272
Total	100%	\$19,103	\$20,853	\$1,750	\$17,882

## 1.0 Introduction

The Unified Planning Work Program defines the continuing, comprehensive, and cooperative regional transportation planning process for the Carson Area Metropolitan Planning Organization (CAMPO) planning area. It establishes regional planning objectives for Fiscal Years 2019/2020 covering the period of July 1, 2018 through June 30, 2020 and includes a corresponding budget to complete the work. This strategic management tool is organized by Work Elements that identify activities and products to be accomplished during the two-year period. These activities include core metropolitan planning functions, mandated metropolitan planning requirements, and other regional planning activities. As detailed in 23 CFR 450.308, each activity listed in the UPWP must indicate who will do the work, the schedule for completing the work, the resulting product, the proposed funding, and a summary of total amounts and sources of Federal and matching funds. Funding for metropolitan planning activities is made possible through the U.S. Department of Transportation – both the Federal Highway Administration and the Federal Transit Administration – and through the three local entities – Carson City, Douglas County, and Lyon County. Figure 1.1 depicts the CAMPO Metropolitan Planning Area.

Figure 1.1 CAMPO Metropolitan Planning Area

## **1.1 Organization Overview**

A Metropolitan Planning Organization is an organization of local governments in areas with a collective population of 50,000 or over, termed an Urbanized Area. As a condition for receiving Federal transportation dollars, MPOs must have a continuing, cooperative, and comprehensive transportation planning process in cooperation with the State. The MPOs are to cooperate with the State in developing transportation plans and programs for urbanized areas. This transportation planning process results in plans and programs consistent with the area's locally adopted comprehensive plans. On December 4, 2015, the Fixing America's Surface Transportation (FAST) Act was signed into law, reaffirming the role of MPOs. This is a five-year transportation bill which extends most of the provisions in the previous two-year bill, Moving Ahead for Progress in the 21st Century Act (MAP-21).

### **What is the Carson Area Metropolitan Planning Organization?**

In 2002, the US Census Bureau announced the release of the Carson City Urbanized Area geography (according to the 2000 Census), with a population that had surpassed the threshold of 50,000. The urbanized area consists of Carson City, as well as the adjacent, relatively densely inhabited portions of Douglas and Lyon Counties. As a result of surpassing the population criteria of 50,000, the area was required to form a Metropolitan Planning Organization for its transportation planning and programming activities. The Nevada Governor, in accordance with Federal regulations, designated the Carson Area Metropolitan Planning Organization (CAMPO) as a newly formed MPO in the State of Nevada. In 2012, the Census Bureau updated the urbanized area boundaries based on data collected during the 2010 Census, though changes were minor.

CAMPO carries out transportation planning activities within the Metropolitan Planning Area (MPA), shown on Figure 1.1. The MPA encompasses the urbanized area and a larger area that is likely to continue to urbanize within the next 20 years. Currently, there are two urban clusters, as defined by the US Census Bureau, within the MPA. They are the Johnson Lane area in Douglas County and Dayton in Lyon County.

Carson City Public Works staff serves as support staff to CAMPO. There are five staff members that carry out the daily operations and they include the Transportation Manager, Senior Transportation Planner, Transportation Planner, Transit Coordinator, and Bicycle and Pedestrian Coordinator. In addition, CAMPO utilizes Geographic Information Systems (GIS) staff on occasion for geographic analyses, the production of various maps, and other related tasks.

Carson City operates a transit system within the CAMPO planning area. Additionally, through an agreement with RTC Washoe, Carson City provides partial funding for an intercity transportation service based in Reno that operates within the CAMPO planning area. The representation on the MPO Policy Board from Carson City also represents the interests of the transit system.

## 1.2 CAMPO Policy Board and Staff

CAMPO's Policy Board is comprised of seven (7) members including the five (5) members of the Regional Transportation Commission of Carson City as appointed by the Carson City Board of Supervisors, one representative from Douglas County appointed by the Douglas County Board of Commissioners, and one representative from Lyon County appointed by the Lyon County Board of Commissioners. A representative from the Nevada Department of Transportation also serves as an ex-officio, non-voting member.

**Table 1.1 CAMPO Policy Board**

Member	Governmental Body Represented
Mr. Mark Kimbrough, Chairperson	Carson City
Mr. Brad Bonkowski, Vice-Chairperson	Carson City
Mr. Barry Penzel	Douglas County
Mr. Chas Macquarie	Carson City
<del>Mr. Don Alt</del> <u>Vida Keller</u>	Lyon County
Mr. Greg Stedfield	Carson City
Ms. Lori Bagwell	Carson City
Ms. Sondra Rosenberg*	Nevada Department of Transportation

\*Non-Voting ex-officio member

Additionally, CAMPO staff works closely with the CAMPO Policy Board for development of the UPWP and to carry out related tasks. All tasks identified in the UPWP are undertaken by staff with periodic updates to the CAMPO Policy Board.

**Table 1.2 CAMPO Staff**

Staff Member	Title
Mrs. Lucia Maloney, PMP	Transportation Manager
Mr. Dirk Goering, AICP	Senior Transportation Planner
<del>Vacant</del> <u>Mr. Dan H. Anderson</u>	Transportation Planner/ <u>Analyst</u>
Ms. Karissa Moffett	Bicycle and Pedestrian Coordinator
<del>Mr. Graham Dollarhide</del> <u>Michael Reynolds</u>	Transit Coordinator

## 1.3 Responsibilities and Priorities

The primary responsibility of CAMPO is the continued, cooperative, and comprehensive planning process; to provide for consideration and implementation of projects, strategies, and services that address the following factors:

- Increase the safety of the transportation system for motorized and non-motorized users
- Maintain a sustainable regional transportation system
- Increase the mobility and reliability of the transportation system for all users
- Maintain and develop a transportation system that supports economic vitality
- Provide an integrated transportation system

#### **1.4 Organizational Procedures and Documents**

The following list of documents includes organizational policies and procedures, programming documents, transportation planning studies, and other required documents, which are available on CAMPO's website: [www.CarsonAreaMPO.com](http://www.CarsonAreaMPO.com).

- CAMPO Policies & Procedures
- CAMPO Public Participation Plan
- CAMPO FFY 2018-2021 Transportation Improvement Program
- CAMPO Unified Planning Work Programs
- CAMPO Pedestrian Safety Guidelines
- Carson City Freeway Corridor Multi-Use Path Alignment Studies
- CAMPO Fare & Service Change Policy
- Notice of Protection Under Title VI
- CAMPO Disadvantaged Business Enterprise (DBE) Program
- CAMPO Disadvantaged Business Enterprise (DBE) FFY 2014-16 Goal
- CAMPO Complete Streets Performance Monitoring Program
- FFY 2017 Annual Obligation Report
- CAMPO Travel Demand Model Validation Report 2015
- CAMPO Bicycle Friendly Community Report Card 2014
- CAMPO Regional Transportation Plan

#### **1.5 Public Involvement**

Public involvement is a critical component of the MPO transportation planning process and the development of plans, programs, and policy. CAMPO's regional transportation planning program establishes an important forum for discussing and resolving regional transportation issues. Some examples of executing the continuing, comprehensive, and cooperative planning process include board meetings, public workshops, technical advisory committees, project- and issue-specific meetings, public hearings, and formal public document review periods. Specific policies and procedures for public involvement have been developed and are contained within CAMPO's [Public Participation Plan \(PPP\)](#) available on the [CarsonAreaMPO.com](http://CarsonAreaMPO.com) website. The PPP emphasizes efforts to coordinate with and involve all stakeholders and members of the public in the transportation planning process, including development of this Unified Planning Work Program.

The CAMPO region is also home to the Washoe Tribe of Nevada. CAMPO staff conducts government-to-government communication with the Washoe Tribe to consider tribal needs in the planning and programming process.

## 2.0 Summary of FY 2017 & FY 2018 Accomplishments and Work Efforts

In working with the U.S. Department of Transportation (U.S. DOT) and Nevada Department of Transportation (NDOT), it was determined that CAMPO would develop a two-year UPWP for the first time for FY 2017 and FY 2018. This allowed greater flexibility for CAMPO and its planning partners to complete more significant work tasks within a reasonable timeframe, and to better coordinate work tasks with the funding cycle. A two-year work program does not mean that two years' worth of funding is available in the first year. CAMPO cannot, and did not, seek reimbursement of funds in advance of obligation.

The following are the primary tasks that were undertaken during FY 2017 and FY 2018:

- *South Carson Street Complete Streets Study* – Staff worked with a consultant to help guide the vision for South Carson Street from Fifth Street to the I-580/Spooner Junction intersection. This is one of the primary travel corridors within the CAMPO area.
- *Travel Demand Model Update* – CAMPO staff hired a consultant team to update the travel demand model in anticipation of the next Regional Transportation Plan (RTP) update and in response to planning and/or completion of several major projects that will have a significant impact on the CAMPO region, including: completion of the Carson City Freeway, completion of the Downtown Carson Complete Street project, and further development of the Tahoe Reno Industrial Center (TRIC).
- *2017 Carson City Pavement Survey* – Carson City's roadway network was inventoried and the pavement conditions were reassessed in partnership with a contractor. This practice is performed every couple of years to strengthen the existing database and track historical benchmarks to provide a more robust analysis of pavement maintenance needs. This process ensures the most informed and efficient decisions are being made to address pavement health.
- *2017 Jump Around Carson (JAC) Transit User Survey* – This survey identified needs and concerns of the existing ridership base. Feedback received provided staff direction on what is working well with the system and where improvements can be made to better serve riders.
- *Adoption of Federally-Required Performance Measures and Targets* – On December 4, 2015, the Fixing America's Surface Transportation (FAST) Act was signed into law. In partnership with State and Federal planning partners, as well as fellow MPOs, staff continued to develop federally-mandated performance measures and targets, including adoption of Transit Asset Management (TAM) and Safety performance measure targets.
- *Transportation Improvement Program (TIP) Activities* – The TIP includes a four-year list of projects and is consistent with all Federal planning regulations. All federally funded projects must be included in the TIP. CAMPO staff worked to update the TIP, resulting in adoption of the FFY 2018-2021 TIP. Regular maintenance of the document was required through formal and administrative amendments.

- *Collection of Baseline Complete Streets Performance Information* – CAMPO began collection of baseline performance information, used to evaluate and monitor the performance of Complete Streets measures. Staff collected data on the Downtown Carson Complete Streets project and other key corridors throughout Carson City to understand changes or trends as a result of implementation of the City’s Complete Streets Monitoring Program and Complete Streets Policy.
- *Ongoing MPO Activities* – These tasks included general administration, MPO representation, public participation efforts, regional consistency review, training, and UPWP development.

### **3.0 Federal Planning Emphasis Areas/FAST Act Planning Factors**

The Federal Highway Administration (FHWA), in consultation with the Federal Transit Administration (FTA), develops Planning Emphasis Areas (PEAs) to promote policy, procedural, and technical topics that are to be considered by metropolitan planning organizations in preparation of work plans. The PEAs address a mix of planning issues and priority topics identified as requiring additional focus by MPOs. In addition to PEAs, the FAST Act expanded the scope of factors to consider in the transportation planning process. The sections below introduce PEAs and the FAST Act Planning factors and discuss how both are addressed across work elements in the UPWP.

#### **3.1 Federal Planning Emphasis Areas**

In 2014, the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) issued a statement encouraging MPOs to give priority to certain planning emphasis areas when updating their unified planning work programs. The three planning emphasis areas described below are FAST Act Implementation (recently updated from MAP-21), Regional Models of Cooperation, and Ladders of Opportunity.

*MAP-21/FAST Act Implementation* - Transition to Performance Based Planning and Programming. The development and implementation of a performance management approach to transportation planning and programming that supports the achievement of transportation system performance outcomes.

*Models of Regional Planning Cooperation* - Promote cooperation and coordination across MPO boundaries and across State boundaries where appropriate to ensure a regional approach to transportation planning. Coordination across MPO and across State boundaries includes the coordination of transportation plans and programs, corridor studies, and projects across adjacent MPO and State boundaries. It includes collaboration among State DOT(s), MPOs, and operators of public transportation on activities such as: data collection, data storage and analysis, analytical tools, and performance based planning.

*Ladders of Opportunity* - Access to essential services - as part of the transportation planning process identify transportation connectivity gaps in access to essential services. Essential services include housing, employment, health care, schools/education, and recreation. This emphasis area could include MPO and State identification of performance measures and analytical methods to measure the transportation system's connectivity to essential services and the use of this information to identify gaps in transportation system connectivity that preclude access of the public, including traditionally underserved populations, to essential services. It could also involve the identification of solutions to address those gaps.

### **3.2 FAST Act Planning Factors**

The metropolitan transportation planning process specified by the FAST Act and the implementing regulations contained in Title 23 Part 450 of the Code of Federal Regulations (CFR) requires CAMPO to maintain a cooperative, continuous, and comprehensive framework for making transportation investment decisions in the metropolitan area.

The FAST Act carries forward and expands the performance-based transportation planning framework established under MAP-21. This UPWP includes data collection and analytical tasks that will facilitate annual reporting about safety, travel delay, pavement condition, alternative mode share, and other performance metrics. This UPWP includes tasks to continue evaluation of the transportation performance measures and performance targets established in the RTP. It anticipates that these performance measures will be refined based on statewide MPO/NDOT coordination in the development of future RTPs.

Transportation legislation lists ten factors that must be considered as part of the transportation planning process for all metropolitan areas. The following factors shall be explicitly considered, analyzed as appropriate, and reflected in the planning process products (23 CFR Section 134 (h)):

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- Increase the safety of the transportation system for motorized and non-motorized users;
- Increase the security of the transportation system for motorized and non-motorized users;
- Increase accessibility and mobility of people and freight;
- Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns;
- Enhance the integration and connectivity of the transportation system, across and between modes throughout the State, for people and freight;
- Emphasize the preservation of the existing transportation system;
- Promote efficient system management and operation;
- Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
- Enhance travel and tourism.

### 3.3 Overview of FY 2019 and FY 2020 Work Efforts

CAMPO developed its first two-year UPWP in FY 2017. In working with U.S. DOT and NDOT, it was agreed that CAMPO would continue to implement its UPWP in a two-year cycle, which allows greater flexibility for CAMPO and its planning partners to complete more significant work tasks within a reasonable timeframe and to better coordinate work tasks with the funding cycle. A two-year work program does not mean that two years' worth of funds are available in the first year. CAMPO cannot seek reimbursement of funds in advance of obligation, but a two-year work program does provide certain advantages as described.

The following are the primary tasks to be undertaken during FY 2019 and FY 2020:

- Administer a survey of transit non-riders (residents and visitors who do not ride the Jump Around Carson (JAC) transit system) to identify needs and concerns. Feedback received will provide staff direction on what is working well with the system and where improvements can be made to better serve the community.
- The Carson City ADA Transition Plan will be updated. While the initial plan was developed in 2015, only a small portion of the City was inventoried due to budget constraints. It was anticipated that further inventory of the City would be done incrementally in the future. It is also a requirement to update the Transition Plan on a periodic basis. Now that development of the plan has occurred, more funding can go toward further inventory of facilities than previously. Consultant involvement is expected for this task.
- Roadways within the Douglas County portion of the CAMPO area will be inventoried, using a consultant, to reassess pavement conditions. This practice is performed every couple of years for Carson City and needs to be conducted in other portions of the CAMPO planning area to build a strong database and establish historical benchmarks, thereby providing a more robust analysis of pavement maintenance needs. This process ensures the most informed and efficient decisions are being made to address pavement health.
- Implementation of a Pavement Management Plan to support ongoing planning and programming activities related to roadway infrastructure in Carson City.
- The travel demand model, with a consultant team, will be maintained in anticipation of the next RTP update. As the economy continues to improve to pre-recession levels and our region grows, CAMPO expects changes in land use due to development projects, shifting socio-demographic characteristics, and continued updates to the roadway network. The model will be maintained with the most recent traffic volumes, population, and land use assumptions.
- A Transit Development and Coordinated Plan will identify the immediate needs of the transit system over the next five year period, as well as a longer-term vision for the service. It will also include interdisciplinary coordination and will specifically meet requirements for a locally developed, coordinated public transit-human services transportation plan, as required for receiving FTA Section 5310 funds.
- Ongoing tasks that include general administration, MPO representation, public participation efforts, regional consistency review, training, and UPWP development.

- On December 4, 2015, the Fixing America's Surface Transportation (FAST) Act was signed into law. Staff will monitor applicable transportation legislation and respond to any potential requirements of the new bill. In addition, staff will use this task to work with our State and Federal planning partners, as well as fellow MPOs, to continue to develop performance measures initially mandated by MAP-21.
- Update and maintain the Transportation Improvement Program (TIP) through the new eSTIP platform.

### 3.4 Federal Planning Emphasis Areas/FAST Act Planning Considerations and UPWP Tasks

Table 3.1 outlines FY 2019/FY2020 2-year UPWP Work Elements that address and support each Federal Planning Emphasis Area and FAST Act Planning Consideration. As illustrated below, all Federal Planning Emphasis Areas and FAST Act Planning Considerations are integrated into CAMPO’s FY 2019/FY 2020 two-year work program.

**Table 3.1 FY 2019/FY 2020 2-Year UPWP Work Elements and Federal Planning Emphasis Areas/Planning Considerations**

		Work Elements				
		1.0	2.0	3.0	4.0	5.0
PEAS	MAP-21/FAST Act Implementation	X	X	X	X	X
	Models of Regional Planning Cooperation	X	X	X	X	
	Ladders of Opportunity		X	X	X	
FAST Act Planning Factors	Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency			X	X	X
	Increase the safety of the transportation system for motorized and non-motorized users			X	X	X
	Increase the security of the transportation system for motorized and non-motorized users			X	X	X
	Increase accessibility and mobility of people and freight			X		X
	Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns		X	X		
	Enhance the integration and connectivity of the transportation system, across and between modes throughout the State, for people and freight		X	X	X	X
	Promote efficient system management and operation	X			X	X
	Emphasize the preservation of the existing transportation system				X	X
	Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation			X		X
	Enhance travel and tourism		X	X		

#### 4.0 FY 2019 – FY 2020 Unified Planning Work Program

CAMPO planning activities are divided into five work elements. Funding sources for CAMPO planning activities include a combination of federal transit and highway programs, as well as local funding used as the “match” for federal consolidated planning grant (CPG) funding. Table 4.1 lists the five work elements and total estimated cost for each. The following pages contain a detailed description of each of the work elements for the FY 2019/FY 2020 2-year UPWP, including work tasks, work products, estimated benchmarks, and estimated costs. A detailed summary table containing estimated cost and funding sources for all work elements is attached at the end of this document. Except where noted below for each task, work will be completed by CAMPO staff.

**Table 4.1 Total Budgeted Amount by Work Element and Fiscal Year**

Work Element	Description	FY 2019	FY 2020	Total Budgeted Amount
1.0	MPO Administration	\$142,000	<del>\$153,000</del> 144,302	<del>\$295,000</del> 286,302
2.0	Regional Coordination and Engagement	\$19,100	\$13,900	\$33,000
3.0	Regional Multimodal Planning	\$121,550	<del>\$52,500</del> 76,892	<del>\$174,050</del> 198,442
4.0	Transportation Performance Management	\$71,350	<del>\$5571,</del> 650	<del>\$127143,</del> 000
5.0	Asset Planning and Management	\$63,050	\$50,900	\$113,950
<i>Total</i>		\$417,050	<del>\$325,950</del> 357,644	<del>\$743,000</del> 774,694

**WORK ELEMENT 1.0 – MPO Administration**

The tasks in this work element cover activities related to the overall administration of CAMPO’s transportation planning program. All tasks are annual or ongoing activities undertaken to maintain compliance with federal/state regulations, organize and manage MPO activities, and improve staff skills.

**TASKS**

**1.1 General Administration and Work Program Oversight**

Description: This task includes general administrative functions concerning the transportation planning program including preparation of administrative reports, analyses, budgets, goals and objectives, correspondence, documents, memos, etc.

Task Elements:

- Preparation of required MPO reports and memoranda supporting the activities of CAMPO.
- Management and administration of budgets and agreements.
- Preparation of quarterly and end-of-year task/activity summaries and reports.
- Preparation of billings and reimbursement requests and other related activities.
- Grant management and oversight of transportation planning grants.
- Application and management of Consolidated Planning Grant (CPG) funds for CAMPO operations.
- MPO Board Support, including: providing special reports, researching MPO issues, preparation of board/public meeting materials, and attendance at MPO regular and special meetings.

Expected Products:

- Monthly agenda and meeting materials for CAMPO board meetings and other public hearings, as needed.
- Miscellaneous reports, analyses, correspondence, task summaries and memoranda, and funding management and invoicing for CAMPO and local transit operators, as needed.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$ <del>156,750</del> 148,487
Local	\$8,2507,815
Total	\$ <del>165,000</del> 156,302

**1.2 Unified Planning Work Program (UPWP) Development and Administration**

Description: This task includes administration of the FY 2019/FY 2020 2-year UPWP, and development of the FY 2021/FY 2022 2-year UPWP in cooperation with other local, regional, and statewide agencies. This task also includes UPWP amendments, as needed.

Task Elements:

- Administration of the FY 2019/FY 2020 2-year UPWP document.
- Implement the UPWP including amendments, as required.
- Development and preparation of the FY 2021/FY 2022 2-year UPWP.

Expected Products:

- FY 2018 UPWP 4<sup>th</sup> quarter report.
- FY 2019/FY 2020 2-year UPWP quarterly reports.
- Amendments to the FY 2019/FY 2020 2-year UPWP, as needed.
- An adopted FY 2021/FY 2022 2-year UPWP.

Estimated Benchmarks: Draft FY 2021/FY 2022 2-year UPWP, March 2020

Estimated Completion Date: Ongoing Tasks

Funding:

CPG	\$14,250
Local	\$750
Total	\$15,000

### 1.3 MPO Representation

Description: Staff will represent the MPO at events and meetings not related to specific other UPWP tasks. This task includes coordination with other regional MPOs, NDOT, Carson City, Douglas County, Lyon County, and other agencies and organizations to ensure development of transportation related projects that serve the best interests of the region. This task includes participation in the statewide planning process, including attendance and participation in the TPAC, the development and coordination of the Statewide Transportation Improvement Program (STIP), project selection, and participation in other advisory committees, as appropriate.

Task Elements:

- Preparation and attendance at events and meetings not related to specific other UPWP tasks.
- Ongoing coordination with other regional MPOs, NDOT, Carson City, Douglas County, Lyon County, and/or other agencies/organizations, as needed.
- Participation in statewide planning activities, as needed.

Expected Products:

- A well-represented MPO with ongoing inter- and intra-regional coordination.
- Coordinated State planning processes and documents.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$57,000
Local	\$3,000
Total	\$60,000

## 1.4 Professional Development

Description: This task focuses on professional development that enhances the capabilities of staff in exercising the responsibilities of the MPO, including training time and materials. This task includes memberships in related professional organizations, subscriptions to related professional periodicals, and dues/fees required for obtaining and maintaining professional certifications.

### Task Elements:

- Facilitation and/or attendance at training courses/seminars directly related to transportation planning as appropriate, including, but not limited to: TransCAD, GIS, planning best practices, State/federal grants administration, performance-based planning, asset management, professional services procurement, etc.
- Internal cross-training that promotes diverse staffing capabilities in regional transportation planning.
- Memberships in related professional organizations and subscriptions to related professional periodicals.
- Dues/fees required for obtaining and maintaining professional memberships/certifications.

### Expected Products:

- Enhanced staff capabilities.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

### Funding:

CPG	\$52,250
Local	\$2,750
Total	\$55,000

## **WORK ELEMENT 2.0 – Regional Coordination and Engagement**

Tasks within this work element include public participation, regional coordination, and engagement tasks necessary to carry out a continuing, comprehensive, and cooperative regional transportation planning activities. Tasks are ongoing activities designed to continue public participation and engagement efforts related to planning for all modes with all stakeholders, and to meet the requirements set forth in CAMPO’s Public Participation Plan.

### **2.1 Public Participation**

Description: Ongoing public participation efforts will be conducted throughout the program period related to numerous work study tasks including: necessary TIP or RTP amendments; development of corridor/specific studies; preparation of updates to regional planning documents and policies; development of the UPWP for the next fiscal years; public information campaigns to promote planning initiatives and programs; coordination with Tahoe MPO (TMPO) and Washoe County Regional Transportation Commission (Washoe RTC); and other related activities. This task includes publication of notices and maintenance of the CAMPO website, as the website is a useful tool for informing constituents of CAMPO’s purpose and activities.

Task Elements:

- Public noticing and stakeholder engagement for necessary TIP or RTP amendments.
- Activities necessary to host/coordinate public participation activities.
- Property owner outreach resulting from development of corridor/specific studies or local development projects.
- Public outreach and noticing needed for development of the next UPWP and next TIP.
- Development of public information campaigns that promote planning initiatives and programs.
- Continuous maintenance of the CAMPO website.

Expected Products:

- Hosted/coordinated public participation activities.
- Published notices.
- An operational website for distribution of current, accurate, and transparent public information.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$19,000
Local	\$1,000
Total	\$20,000

## 2.2 Regional Transit Coordination and Engagement

Description: There are five transit services operating within the CAMPO planning area (Eastern Sierra Transit Authority, BlueGo, Jump Around Carson, Douglas Area Rural Transit, and RTC Intercity) that are subsidized by member counties. This task includes regional coordination of transit services by CAMPO staff, development and implementation of a transit non-rider survey, and ongoing stakeholder engagement.

### Task Elements:

- Development and preparation of transit non-rider survey materials and workforce, and implementation of distribution channels.
- Hosted/coordinated public participation activities related to transit planning and implementation.
- Participation in local and regional planning processes for public transportation projects in which the Carson area has a vested interest.

### Expected Products:

- Coordination and communication among transit operators.
- Analysis of survey results from transit non-riders.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing, Draft/Final Transit non-rider survey results, Spring 2019

### Funding:

CPG	\$12,350
Local	\$650
Total	\$13,000

### WORK ELEMENT 3.0 – Regional Multimodal Planning

The activities in this work element carry out and support the integration of federal, state, and local transportation planning processes; complete activities and products to satisfy core planning functions and State and federal metropolitan planning requirements; consider all modes of transportation in implementing regional transportation goals; support transportation policy development and analyses; support the incorporation of various modal and corridor/specific plans into the Regional Transportation Plan and Transportation Improvement Program; and support ongoing and strengthened partnerships with government partners, organizations and agencies, and the public to further our regional transportation goals.

#### 3.1 2040 Regional Transportation Plan (RTP)

Description: The 2040 RTP was adopted by CAMPO in August 2016. This task includes maintenance of the 2040 RTP and any necessary administrative modifications or amendments. Community outreach on the document will continue, as well as coordination with partner agencies and local governments. This task includes activities to be conducted in anticipation of CAMPO’s 2045 RTP, planned to be adopted in FY 2021.

Task Elements:

- Administration of the 2040 RTP, including ongoing coordination with federal, State, and local partners to explore funding opportunities to implement the plan.
- Participation in public and interagency meetings as a transportation technical resource.
- Continued public outreach on RTP goals and concepts that promotes vibrant communities and improves public health.
- Processed RTP administrative modifications and/or amendments, as necessary.
- Project review that ensures consistency with established transportation plans and policies.
- Incorporation of federally required performance measures and/or targets as necessary.

Expected Products:

- RTP modifications and amendments, as necessary.
- Continued community outreach and education on the 2040 RTP.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$ <del>14,250</del> 27,922
Local	\$7501,470
Total*	\$ <del>15,000</del> 29,392

\*Consultant involvement is expected

### 3.2 Transit Planning

Description: This task incorporates responsibilities required of CAMPO as the direct recipient of FTA Section 5307 funds. CAMPO must apply for and manage these funds, including compliance activities and participation in regular federal reviews and audits. Staff will develop a JAC Transit Development and Coordinated Plan, which will include short range (1-5 years) and long range (6-20 years) planning, as well as meet the requirements for a locally developed Coordinated Transit-Human Services plan. As envisioned, the Transit Development and Coordinated Plan seeks to identify the immediate needs of the transit system over the next five year period, as well as a longer term vision for the service. The plan will document opportunities and challenges of the transit system and present a budget for operation of the system. The plan will be paid for in part through an interagency agreement with the Nevada Department of Transportation (NDOT). This task also includes development, maintenance, and administration of transit policies and procedures that support implementation of regional transit planning documents. The public outreach and coordination activities within this task specifically relate to transit planning and do not duplicate public outreach and coordination that is conducted under other tasks within this UPWP. Consultants may be used as needed to complete the tasks noted below.

Task Elements:

- Community outreach.
- Coordination with partner agencies.
- Participation in public and interagency meetings.
- Development of a Transit Development and Coordinated Plan.
- Title VI Program updates.
- DBE Program updates.
- DBE Goal updates.
- Transit responsibilities as a direct recipient – CAMPO, in coordination with NDOT, works with transit operators in the region to identify projects and distribute FTA funds among eligible operators and projects. Efforts under this subtask include training, project identification, allocation of funding, and coordination with FTA, NDOT, and transit operators.

Expected Products:

- Transit Development and Coordinated Plan.
- Project identification and allocation of funds among regional transit operators to allow for implementation of FTA transit programs.
- Title VI Program document for FFY 2020-22.
- DBE Program document for FFY 2020-22.
- DBE Goal creation for FFY 2020-22.

Estimated Benchmarks: Draft Transit Development and Coordinated Plan, ~~Spring-August~~ 2019; Final Transit Development and Coordinated Plan, ~~Summer-September~~ 2019; Title VI and DBE Program documents, Fall 2019.

Estimated Completion Date: Ongoing

Funding:

CPG	\$90,250
Local	\$4,750
Total*	\$95,000

*\*Consultant involvement is expected*

### 3.3 Intelligent Transportation Systems (ITS) Planning

Description: This task involves identifying ~~and planning for possible~~ long term strategies for planning and implementing Coordinated Traffic Signal Systems within the CAMPO planning area through development of a Carson Area Transportation System Management Plan. The Carson Area Transportation System Management Plan will be funded primarily through Federal infrastructure funding, with funding for additional CAMPO staff support coming from this Task. It is anticipated that development of the Plan will span multiple years; consequently, no benchmarks are anticipated until FY 2021.

Task Elements:

- Staff time to ~~identify possible long term strategies and needs for planning and implementing Coordinated Traffic Signal Systems~~ initiate and manage the Carson Area Transportation System Management Plan.

Expected Products:

- Staff coordination with partner jurisdictions and NDOT.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$13,348
Local	\$703
Total	\$14,050

*\*Consultant involvement is expected*

### 3.4 Updates to Supporting Regional Planning Documents

Description: This task includes updating the Carson City Americans with Disabilities Act (ADA) Transition Plan and obtaining plan approval from the Nevada Department of Transportation. Staff will work with a consultant to identify new areas of Carson City to be inventoried and added to the ADA Transition Plan and to update the existing planning document with new information. This task includes updates to CAMPO's Public Participation Plan (PPP). Finally, this task includes development, maintenance, and administration of transportation policies that support implementation of regional transportation planning documents.

Task Elements:

- Development of ADA Transition Plan updates.
- Development of Public Participation Plan updates.

Expected Products:

- Updated and expanded ADA Transition Plan.
- Updated Public Participation Plan.

Estimated Benchmarks: N/A

Estimated Completion Date: Updated Public Participation Plan, ~~September 2018~~ August 2019;  
Updated ADA Transition Plan, ~~January 2019~~ July 2019.

Funding:

CPG	\$33,250
Local	\$1,750
Total*	\$35,000

*\*Consultant involvement is expected*

### 3.5 Regional Consistency Review

Description: Development or capital improvement projects proposed within the CAMPO boundaries will be subjected to a review by staff to determine consistency with the RTP and TIP. Reviews will examine the effectiveness of proposed projects as they relate to the ability to relieve/prevent congestion, consideration of likely impacts of transportation policy on land use and development decisions, preservation and efficient utilization of transportation facilities, and other matters as required by federal or State regulation. The activities within this task do not duplicate routine reviews of proposed developments that are conducted by constituent units of government.

Task Elements:

- Provide input on proposed developments of regional significance with regard to the RTP and TIP.
- Annual growth management reviews.

Expected Products:

- Periodic transportation system review and reports.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$ <del>14,250</del> 23,750
Local	\$ <del>750</del> 1,250
Total	\$ <del>1</del> 25,000

## **WORK ELEMENT 4.0 – Transportation Performance Management**

The activities in this work element support and implement federal and State requirements for performance-based planning to inform decision-making, including: transportation data collection and management; travel demand modeling and forecasting; development of performance measures and targets; and various other information gathering, analyses, monitoring and reporting, as needed. This task includes development and implementation of the Transportation Improvement Program (TIP).

### **4.1 MAP-21/FAST Act Implementation and Performance Measures**

Description: Under this task, staff will work to comply with new requirements under MAP-21 and the FAST Act as they continue to be communicated from the U.S. Department of Transportation (U.S. DOT), with an emphasis on developing performance measures and establishing performance targets.

Task Elements:

- Coordination of data collection across CAMPO partner jurisdictions, transit operators, NDOT and FHWA in response to established performance measure target-setting requirements.
- Conduct technical analyses and model outputs that support development and implementation of MAP-21/Fast Act performance-based planning requirements.
- Preparation and development of documentation as required.

Expected Products:

- Compliance with MAP-21/FAST Act.
- Documentation as required.
- Ongoing participation in Nevada’s Planning Executive Group (PEG) and PEG Performance Measures Working Group.

Estimated Benchmarks: Adopted performance measure targets that meet MAP-21/Fast Act requirements.

Estimated Completion Date: Ongoing

Funding:

CPG	\$30,400
Local	\$1,600
Total	\$32,000

## 4.2 Update and Maintain the Transportation Improvement Program

Description: This task supports the selection, funding, and implementation of transportation projects that meet State and federal regulations. The MAP-21/FAST Act compliant Federal Fiscal Year (FFY) 2018-2021 Transportation Improvement Program (TIP) was adopted by the Regional Transportation Commission (RTC) on August 9, 2017. Activities under this task include administration and maintenance of the current FFY 2018-2021 TIP, including processing of modifications and amendments as needed, and development of the FFY 2020-2023 TIP in cooperation with other local, regional, and statewide agencies. The TIP includes a current four-year listing of projects and will be consistent with all Federal planning regulations. The format of the TIP will reflect consistency with NDOT's eSTIP platform. This task includes project tracking and financial tracking that is performance-based and consistent with the goals and objectives of MAP-21 and the FAST Act.

### Task Elements:

- Determine that sufficient federal, State, and local revenue sources are available to fund projects programmed in the TIP.
- Coordinate administration and maintenance of the TIP within the Statewide TIP (STIP).
- Provide reasonable opportunity for public comment in accordance with the Public Participation Plan and federal regulations.
- Incorporate Environmental Justice and ADA considerations, as appropriate.
- Consider best available performance information, including performance measures and targets, in prioritization of transportation improvement projects that are expected to support achievement of adopted targets MAP-21/FAST Act performance measures.
- Prepare modifications and amendments to the TIP, as needed.
- Coordinate modifications and amendments of the TIP program with the STIP to ensure changes are incorporated into the STIP.
- Develop and prepare the FFY 2020-2023 TIP for adoption.
- Ongoing participation in Nevada's Planning Executive Group (PEG) initiatives related to programming.
- Coordination with FHWA NV Division office, FTA, NDOT, and CAMPO partner agencies on project development and funding.
- Develop annual list of obligated projects.
- Document continuing, coordinated and comprehensive processes that include traditionally underrepresented and underserved populations and their community leaders (e.g., elderly, disabled, low income, and minorities).

Expected Products:

- FFY 2018-2021 TIP that is updated appropriately to include administrative modifications and amendments, as needed.
- Adopted FFY 2020-2023 TIP.
- Annual Federal Obligations Report.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$ <del>17,100</del> 22,800
Local	\$9001,200
Total	\$ <del>18</del> 24,000

### 4.3 Maintain Travel Demand Model

Description: Staff will work with a consultant to maintain the travel demand model in preparation for the next Regional Transportation Plan update and to meet ongoing forecasting needs. The model will be maintained with the most recent traffic volume counts available (segments/intersections) as well as population and land use assumptions. There are periodic needs to provide information to other agencies both within and outside the CAMPO planning area that is derived from, or is an input to, the modeling process. The majority of task costs are associated with consultant costs, with staff project management also included.

Task Elements:

- Ongoing travel demand modeling services through consultant service, including model maintenance activities to incorporate most current population and transportation network data.
- Using a contractor, produce requested model outputs for alternatives analysis, planning studies, or other regional activities as needed/requested.
- Using a contractor, update travel demand model and associated forecasting software and tools as necessary.
- Provision of information from the modeling process as needed/requested.

Expected Products:

- Validated and maintained travel demand model.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$39,900
Local	\$2,100
Total*	\$42,000

*\*Consultant involvement is expected*

#### 4.4 Data Management, Collection, and Performance Measurement

Description: This task builds from prior UPWP tasks and supports monitoring of transportation performance measures included in the 2040 RTP. Staff will continue to collect baseline information to evaluate and monitor the performance of Complete Streets and transportation infrastructure within CAMPO’s planning area. Staff will collect data, record any changes or trends, and provide recommendations that may be used to inform future transportation improvement projects or policies. This task includes an update to CAMPO’s Complete Streets Performance Monitoring Program, which will expand the program from identified complete streets corridors to include data collection, monitoring, and reporting procedures across all transportation modes within the CAMPO area.

Task Elements:

- Ongoing data collection along facilities identified within the Complete Streets Performance Monitoring Program.
- Ongoing data collection related to safety, regional bicycle and pedestrian counts, vehicular movements, and other transportation infrastructure data as needed.
- Analyses of collected data on auto, transit, bicycle, and pedestrian use.
- Updates to the Complete Streets Performance Monitoring Program to comprehensively include all transportation modes within the CAMPO area.
- Coordinate the dissemination and consideration of transportation-related performance data.
- Periodic recommendations and/or reports.
- Development of an annual performance measure tracking report.

Expected Products:

- Updated Complete Streets Performance Monitoring Program document.
- FY 2019 and FY 2020 Annual Performance Measure Tracking Reports.

Estimated Benchmarks: Draft Updated Monitoring Program document, ~~April~~July 2019; Final Monitoring Program document, ~~June~~August 2019; FY 2019 Annual Performance Measure Tracking Report, September 2019.

Estimated Completion Date: ~~June~~August/September 2019 and Ongoing

Funding:

CPG	\$ <del>33,250</del> <u>42,750</u>
Local	\$ <del>1,750</del> <u>2,250</u>
Total	\$ <del>35,000</del> <u>45,000</u>

## WORK ELEMENT 5.0 – Asset Planning and Management

The activities in this work element support multi-modal asset management throughout the CAMPO planning area using ongoing data collection, analyses, and reporting to inform decision-making that promotes: efficient system management and operation; improves the resiliency and reliability of the transportation system; and emphasizes preservation of the existing transportation system. This task includes development and implementation of the Transportation Improvement Program (TIP).

### 5.1 Maintain Pavement Management System

Description: This task involves regular updates and maintenance of the Pavement Management System following improvements or changes to the street network or land uses. A consultant will be hired to collect data on the Douglas County roadway network within the CAMPO planning area. Staff will use this task to provide data to CAMPO to report on performance measures as they relate to pavement maintenance.

Task Elements:

- Conduct regular updates and maintenance of the Pavement Management System.
- Using a contractor, collect pavement survey data for the Douglas County roadways within the CAMPO planning area in a format that meets the individual needs of both Douglas County and CAMPO.

Expected Products:

- Up-to-date pavement management system.
- Pavement data.

Estimated Benchmarks: Completed pavement survey for Douglas County roadways within the CAMPO planning area.

Estimated Completion Date: Douglas County pavement survey, Summer 2019; Ongoing

Funding:

CPG	\$42,703
Local	\$2,248
Total*	\$44,950

*\*Consultant involvement is expected*

## 5.2 Roadway Asset Management

Description: CAMPO staff recently completed an initial draft of a Pavement Management Plan to support ongoing planning and programming activities related to roadway infrastructure in Carson City. This task begins implementation of that plan and includes activities required to amend the plan to incorporate future roadway condition data, or other amendments, as needed.

Task Elements:

- Implementation and Ongoing Maintenance of the Pavement Management Plan.

Expected Products:

- Up-to-date Pavement Management Plan.
- Ongoing activities supporting implementation of the plan, including annual pavement assessments supporting performance-based pavement rehabilitation investments.
- Reports to CAMPO on plan implementation and performance, as appropriate.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$28,500
Local	\$1,500
Total	\$30,000

### 5.3 Non-Motorized Asset Management

Description: Staff will continue to evaluate the existing bicycle and pedestrian network, work with member agencies and local advocates, and pursue grant opportunities to improve the accessibility and connectivity of the system. Using a consultant, this task includes a comprehensive sidewalk and bicycle facility inventory that will be mapped using ArcGIS. The inventory may be used to update maps within CAMPO's 2040 RTP.

Task Elements:

- Conduct a ~~comprehensive~~ non-motorized asset inventory (sidewalks, ramps, bicycle facilities) identifying ADA barriers.
- Conduct mapping activities that support integration of inventory data with CAMPO's web-based mapping platform.

Expected Products:

- Improved access and connectivity of the bicycle and pedestrian network.
- Sidewalks and bicycle facilities inventory.
- Maps of non-motorized assets, including sidewalks, ramps, and bicycle facilities, integrated into CAMPO's web-based mapping platform.

Estimated Benchmarks: Sidewalks and bicycle facilities inventory, Spring-Fall 2019; Ongoing

Estimated Completion Date: Ongoing

Funding:

CPG	\$25,650
Local	\$1,350
Total*	\$27,000

*\*Consultant involvement is expected*

#### 5.4 Transit Asset Management

Description: The activities within this task include development of a Transit Asset Management (TAM) Plan that is compliant with the FAST Act. Ongoing maintenance of the Plan, including annual performance target setting, will also be included.

Task Elements:

- Conduct an inventory and projection of transit assets, life expectancies, replacement costs, and maintenance activities and costs.
- Ongoing monitoring and updating of performance targets.

Expected Products:

- Draft and Final TAM Plan.
- Annual performance target updates in accordance with Federal requirements.

Estimated Benchmarks: Attainment of performance targets annually, and adherence to maintenance and replacement schedule established in the TAM Plan.

Estimated Completion Date: Ongoing and October 2018.

Funding:

CPG	\$11,400
Local	\$600
Total	\$12,000

## **5.0 FY 2019 – FY 2020 Unified Planning Work Program Budget**

CAMPO receives an annual apportionment of Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) funds that may be used for transportation planning activities. The FHWA funds are from the planning (PL) program and the FTA funds are allocated from the Section 5303 program. These two funding sources are combined as Consolidated Planning Grant (CPG) funds and may be used to reimburse up to 95% of eligible expenses. The CPG funds are allocated to CAMPO based on an agreed-upon distribution formula between NDOT and Nevada’s three other MPOs. See the individual work elements and tasks described earlier in this UPWP and the budget table, below, for additional budget information.

**Table 5.1 CAMPO FY 2019 and FY 2020 UPWP Cost/Funding Summary**  
**Amended 2/13/2019/5/8/2019**

Major Work Element	Work Task		Funding Breakdown		
	Task #	Description	CPG	Local Match	Total Cost

## 1.0 Introduction

The Unified Planning Work Program defines the continuing, comprehensive, and cooperative regional transportation planning process for the Carson Area Metropolitan Planning Organization (CAMPO) planning area. It establishes regional planning objectives for Fiscal Years 2019/2020 covering the period of July 1, 2018 through June 30, 2020 and includes a corresponding budget to complete the work. This strategic management tool is organized by Work Elements that identify activities and products to be accomplished during the two-year period. These activities include core metropolitan planning functions, mandated metropolitan planning requirements, and other regional planning activities. As detailed in 23 CFR 450.308, each activity listed in the UPWP must indicate who will do the work, the schedule for completing the work, the resulting product, the proposed funding, and a summary of total amounts and sources of Federal and matching funds. Funding for metropolitan planning activities is made possible through the U.S. Department of Transportation – both the Federal Highway Administration and the Federal Transit Administration – and through the three local entities – Carson City, Douglas County, and Lyon County. Figure 1.1 depicts the CAMPO Metropolitan Planning Area.

Figure 1.1 CAMPO Metropolitan Planning Area

## **1.1 Organization Overview**

A Metropolitan Planning Organization is an organization of local governments in areas with a collective population of 50,000 or over, termed an Urbanized Area. As a condition for receiving Federal transportation dollars, MPOs must have a continuing, cooperative, and comprehensive transportation planning process in cooperation with the State. The MPOs are to cooperate with the State in developing transportation plans and programs for urbanized areas. This transportation planning process results in plans and programs consistent with the area's locally adopted comprehensive plans. On December 4, 2015, the Fixing America's Surface Transportation (FAST) Act was signed into law, reaffirming the role of MPOs. This is a five-year transportation bill which extends most of the provisions in the previous two-year bill, Moving Ahead for Progress in the 21st Century Act (MAP-21).

### **What is the Carson Area Metropolitan Planning Organization?**

In 2002, the US Census Bureau announced the release of the Carson City Urbanized Area geography (according to the 2000 Census), with a population that had surpassed the threshold of 50,000. The urbanized area consists of Carson City, as well as the adjacent, relatively densely inhabited portions of Douglas and Lyon Counties. As a result of surpassing the population criteria of 50,000, the area was required to form a Metropolitan Planning Organization for its transportation planning and programming activities. The Nevada Governor, in accordance with Federal regulations, designated the Carson Area Metropolitan Planning Organization (CAMPO) as a newly formed MPO in the State of Nevada. In 2012, the Census Bureau updated the urbanized area boundaries based on data collected during the 2010 Census, though changes were minor.

CAMPO carries out transportation planning activities within the Metropolitan Planning Area (MPA), shown on Figure 1.1. The MPA encompasses the urbanized area and a larger area that is likely to continue to urbanize within the next 20 years. Currently, there are two urban clusters, as defined by the US Census Bureau, within the MPA. They are the Johnson Lane area in Douglas County and Dayton in Lyon County.

Carson City Public Works staff serves as support staff to CAMPO. There are five staff members that carry out the daily operations and they include the Transportation Manager, Senior Transportation Planner, Transportation Planner, Transit Coordinator, and Bicycle and Pedestrian Coordinator. In addition, CAMPO utilizes Geographic Information Systems (GIS) staff on occasion for geographic analyses, the production of various maps, and other related tasks.

Carson City operates a transit system within the CAMPO planning area. Additionally, through an agreement with RTC Washoe, Carson City provides partial funding for an intercity transportation service based in Reno that operates within the CAMPO planning area. The representation on the MPO Policy Board from Carson City also represents the interests of the transit system.

## 1.2 CAMPO Policy Board and Staff

CAMPO's Policy Board is comprised of seven (7) members including the five (5) members of the Regional Transportation Commission of Carson City as appointed by the Carson City Board of Supervisors, one representative from Douglas County appointed by the Douglas County Board of Commissioners, and one representative from Lyon County appointed by the Lyon County Board of Commissioners. A representative from the Nevada Department of Transportation also serves as an ex-officio, non-voting member.

**Table 1.1 CAMPO Policy Board**

Member	Governmental Body Represented
Mr. Mark Kimbrough, Chairperson	Carson City
Mr. Brad Bonkowski, Vice-Chairperson	Carson City
Mr. Barry Penzel	Douglas County
Mr. Chas Macquarie	Carson City
Ms. Vida Keller	Lyon County
Mr. Greg Stedfield	Carson City
Ms. Lori Bagwell	Carson City
Ms. Sondra Rosenberg*	Nevada Department of Transportation

\*Non-Voting ex-officio member

Additionally, CAMPO staff works closely with the CAMPO Policy Board for development of the UPWP and to carry out related tasks. All tasks identified in the UPWP are undertaken by staff with periodic updates to the CAMPO Policy Board.

**Table 1.2 CAMPO Staff**

Staff Member	Title
Mrs. Lucia Maloney, PMP	Transportation Manager
Mr. Dirk Goering, AICP	Senior Transportation Planner
Mr. Dan H. Anderson	Transportation Planner/Analyst
Ms. Karissa Moffett	Bicycle and Pedestrian Coordinator
Mr. Michael Reynolds	Transit Coordinator

## 1.3 Responsibilities and Priorities

The primary responsibility of CAMPO is the continued, cooperative, and comprehensive planning process; to provide for consideration and implementation of projects, strategies, and services that address the following factors:

- Increase the safety of the transportation system for motorized and non-motorized users
- Maintain a sustainable regional transportation system
- Increase the mobility and reliability of the transportation system for all users
- Maintain and develop a transportation system that supports economic vitality
- Provide an integrated transportation system

#### **1.4 Organizational Procedures and Documents**

The following list of documents includes organizational policies and procedures, programming documents, transportation planning studies, and other required documents, which are available on CAMPO's website: [www.CarsonAreaMPO.com](http://www.CarsonAreaMPO.com).

- CAMPO Policies & Procedures
- CAMPO Public Participation Plan
- CAMPO FFY 2018-2021 Transportation Improvement Program
- CAMPO Unified Planning Work Programs
- CAMPO Pedestrian Safety Guidelines
- Carson City Freeway Corridor Multi-Use Path Alignment Studies
- CAMPO Fare & Service Change Policy
- Notice of Protection Under Title VI
- CAMPO Disadvantaged Business Enterprise (DBE) Program
- CAMPO Disadvantaged Business Enterprise (DBE) FFY 2014-16 Goal
- CAMPO Complete Streets Performance Monitoring Program
- FFY 2017 Annual Obligation Report
- CAMPO Travel Demand Model Validation Report 2015
- CAMPO Bicycle Friendly Community Report Card 2014
- CAMPO Regional Transportation Plan

#### **1.5 Public Involvement**

Public involvement is a critical component of the MPO transportation planning process and the development of plans, programs, and policy. CAMPO's regional transportation planning program establishes an important forum for discussing and resolving regional transportation issues. Some examples of executing the continuing, comprehensive, and cooperative planning process include board meetings, public workshops, technical advisory committees, project- and issue-specific meetings, public hearings, and formal public document review periods. Specific policies and procedures for public involvement have been developed and are contained within CAMPO's [Public Participation Plan \(PPP\)](#) available on the [CarsonAreaMPO.com](http://CarsonAreaMPO.com) website. The PPP emphasizes efforts to coordinate with and involve all stakeholders and members of the public in the transportation planning process, including development of this Unified Planning Work Program.

The CAMPO region is also home to the Washoe Tribe of Nevada. CAMPO staff conducts government-to-government communication with the Washoe Tribe to consider tribal needs in the planning and programming process.

## 2.0 Summary of FY 2017 & FY 2018 Accomplishments and Work Efforts

In working with the U.S. Department of Transportation (U.S. DOT) and Nevada Department of Transportation (NDOT), it was determined that CAMPO would develop a two-year UPWP for the first time for FY 2017 and FY 2018. This allowed greater flexibility for CAMPO and its planning partners to complete more significant work tasks within a reasonable timeframe, and to better coordinate work tasks with the funding cycle. A two-year work program does not mean that two years' worth of funding is available in the first year. CAMPO cannot, and did not, seek reimbursement of funds in advance of obligation.

The following are the primary tasks that were undertaken during FY 2017 and FY 2018:

- *South Carson Street Complete Streets Study* – Staff worked with a consultant to help guide the vision for South Carson Street from Fifth Street to the I-580/Spooner Junction intersection. This is one of the primary travel corridors within the CAMPO area.
- *Travel Demand Model Update* – CAMPO staff hired a consultant team to update the travel demand model in anticipation of the next Regional Transportation Plan (RTP) update and in response to planning and/or completion of several major projects that will have a significant impact on the CAMPO region, including: completion of the Carson City Freeway, completion of the Downtown Carson Complete Street project, and further development of the Tahoe Reno Industrial Center (TRIC).
- *2017 Carson City Pavement Survey* – Carson City's roadway network was inventoried and the pavement conditions were reassessed in partnership with a contractor. This practice is performed every couple of years to strengthen the existing database and track historical benchmarks to provide a more robust analysis of pavement maintenance needs. This process ensures the most informed and efficient decisions are being made to address pavement health.
- *2017 Jump Around Carson (JAC) Transit User Survey* – This survey identified needs and concerns of the existing ridership base. Feedback received provided staff direction on what is working well with the system and where improvements can be made to better serve riders.
- *Adoption of Federally-Required Performance Measures and Targets* – On December 4, 2015, the Fixing America's Surface Transportation (FAST) Act was signed into law. In partnership with State and Federal planning partners, as well as fellow MPOs, staff continued to develop federally-mandated performance measures and targets, including adoption of Transit Asset Management (TAM) and Safety performance measure targets.
- *Transportation Improvement Program (TIP) Activities* – The TIP includes a four-year list of projects and is consistent with all Federal planning regulations. All federally funded projects must be included in the TIP. CAMPO staff worked to update the TIP, resulting in adoption of the FFY 2018-2021 TIP. Regular maintenance of the document was required through formal and administrative amendments.

- *Collection of Baseline Complete Streets Performance Information* – CAMPO began collection of baseline performance information, used to evaluate and monitor the performance of Complete Streets measures. Staff collected data on the Downtown Carson Complete Streets project and other key corridors throughout Carson City to understand changes or trends as a result of implementation of the City’s Complete Streets Monitoring Program and Complete Streets Policy.
- *Ongoing MPO Activities* – These tasks included general administration, MPO representation, public participation efforts, regional consistency review, training, and UPWP development.

### **3.0 Federal Planning Emphasis Areas/FAST Act Planning Factors**

The Federal Highway Administration (FHWA), in consultation with the Federal Transit Administration (FTA), develops Planning Emphasis Areas (PEAs) to promote policy, procedural, and technical topics that are to be considered by metropolitan planning organizations in preparation of work plans. The PEAs address a mix of planning issues and priority topics identified as requiring additional focus by MPOs. In addition to PEAs, the FAST Act expanded the scope of factors to consider in the transportation planning process. The sections below introduce PEAs and the FAST Act Planning factors and discuss how both are addressed across work elements in the UPWP.

#### **3.1 Federal Planning Emphasis Areas**

In 2014, the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) issued a statement encouraging MPOs to give priority to certain planning emphasis areas when updating their unified planning work programs. The three planning emphasis areas described below are FAST Act Implementation (recently updated from MAP-21), Regional Models of Cooperation, and Ladders of Opportunity.

*MAP-21/FAST Act Implementation* - Transition to Performance Based Planning and Programming. The development and implementation of a performance management approach to transportation planning and programming that supports the achievement of transportation system performance outcomes.

*Models of Regional Planning Cooperation* - Promote cooperation and coordination across MPO boundaries and across State boundaries where appropriate to ensure a regional approach to transportation planning. Coordination across MPO and across State boundaries includes the coordination of transportation plans and programs, corridor studies, and projects across adjacent MPO and State boundaries. It includes collaboration among State DOT(s), MPOs, and operators of public transportation on activities such as: data collection, data storage and analysis, analytical tools, and performance based planning.

*Ladders of Opportunity* - Access to essential services - as part of the transportation planning process identify transportation connectivity gaps in access to essential services. Essential services include housing, employment, health care, schools/education, and recreation. This emphasis area could include MPO and State identification of performance measures and analytical methods to measure the transportation system's connectivity to essential services and the use of this information to identify gaps in transportation system connectivity that preclude access of the public, including traditionally underserved populations, to essential services. It could also involve the identification of solutions to address those gaps.

### **3.2 FAST Act Planning Factors**

The metropolitan transportation planning process specified by the FAST Act and the implementing regulations contained in Title 23 Part 450 of the Code of Federal Regulations (CFR) requires CAMPO to maintain a cooperative, continuous, and comprehensive framework for making transportation investment decisions in the metropolitan area.

The FAST Act carries forward and expands the performance-based transportation planning framework established under MAP-21. This UPWP includes data collection and analytical tasks that will facilitate annual reporting about safety, travel delay, pavement condition, alternative mode share, and other performance metrics. This UPWP includes tasks to continue evaluation of the transportation performance measures and performance targets established in the RTP. It anticipates that these performance measures will be refined based on statewide MPO/NDOT coordination in the development of future RTPs.

Transportation legislation lists ten factors that must be considered as part of the transportation planning process for all metropolitan areas. The following factors shall be explicitly considered, analyzed as appropriate, and reflected in the planning process products (23 CFR Section 134 (h)):

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- Increase the safety of the transportation system for motorized and non-motorized users;
- Increase the security of the transportation system for motorized and non-motorized users;
- Increase accessibility and mobility of people and freight;
- Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns;
- Enhance the integration and connectivity of the transportation system, across and between modes throughout the State, for people and freight;
- Emphasize the preservation of the existing transportation system;
- Promote efficient system management and operation;
- Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
- Enhance travel and tourism.

### 3.3 Overview of FY 2019 and FY 2020 Work Efforts

CAMPO developed its first two-year UPWP in FY 2017. In working with U.S. DOT and NDOT, it was agreed that CAMPO would continue to implement its UPWP in a two-year cycle, which allows greater flexibility for CAMPO and its planning partners to complete more significant work tasks within a reasonable timeframe and to better coordinate work tasks with the funding cycle. A two-year work program does not mean that two years' worth of funds are available in the first year. CAMPO cannot seek reimbursement of funds in advance of obligation, but a two-year work program does provide certain advantages as described.

The following are the primary tasks to be undertaken during FY 2019 and FY 2020:

- Administer a survey of transit non-riders (residents and visitors who do not ride the Jump Around Carson (JAC) transit system) to identify needs and concerns. Feedback received will provide staff direction on what is working well with the system and where improvements can be made to better serve the community.
- The Carson City ADA Transition Plan will be updated. While the initial plan was developed in 2015, only a small portion of the City was inventoried due to budget constraints. It was anticipated that further inventory of the City would be done incrementally in the future. It is also a requirement to update the Transition Plan on a periodic basis. Now that development of the plan has occurred, more funding can go toward further inventory of facilities than previously. Consultant involvement is expected for this task.
- Roadways within the Douglas County portion of the CAMPO area will be inventoried, using a consultant, to reassess pavement conditions. This practice is performed every couple of years for Carson City and needs to be conducted in other portions of the CAMPO planning area to build a strong database and establish historical benchmarks, thereby providing a more robust analysis of pavement maintenance needs. This process ensures the most informed and efficient decisions are being made to address pavement health.
- Implementation of a Pavement Management Plan to support ongoing planning and programming activities related to roadway infrastructure in Carson City.
- The travel demand model, with a consultant team, will be maintained in anticipation of the next RTP update. As the economy continues to improve to pre-recession levels and our region grows, CAMPO expects changes in land use due to development projects, shifting socio-demographic characteristics, and continued updates to the roadway network. The model will be maintained with the most recent traffic volumes, population, and land use assumptions.
- A Transit Development and Coordinated Plan will identify the immediate needs of the transit system over the next five year period, as well as a longer-term vision for the service. It will also include interdisciplinary coordination and will specifically meet requirements for a locally developed, coordinated public transit-human services transportation plan, as required for receiving FTA Section 5310 funds.
- Ongoing tasks that include general administration, MPO representation, public participation efforts, regional consistency review, training, and UPWP development.

- On December 4, 2015, the Fixing America's Surface Transportation (FAST) Act was signed into law. Staff will monitor applicable transportation legislation and respond to any potential requirements of the new bill. In addition, staff will use this task to work with our State and Federal planning partners, as well as fellow MPOs, to continue to develop performance measures initially mandated by MAP-21.
- Update and maintain the Transportation Improvement Program (TIP) through the new eSTIP platform.

### 3.4 Federal Planning Emphasis Areas/FAST Act Planning Considerations and UPWP Tasks

Table 3.1 outlines FY 2019/FY2020 2-year UPWP Work Elements that address and support each Federal Planning Emphasis Area and FAST Act Planning Consideration. As illustrated below, all Federal Planning Emphasis Areas and FAST Act Planning Considerations are integrated into CAMPO’s FY 2019/FY 2020 two-year work program.

**Table 3.1 FY 2019/FY 2020 2-Year UPWP Work Elements and Federal Planning Emphasis Areas/Planning Considerations**

		Work Elements				
		1.0	2.0	3.0	4.0	5.0
PEAS	MAP-21/FAST Act Implementation	X	X	X	X	X
	Models of Regional Planning Cooperation	X	X	X	X	
	Ladders of Opportunity		X	X	X	
FAST Act Planning Factors	Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency			X	X	X
	Increase the safety of the transportation system for motorized and non-motorized users			X	X	X
	Increase the security of the transportation system for motorized and non-motorized users			X	X	X
	Increase accessibility and mobility of people and freight			X		X
	Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns		X	X		
	Enhance the integration and connectivity of the transportation system, across and between modes throughout the State, for people and freight		X	X	X	X
	Promote efficient system management and operation	X			X	X
	Emphasize the preservation of the existing transportation system				X	X
	Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation			X		X
	Enhance travel and tourism		X	X		

#### 4.0 FY 2019 – FY 2020 Unified Planning Work Program

CAMPO planning activities are divided into five work elements. Funding sources for CAMPO planning activities include a combination of federal transit and highway programs, as well as local funding used as the “match” for federal consolidated planning grant (CPG) funding. Table 4.1 lists the five work elements and total estimated cost for each. The following pages contain a detailed description of each of the work elements for the FY 2019/FY 2020 2-year UPWP, including work tasks, work products, estimated benchmarks, and estimated costs. A detailed summary table containing estimated cost and funding sources for all work elements is attached at the end of this document. Except where noted below for each task, work will be completed by CAMPO staff.

**Table 4.1 Total Budgeted Amount by Work Element and Fiscal Year**

Work Element	Description	FY 2019	FY 2020	Total Budgeted Amount
1.0	MPO Administration	\$142,000	\$144,302	\$286,302
2.0	Regional Coordination and Engagement	\$19,100	\$13,900	\$33,000
3.0	Regional Multimodal Planning	\$121,550	\$76,892	\$198,442
4.0	Transportation Performance Management	\$71,350	\$71,650	\$143,000
5.0	Asset Planning and Management	\$63,050	\$50,900	\$113,950
<i>Total</i>		\$417,050	\$357,644	\$774,694

**WORK ELEMENT 1.0 – MPO Administration**

The tasks in this work element cover activities related to the overall administration of CAMPO’s transportation planning program. All tasks are annual or ongoing activities undertaken to maintain compliance with federal/state regulations, organize and manage MPO activities, and improve staff skills.

**TASKS**

**1.1 General Administration and Work Program Oversight**

Description: This task includes general administrative functions concerning the transportation planning program including preparation of administrative reports, analyses, budgets, goals and objectives, correspondence, documents, memos, etc.

Task Elements:

- Preparation of required MPO reports and memoranda supporting the activities of CAMPO.
- Management and administration of budgets and agreements.
- Preparation of quarterly and end-of-year task/activity summaries and reports.
- Preparation of billings and reimbursement requests and other related activities.
- Grant management and oversight of transportation planning grants.
- Application and management of Consolidated Planning Grant (CPG) funds for CAMPO operations.
- MPO Board Support, including: providing special reports, researching MPO issues, preparation of board/public meeting materials, and attendance at MPO regular and special meetings.

Expected Products:

- Monthly agenda and meeting materials for CAMPO board meetings and other public hearings, as needed.
- Miscellaneous reports, analyses, correspondence, task summaries and memoranda, and funding management and invoicing for CAMPO and local transit operators, as needed.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$148,487
Local	\$7,815
Total	\$156,302

**1.2 Unified Planning Work Program (UPWP) Development and Administration**

Description: This task includes administration of the FY 2019/FY 2020 2-year UPWP, and development of the FY 2021/FY 2022 2-year UPWP in cooperation with other local, regional, and statewide agencies. This task also includes UPWP amendments, as needed.

Task Elements:

- Administration of the FY 2019/FY 2020 2-year UPWP document.
- Implement the UPWP including amendments, as required.
- Development and preparation of the FY 2021/FY 2022 2-year UPWP.

Expected Products:

- FY 2018 UPWP 4<sup>th</sup> quarter report.
- FY 2019/FY 2020 2-year UPWP quarterly reports.
- Amendments to the FY 2019/FY 2020 2-year UPWP, as needed.
- An adopted FY 2021/FY 2022 2-year UPWP.

Estimated Benchmarks: Draft FY 2021/FY 2022 2-year UPWP, March 2020

Estimated Completion Date: Ongoing Tasks

Funding:

CPG	\$14,250
Local	\$750
Total	\$15,000

### 1.3 MPO Representation

Description: Staff will represent the MPO at events and meetings not related to specific other UPWP tasks. This task includes coordination with other regional MPOs, NDOT, Carson City, Douglas County, Lyon County, and other agencies and organizations to ensure development of transportation related projects that serve the best interests of the region. This task includes participation in the statewide planning process, including attendance and participation in the TPAC, the development and coordination of the Statewide Transportation Improvement Program (STIP), project selection, and participation in other advisory committees, as appropriate.

Task Elements:

- Preparation and attendance at events and meetings not related to specific other UPWP tasks.
- Ongoing coordination with other regional MPOs, NDOT, Carson City, Douglas County, Lyon County, and/or other agencies/organizations, as needed.
- Participation in statewide planning activities, as needed.

Expected Products:

- A well-represented MPO with ongoing inter- and intra-regional coordination.
- Coordinated State planning processes and documents.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$57,000
Local	\$3,000
Total	\$60,000

## 1.4 Professional Development

Description: This task focuses on professional development that enhances the capabilities of staff in exercising the responsibilities of the MPO, including training time and materials. This task includes memberships in related professional organizations, subscriptions to related professional periodicals, and dues/fees required for obtaining and maintaining professional certifications.

Task Elements:

- Facilitation and/or attendance at training courses/seminars directly related to transportation planning as appropriate, including, but not limited to: TransCAD, GIS, planning best practices, State/federal grants administration, performance-based planning, asset management, professional services procurement, etc.
- Internal cross-training that promotes diverse staffing capabilities in regional transportation planning.
- Memberships in related professional organizations and subscriptions to related professional periodicals.
- Dues/fees required for obtaining and maintaining professional memberships/certifications.

Expected Products:

- Enhanced staff capabilities.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$52,250
Local	\$2,750
Total	\$55,000

## **WORK ELEMENT 2.0 – Regional Coordination and Engagement**

Tasks within this work element include public participation, regional coordination, and engagement tasks necessary to carry out a continuing, comprehensive, and cooperative regional transportation planning activities. Tasks are ongoing activities designed to continue public participation and engagement efforts related to planning for all modes with all stakeholders, and to meet the requirements set forth in CAMPO’s Public Participation Plan.

### **2.1 Public Participation**

Description: Ongoing public participation efforts will be conducted throughout the program period related to numerous work study tasks including: necessary TIP or RTP amendments; development of corridor/specific studies; preparation of updates to regional planning documents and policies; development of the UPWP for the next fiscal years; public information campaigns to promote planning initiatives and programs; coordination with Tahoe MPO (TMPO) and Washoe County Regional Transportation Commission (Washoe RTC); and other related activities. This task includes publication of notices and maintenance of the CAMPO website, as the website is a useful tool for informing constituents of CAMPO’s purpose and activities.

Task Elements:

- Public noticing and stakeholder engagement for necessary TIP or RTP amendments.
- Activities necessary to host/coordinate public participation activities.
- Property owner outreach resulting from development of corridor/specific studies or local development projects.
- Public outreach and noticing needed for development of the next UPWP and next TIP.
- Development of public information campaigns that promote planning initiatives and programs.
- Continuous maintenance of the CAMPO website.

Expected Products:

- Hosted/coordinated public participation activities.
- Published notices.
- An operational website for distribution of current, accurate, and transparent public information.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$19,000
Local	\$1,000
Total	\$20,000

## 2.2 Regional Transit Coordination and Engagement

Description: There are five transit services operating within the CAMPO planning area (Eastern Sierra Transit Authority, BlueGo, Jump Around Carson, Douglas Area Rural Transit, and RTC Intercity) that are subsidized by member counties. This task includes regional coordination of transit services by CAMPO staff, development and implementation of a transit non-rider survey, and ongoing stakeholder engagement.

Task Elements:

- Development and preparation of transit non-rider survey materials and workforce, and implementation of distribution channels.
- Hosted/coordinated public participation activities related to transit planning and implementation.
- Participation in local and regional planning processes for public transportation projects in which the Carson area has a vested interest.

Expected Products:

- Coordination and communication among transit operators.
- Analysis of survey results from transit non-riders.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing, Draft/Final Transit non-rider survey results, Spring 2019

Funding:

CPG	\$12,350
Local	\$650
Total	\$13,000

### **WORK ELEMENT 3.0 – Regional Multimodal Planning**

The activities in this work element carry out and support the integration of federal, state, and local transportation planning processes; complete activities and products to satisfy core planning functions and State and federal metropolitan planning requirements; consider all modes of transportation in implementing regional transportation goals; support transportation policy development and analyses; support the incorporation of various modal and corridor/specific plans into the Regional Transportation Plan and Transportation Improvement Program; and support ongoing and strengthened partnerships with government partners, organizations and agencies, and the public to further our regional transportation goals.

#### **3.1 2040 Regional Transportation Plan (RTP)**

Description: The 2040 RTP was adopted by CAMPO in August 2016. This task includes maintenance of the 2040 RTP and any necessary administrative modifications or amendments. Community outreach on the document will continue, as well as coordination with partner agencies and local governments. This task includes activities to be conducted in anticipation of CAMPO’s 2045 RTP, planned to be adopted in FY 2021.

Task Elements:

- Administration of the 2040 RTP, including ongoing coordination with federal, State, and local partners to explore funding opportunities to implement the plan.
- Participation in public and interagency meetings as a transportation technical resource.
- Continued public outreach on RTP goals and concepts that promotes vibrant communities and improves public health.
- Processed RTP administrative modifications and/or amendments, as necessary.
- Project review that ensures consistency with established transportation plans and policies.
- Incorporation of federally required performance measures and/or targets as necessary.

Expected Products:

- RTP modifications and amendments, as necessary.
- Continued community outreach and education on the 2040 RTP.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$27,922
Local	\$1,470
Total*	\$29,392

*\*Consultant involvement is expected*

### 3.2 Transit Planning

Description: This task incorporates responsibilities required of CAMPO as the direct recipient of FTA Section 5307 funds. CAMPO must apply for and manage these funds, including compliance activities and participation in regular federal reviews and audits. Staff will develop a JAC Transit Development and Coordinated Plan, which will include short range (1-5 years) and long range (6-20 years) planning, as well as meet the requirements for a locally developed Coordinated Transit-Human Services plan. As envisioned, the Transit Development and Coordinated Plan seeks to identify the immediate needs of the transit system over the next five year period, as well as a longer term vision for the service. The plan will document opportunities and challenges of the transit system and present a budget for operation of the system. The plan will be paid for in part through an interagency agreement with the Nevada Department of Transportation (NDOT). This task also includes development, maintenance, and administration of transit policies and procedures that support implementation of regional transit planning documents. The public outreach and coordination activities within this task specifically relate to transit planning and do not duplicate public outreach and coordination that is conducted under other tasks within this UPWP. Consultants may be used as needed to complete the tasks noted below.

#### Task Elements:

- Community outreach.
- Coordination with partner agencies.
- Participation in public and interagency meetings.
- Development of a Transit Development and Coordinated Plan.
- Title VI Program updates.
- DBE Program updates.
- DBE Goal updates.
- Transit responsibilities as a direct recipient – CAMPO, in coordination with NDOT, works with transit operators in the region to identify projects and distribute FTA funds among eligible operators and projects. Efforts under this subtask include training, project identification, allocation of funding, and coordination with FTA, NDOT, and transit operators.

Expected Products:

- Transit Development and Coordinated Plan.
- Project identification and allocation of funds among regional transit operators to allow for implementation of FTA transit programs.
- Title VI Program document for FFY 2020-22.
- DBE Program document for FFY 2020-22.
- DBE Goal creation for FFY 2020-22.

Estimated Benchmarks: Draft Transit Development and Coordinated Plan, August 2019; Final Transit Development and Coordinated Plan, September 2019; Title VI and DBE Program documents, Fall 2019.

Estimated Completion Date: Ongoing

Funding:

CPG	\$90,250
Local	\$4,750
Total*	\$95,000

*\*Consultant involvement is expected*

### 3.3 Intelligent Transportation Systems (ITS) Planning

Description: This task involves identifying and planning for long term strategies for planning and implementing Coordinated Traffic Signal Systems within the CAMPO planning area through development of a Carson Area Transportation System Management Plan. The Carson Area Transportation System Management Plan will be funded primarily through Federal infrastructure funding, with funding for additional CAMPO staff support coming from this Task. It is anticipated that development of the Plan will span multiple years; consequently, no benchmarks are anticipated until FY 2021.

Task Elements:

- Staff time to initiate and manage the Carson Area Transportation System Management Plan.

Expected Products:

- Staff coordination with partner jurisdictions and NDOT.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$13,348
Local	\$703
Total	\$14,050

*\*Consultant involvement is expected*

### 3.4 Updates to Supporting Regional Planning Documents

Description: This task includes updating the Carson City Americans with Disabilities Act (ADA) Transition Plan and obtaining plan approval from the Nevada Department of Transportation. Staff will work with a consultant to identify new areas of Carson City to be inventoried and added to the ADA Transition Plan and to update the existing planning document with new information. This task includes updates to CAMPO’s Public Participation Plan (PPP). Finally, this task includes development, maintenance, and administration of transportation policies that support implementation of regional transportation planning documents.

Task Elements:

- Development of ADA Transition Plan updates.
- Development of Public Participation Plan updates.

Expected Products:

- Updated and expanded ADA Transition Plan.
- Updated Public Participation Plan.

Estimated Benchmarks: N/A

Estimated Completion Date: Updated Public Participation Plan, August 2019; Updated ADA Transition Plan, July 2019.

Funding:

CPG	\$33,250
Local	\$1,750
Total*	\$35,000

*\*Consultant involvement is expected*

### 3.5 Regional Consistency Review

Description: Development or capital improvement projects proposed within the CAMPO boundaries will be subjected to a review by staff to determine consistency with the RTP and TIP. Reviews will examine the effectiveness of proposed projects as they relate to the ability to relieve/prevent congestion, consideration of likely impacts of transportation policy on land use and development decisions, preservation and efficient utilization of transportation facilities, and other matters as required by federal or State regulation. The activities within this task do not duplicate routine reviews of proposed developments that are conducted by constituent units of government.

Task Elements:

- Provide input on proposed developments of regional significance with regard to the RTP and TIP.
- Annual growth management reviews.

Expected Products:

- Periodic transportation system review and reports.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$23,750
Local	\$1,250
Total	\$25,000

## **WORK ELEMENT 4.0 – Transportation Performance Management**

The activities in this work element support and implement federal and State requirements for performance-based planning to inform decision-making, including: transportation data collection and management; travel demand modeling and forecasting; development of performance measures and targets; and various other information gathering, analyses, monitoring and reporting, as needed. This task includes development and implementation of the Transportation Improvement Program (TIP).

### **4.1 MAP-21/FAST Act Implementation and Performance Measures**

Description: Under this task, staff will work to comply with new requirements under MAP-21 and the FAST Act as they continue to be communicated from the U.S. Department of Transportation (U.S. DOT), with an emphasis on developing performance measures and establishing performance targets.

Task Elements:

- Coordination of data collection across CAMPO partner jurisdictions, transit operators, NDOT and FHWA in response to established performance measure target-setting requirements.
- Conduct technical analyses and model outputs that support development and implementation of MAP-21/Fast Act performance-based planning requirements.
- Preparation and development of documentation as required.

Expected Products:

- Compliance with MAP-21/FAST Act.
- Documentation as required.
- Ongoing participation in Nevada’s Planning Executive Group (PEG) and PEG Performance Measures Working Group.

Estimated Benchmarks: Adopted performance measure targets that meet MAP-21/Fast Act requirements.

Estimated Completion Date: Ongoing

Funding:

CPG	\$30,400
Local	\$1,600
Total	\$32,000

## 4.2 Update and Maintain the Transportation Improvement Program

Description: This task supports the selection, funding, and implementation of transportation projects that meet State and federal regulations. The MAP-21/FAST Act compliant Federal Fiscal Year (FFY) 2018-2021 Transportation Improvement Program (TIP) was adopted by the Regional Transportation Commission (RTC) on August 9, 2017. Activities under this task include administration and maintenance of the current FFY 2018-2021 TIP, including processing of modifications and amendments as needed, and development of the FFY 2020-2023 TIP in cooperation with other local, regional, and statewide agencies. The TIP includes a current four-year listing of projects and will be consistent with all Federal planning regulations. The format of the TIP will reflect consistency with NDOT's eSTIP platform. This task includes project tracking and financial tracking that is performance-based and consistent with the goals and objectives of MAP-21 and the FAST Act.

### Task Elements:

- Determine that sufficient federal, State, and local revenue sources are available to fund projects programmed in the TIP.
- Coordinate administration and maintenance of the TIP within the Statewide TIP (STIP).
- Provide reasonable opportunity for public comment in accordance with the Public Participation Plan and federal regulations.
- Incorporate Environmental Justice and ADA considerations, as appropriate.
- Consider best available performance information, including performance measures and targets, in prioritization of transportation improvement projects that are expected to support achievement of adopted targets MAP-21/FAST Act performance measures.
- Prepare modifications and amendments to the TIP, as needed.
- Coordinate modifications and amendments of the TIP program with the STIP to ensure changes are incorporated into the STIP.
- Develop and prepare the FFY 2020-2023 TIP for adoption.
- Ongoing participation in Nevada's Planning Executive Group (PEG) initiatives related to programming.
- Coordination with FHWA NV Division office, FTA, NDOT, and CAMPO partner agencies on project development and funding.
- Develop annual list of obligated projects.
- Document continuing, coordinated and comprehensive processes that include traditionally underrepresented and underserved populations and their community leaders (e.g., elderly, disabled, low income, and minorities).

Expected Products:

- FFY 2018-2021 TIP that is updated appropriately to include administrative modifications and amendments, as needed.
- Adopted FFY 2020-2023 TIP.
- Annual Federal Obligations Report.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$22,800
Local	\$1,200
Total	\$24,000

### 4.3 Maintain Travel Demand Model

Description: Staff will work with a consultant to maintain the travel demand model in preparation for the next Regional Transportation Plan update and to meet ongoing forecasting needs. The model will be maintained with the most recent traffic volume counts available (segments/intersections) as well as population and land use assumptions. There are periodic needs to provide information to other agencies both within and outside the CAMPO planning area that is derived from, or is an input to, the modeling process. The majority of task costs are associated with consultant costs, with staff project management also included.

Task Elements:

- Ongoing travel demand modeling services through consultant service, including model maintenance activities to incorporate most current population and transportation network data.
- Using a contractor, produce requested model outputs for alternatives analysis, planning studies, or other regional activities as needed/requested.
- Using a contractor, update travel demand model and associated forecasting software and tools as necessary.
- Provision of information from the modeling process as needed/requested.

Expected Products:

- Validated and maintained travel demand model.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$39,900
Local	\$2,100
Total*	\$42,000

*\*Consultant involvement is expected*

#### 4.4 Data Management, Collection, and Performance Measurement

Description: This task builds from prior UPWP tasks and supports monitoring of transportation performance measures included in the 2040 RTP. Staff will continue to collect baseline information to evaluate and monitor the performance of Complete Streets and transportation infrastructure within CAMPO’s planning area. Staff will collect data, record any changes or trends, and provide recommendations that may be used to inform future transportation improvement projects or policies. This task includes an update to CAMPO’s Complete Streets Performance Monitoring Program, which will expand the program from identified complete streets corridors to include data collection, monitoring, and reporting procedures across all transportation modes within the CAMPO area.

Task Elements:

- Ongoing data collection along facilities identified within the Complete Streets Performance Monitoring Program.
- Ongoing data collection related to safety, regional bicycle and pedestrian counts, vehicular movements, and other transportation infrastructure data as needed.
- Analyses of collected data on auto, transit, bicycle, and pedestrian use.
- Updates to the Complete Streets Performance Monitoring Program to comprehensively include all transportation modes within the CAMPO area.
- Coordinate the dissemination and consideration of transportation-related performance data.
- Periodic recommendations and/or reports.
- Development of an annual performance measure tracking report.

Expected Products:

- Updated Complete Streets Performance Monitoring Program document.
- FY 2019 and FY 2020 Annual Performance Measure Tracking Reports.

Estimated Benchmarks: Draft Updated Monitoring Program document, July 2019; Final Monitoring Program document, August 2019; FY 2019 Annual Performance Measure Tracking Report, September 2019.

Estimated Completion Date: August/September 2019 and Ongoing

Funding:

CPG	\$42,750
Local	\$2,250
Total	\$45,000

## WORK ELEMENT 5.0 – Asset Planning and Management

The activities in this work element support multi-modal asset management throughout the CAMPO planning area using ongoing data collection, analyses, and reporting to inform decision-making that promotes: efficient system management and operation; improves the resiliency and reliability of the transportation system; and emphasizes preservation of the existing transportation system. This task includes development and implementation of the Transportation Improvement Program (TIP).

### 5.1 Maintain Pavement Management System

Description: This task involves regular updates and maintenance of the Pavement Management System following improvements or changes to the street network or land uses. A consultant will be hired to collect data on the Douglas County roadway network within the CAMPO planning area. Staff will use this task to provide data to CAMPO to report on performance measures as they relate to pavement maintenance.

Task Elements:

- Conduct regular updates and maintenance of the Pavement Management System.
- Using a contractor, collect pavement survey data for the Douglas County roadways within the CAMPO planning area in a format that meets the individual needs of both Douglas County and CAMPO.

Expected Products:

- Up-to-date pavement management system.
- Pavement data.

Estimated Benchmarks: Completed pavement survey for Douglas County roadways within the CAMPO planning area.

Estimated Completion Date: Douglas County pavement survey, Summer 2019; Ongoing

Funding:

CPG	\$42,703
Local	\$2,248
Total*	\$44,950

*\*Consultant involvement is expected*

## 5.2 Roadway Asset Management

Description: CAMPO staff recently completed an initial draft of a Pavement Management Plan to support ongoing planning and programming activities related to roadway infrastructure in Carson City. This task begins implementation of that plan and includes activities required to amend the plan to incorporate future roadway condition data, or other amendments, as needed.

Task Elements:

- Implementation and Ongoing Maintenance of the Pavement Management Plan.

Expected Products:

- Up-to-date Pavement Management Plan.
- Ongoing activities supporting implementation of the plan, including annual pavement assessments supporting performance-based pavement rehabilitation investments.
- Reports to CAMPO on plan implementation and performance, as appropriate.

Estimated Benchmarks: N/A

Estimated Completion Date: Ongoing

Funding:

CPG	\$28,500
Local	\$1,500
Total	\$30,000

### 5.3 Non-Motorized Asset Management

Description: Staff will continue to evaluate the existing bicycle and pedestrian network, work with member agencies and local advocates, and pursue grant opportunities to improve the accessibility and connectivity of the system. Using a consultant, this task includes a comprehensive sidewalk and bicycle facility inventory that will be mapped using ArcGIS. The inventory may be used to update maps within CAMPO's 2040 RTP.

Task Elements:

- Conduct a non-motorized asset inventory (sidewalks, ramps, bicycle facilities) identifying ADA barriers.
- Conduct mapping activities that support integration of inventory data with CAMPO's web-based mapping platform.

Expected Products:

- Improved access and connectivity of the bicycle and pedestrian network.
- Sidewalks and bicycle facilities inventory.
- Maps of non-motorized assets, including sidewalks, ramps, and bicycle facilities, integrated into CAMPO's web-based mapping platform.

Estimated Benchmarks: Sidewalks and bicycle facilities inventory, Fall 2019; Ongoing

Estimated Completion Date: Ongoing

Funding:

CPG	\$25,650
Local	\$1,350
Total*	\$27,000

*\*Consultant involvement is expected*

#### 5.4 Transit Asset Management

Description: The activities within this task include development of a Transit Asset Management (TAM) Plan that is compliant with the FAST Act. Ongoing maintenance of the Plan, including annual performance target setting, will also be included.

Task Elements:

- Conduct an inventory and projection of transit assets, life expectancies, replacement costs, and maintenance activities and costs.
- Ongoing monitoring and updating of performance targets.

Expected Products:

- Draft and Final TAM Plan.
- Annual performance target updates in accordance with Federal requirements.

Estimated Benchmarks: Attainment of performance targets annually, and adherence to maintenance and replacement schedule established in the TAM Plan.

Estimated Completion Date: Ongoing and October 2018.

Funding:

CPG	\$11,400
Local	\$600
Total	\$12,000

## **5.0 FY 2019 – FY 2020 Unified Planning Work Program Budget**

CAMPO receives an annual apportionment of Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) funds that may be used for transportation planning activities. The FHWA funds are from the planning (PL) program and the FTA funds are allocated from the Section 5303 program. These two funding sources are combined as Consolidated Planning Grant (CPG) funds and may be used to reimburse up to 95% of eligible expenses. The CPG funds are allocated to CAMPO based on an agreed-upon distribution formula between NDOT and Nevada’s three other MPOs. See the individual work elements and tasks described earlier in this UPWP and the budget table, below, for additional budget information.

**Table 5.1 CAMPO FY 2019 and FY 2020 UPWP Cost/Funding Summary  
Amended 5/8/2019**

Major Work Element	Work Task		Funding Breakdown		
	Task #	Description	CPG	Local Match	Total Cost
1.0 MPO Administration	1.1	General Administration and Work Program Oversight	\$148,487	\$7,815	\$156,302
	1.2	UPWP Development and Administration	\$14,250	\$750	\$15,000
	1.3	MPO Representation	\$57,000	\$3,000	\$60,000
	1.4	Professional Development	\$52,250	\$2,750	\$55,000
2.0 Regional Coordination and Engagement	2.1	Public Participation	\$19,000	\$1,000	\$20,000
	2.2	Regional Transit Coordination and Engagement	\$12,350	\$650	\$13,000
3.0 Regional Multimodal Planning	3.1	2040 Regional Transportation Plan (RTP)*	\$27,922	\$1,470	\$29,392
	3.2	Transit Planning*	\$90,250	\$4,750	\$95,000
	3.3	ITS Planning	\$13,348	\$703	\$14,050
	3.4	Updates to Supporting Regional Planning Documents and Policies*	\$33,250	\$1,750	\$35,000
	3.5	Regional Consistency Review	\$23,750	\$1,250	\$25,000
4.0 Transportation Performance Management	4.1	MAP-21/FAST Act Implementation and Performance Measures	\$30,400	\$1,600	\$32,000
	4.2	Update and Maintain the Transportation Improvement Program	\$22,800	\$1,200	\$24,000
	4.3	Maintain Travel Demand Model*	\$39,900	\$2,100	\$42,000
	4.4	Data Management, Collection, and Performance Measurement	\$42,750	\$2,250	\$45,000
5.0 Asset Planning and Management	5.1	Maintain Pavement Management System*	\$42,703	\$2,248	\$44,950
	5.2	Roadway Asset Management	\$28,500	\$1,500	\$30,000
	5.3	Non-Motorized Asset Management*	\$25,650	\$1,350	\$27,000
	5.4	Transit Asset Management	\$11,400	\$600	\$12,000
Total Funding			\$735,959	\$38,735	\$774,694

Ms. Sondra Rosenberg, PTP, Assistant Director, Planning  
Director, Nevada Department of Transportation  
1263 S. Stewart Street,  
Carson City, NV 89712

RE: AMENDMENT 2 TO CAMPO'S 2019/2020 UPWP

Dear Ms. Rosenberg:

The Carson Area Metropolitan Planning Organization (CAMPO) Unified Planning Work Program (UPWP) for Fiscal Years (FY) 2019 and 2020 was adopted by the CAMPO Board on May 9, 2018. This letter formally requests State and Federal approval of an Amendment to the UPWP. The CAMPO Board approved this amendment at its May 8<sup>th</sup> meeting.

This is the second amendment to CAMPO's 2019/2020 UPWP, developed in response to the FY 2020 funding estimate provide to CAMPO by NDOT staff on April 3, 2019. The amendment includes a reduction in funding within *General Administration and Work Program Oversight* (Task 1.1), adding funding for the *2040 Regional Transportation Plan* (Task 3.1), adding funding to *Regional Consistency Review* (Task 3.5), adding funding to *Update and Maintain the Transportation Improvement Program* (Task 4.2), and adding funding to *Data Management, Collection, and Performance Measurement* (Task 4.4). The amendment also amends the scope for *Intelligent Transportation Systems (ITS) Planning* (Task 3.3) and *Non-Motorized Asset Management* (5.3), and provides refined scheduled milestone dates across several tasks.

The amendment details are shown in tracked-changes in the attached Staff Report with supporting exhibits, with budget changes shown in Table 5.1.

The amendment was approved after an official 30-day public comment period which opened on April 4, 2019 and closed on May 4, 2019. The requested amendment stays under the FY 2019 amended funding limit of \$424,053 and the FY 2020 available funding estimate of \$432,762, for a total 2-year budget of \$774,694. This amount is 95% reimbursable with Federal Planning funds supported by a 5% local match.

Thank you for your consideration.

Sincerely,

  
Lucia D. Maloney, PMP  
Transportation Manager

Enclosures

**This page intentionally left blank.**

## STAFF REPORT

**Report To:** The Carson Area Metropolitan Planning Organization (CAMPO)

**Meeting Date:** May 8, 2019

**Staff Contact:** Dirk Goering, Senior Transportation Planner

**Agenda Title: For Possible Action** – Discussion and possible action regarding approval of a formal amendment to CAMPO’s Federal Fiscal Year (FFY) 2018-2021 Transportation Improvement Program.

**Staff Summary:** The proposed amendment will add and amend projects in the CAMPO FFYs 2018-2021 Transportation Improvement Program (TIP). The project being added is the Carson Area Transportation System Management Plan and the projects being amended are the Fairview Drive Reconstruction Project and the Airport Road Sewer and Road Project.

**Agenda Action:** Formal Action/Motion

**Time Requested:** 10 minutes

### Proposed Motion

I move to approve the formal amendment as provided in Exhibit-2.

### Background/Issues & Analysis

Transportation Improvement Program (TIP) amendments are required for the following actions:

- Adding a new project, or;
- Significantly changing a project (by scope or cost).

This formal amendment proposes three modifications to the TIP. Two of the modifications are a result of a federal regulation requiring projects within the TIP to include all local funding. Previously, only the required local match was mentioned in the TIP. The third modification is the addition of a project.

The following two existing projects are being amended due to a modification in the project cost:

- Fairview Drive Reconstruction Project (Exhibit-1, Appendix A, page 15) is an existing project and is being amended to add additional Surface Transportation Block Grant Funding and local funding for improvements to water infrastructure. The total cost of project is estimated at \$1,204,989 and is comprised of \$589,278 in STBG funds and \$615,711 in local funding. To accelerate the delivery of this project and to ensure STBG funds are obligated in a timely fashion, all federal funds have been allocated to the construction phase of this project.
- Airport Road Sewer & Road Project (Exhibit-1, Appendix A, page 19) is an existing project and is being amended to add local funding for improvements to sewer and water infrastructure. The total cost of the project is \$2,126,000 and is comprised of \$1,966,000 in local funding and \$160,000 in STBG funds.

The third modification involves the addition of the following project to the TIP:

- Carson Area Transportation System Management Plan (Exhibit-1, Appendix A, page 25) is a plan for the Carson Area that establishes commonly held operations and management objectives and serves as an asset management plan that results in improved transportation system performance. This plan will be lead in partnership with the Nevada Department of Transportation (NDOT). NDOT is funding this project with federal funds and is providing the local match through State Gas Tax funds. The total estimated cost of the plan is \$633,000.

TIP amendments require a 30-day public comment period as described in CAMPO’s Public Participation Plan. The public comment period for this action opened on April 4, 2019, and ended on May 4, 2019. No public comment was received.

**Applicable Statute, Code, Policy, Rule or Regulation**

-CFR 450.104

**Financial Information**

Is there a fiscal impact?  Yes  No

If yes, Fund Name, Account Name / Account Number: See explanation below.

Is it currently budgeted?  Yes  No

Explanation of Fiscal Impact: The TIP is a programming document for primarily federal funds. This document does not commit CAMPO or a local jurisdiction funding to these projects. Future agreements between NDOT and local jurisdictions will commit funding and resources. The fiscal impact associated with this item is to program available federal funds to projects in advance of a financial agreement.

Project List .....Appendix A

Draft

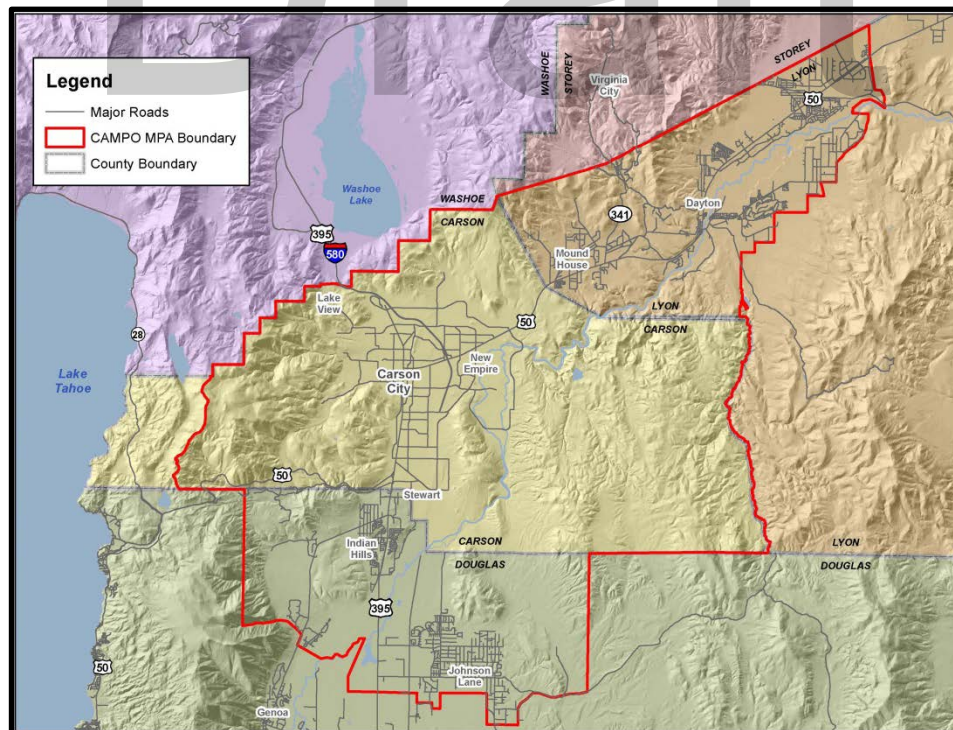

**Introduction**

**What is the Purpose of this Document?**

The Transportation Improvement Program (TIP) is a prioritized listing of transportation improvement projects covering a four-year period that is developed and formally adopted by the Carson Area Metropolitan Planning Organization (CAMPO). CAMPO is responsible for carrying out transportation planning activities within the Metropolitan Planning Area (MPA), shown in Figure 1. The MPA encompasses the urbanized areas, as defined by the US Census Bureau, and a larger geographical area that is likely to urbanize within the next 20 years. The central contiguous urbanized area includes most of the City of Carson City, a portion of northern Douglas County, and a portion of western Lyon County. Additionally, there are two urban clusters within the MPA, which are the Johnson Lane area in Douglas County and the Dayton area in Lyon County.

The TIP must be consistent with the Statewide Transportation Improvement Program (STIP) and must be updated at a minimum of every four years. The TIP must be consistent with CAMPO’s long-range Regional Transportation Plan (RTP), available at [www.CarsonAreaMPO.com](http://www.CarsonAreaMPO.com). The TIP contains a listing of all federally funded transportation projects and projects of regional significance, regardless of the funding source. The TIP must identify funding from public and private sources that are reasonably expected to be made available to implement a project. Per federal guidelines, the TIP must include a financially constrained project list.

**Figure 1: CAMPO MPA Boundary**

## Performance Based Planning and Programming

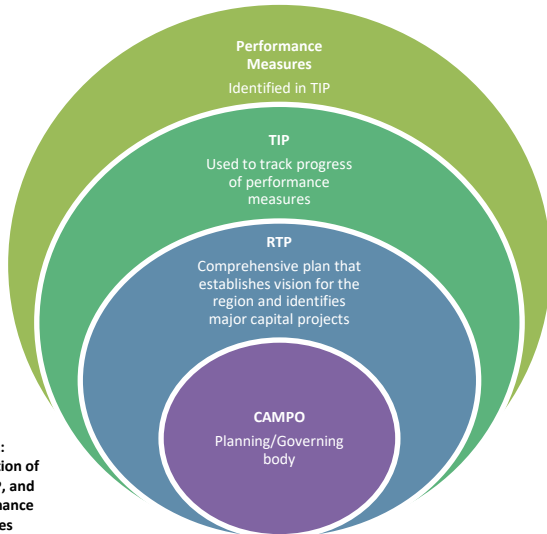

Figure 2:  
Integration of  
RTP, TIP, and  
Performance  
Measures

The Moving America Ahead for Progress in the 21<sup>st</sup> Century (MAP-21) Act was signed into law in 2012. The highlight of this transportation bill was a focus on implementing performance measures and performance based planning. Under MAP-21, the United States Department of Transportation (DOT) established a requirement for State DOTs and MPOs to set targets. Per MAP-21, MPOs must incorporate these targets and associated performance measures into their TIPs and RTP. Figure 2 provides a graphical representation of the relationship between a governing body, its planning documents, and its performance measures.

MAP-21 requires that transportation improvement programs developed by MPOs include a description of the anticipated effort of the program on achieving regional performance targets identified in the RTP. This requirement is designed to directly link investments to performance targets. The TIP will be used to track progress of these performance measures, specifically those related to project accomplishment.

MAP-21 establishes national performance goals for the Federal-aid highway program in seven areas: 1) safety; 2) infrastructure condition; 3) congestion reduction; 4) system reliability; 5) freight movement and economic vitality; 6) environmental sustainability; and 7) reduced project delivery delays. A performance based planning and funding system is more likely to identify and mitigate transportation system deficiencies than a fixed allocation funding process. CAMPO is committed to developing a transparent programming process that allocates funding effectively to maintain an efficient multi-modal transportation system. National performance goals are considered during project evaluation and selection. CAMPO has developed performance measures to help allocate transportation funds based on performance data. The national goals help plan and program transportation investment. Established performance measures and adopted targets will be used to evaluate projects.

On December 4, 2015, the Fixing America's Surface Transportation Act, also known as the "FAST Act", was signed into law. The FAST Act confirms all the performance based planning requirements established under the previous transportation act, MAP-21.

Below are the national goals (in bold) established under MAP-21 and examples of how specific projects are prioritized by national goals and performance measures.

**1. Safety - Achieve significant reduction in traffic fatalities and serious injuries on all public roads.**

Example, locations may be prioritized that have high crash rates, or safety improvements, such as FHWA proven countermeasures, may be incorporated into projects.

**2. Infrastructure Condition - Maintain the highway infrastructure asset system in a state of good repair.**

Example, projects may be prioritized by roadway condition.

**3. Congestion Reduction - Achieve a significant reduction in congestion on the National Highway System.**

Example, projects may be evaluated using traffic counts or travel demand modeling outputs to identify congested areas.

**4. System Reliability - Improve the efficiency of the surface transportation system.**

Example, projects may be prioritized if the project improves system redundancy or increases roadway capacity without adding traffic lanes.

**5. Freight Movement and Economic Vitality - Improve the national freight network and support regional economic development.**

Example, projects may be prioritized if the project improves the movement of freight along a primary freight network.

**6. Environmental Sustainability - Enhance the performance of the transportation system while protecting and enhancing the natural environment.**

Example, projects may be prioritized if the project demonstrates the reduction of mobile emissions as an effort to maintain or improve air quality.

**7. Reduce Project Delivery Delays - Reduce the project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process.**

Example, projects may be prioritized if the project is shovel ready and has support from multiple agencies.

Per federal guidelines, the TIP continues to build upon the goals and objectives articulated in CAMPO's 2040 Regional Transportation Plan. By incorporating these goals into short-range programming activities, projects are linked to the region's vision and long-term investment strategy. A comprehensive list of CAMPO's goals and performance measures is provided below:

**Goal - Increase the safety of the transportation system for all users**

Related Performance Measures

- Number (5-year rolling average) of fatal crashes in CAMPO boundary
- Number (5-year rolling average) of fatal crashes involving a bicyclist or pedestrian in the CAMPO boundary
- Number (5-year rolling average) of serious crashes in the CAMPO boundary
- Number (5-year rolling average) of serious injuries involving a bicyclist or pedestrian in the CAMPO boundary
- Rate of fatalities (5-year rolling average) per 100 million VMT (vehicle miles traveled) in the CAMPO boundary
- Rate of serious injuries (5-year rolling average) per 100 million VMT (vehicle miles traveled) in the CAMPO boundary

**Goal - Maintain a sustainable regional transportation system**

Related Performance Measures

- Average Pavement Condition Index (PCI) rating for collector and arterial roadways within the CAMPO boundary by jurisdiction
- Percentage of roadways with a PCI rating of 55 or below in the CAMPO boundary by jurisdiction
- Percentage of structurally deficient bridge decks with a roadway functional classification of 1-5

**Goal - Increase the mobility and reliability of the transportation system for all users**Related Performance Measures

- The number of transportation facilities improved to ADA standards within the CAMPO boundary by jurisdiction
- The cost per revenue hour/mile/trip for Jump Around Carson (fixed route and paratransit) and RTC Intercity
- The number of passengers per revenue hour/mile for Jump Around Carson (fixed route and paratransit) and RTC Intercity
- Monthly ridership for Jump Around Carson (fixed route and paratransit) and RTC Intercity
- Farebox recovery rate for Jump Around Carson (fixed route and paratransit) and RTC Intercity
- On-time performance for Jump Around Carson's fixed route and RTC Intercity
- Travel Demand Model estimated travel times

**Goal - Maintain and develop a transportation system that supports economic vitality**Related Performance Measure

- Travel times, during peak hours, from the travel demand model for U.S. Highway 395 and Highway 50

**Goal - Provide an integrated transportation system**Related Performance Measures

- Number of Complete Street projects constructed within the CAMPO boundary
- Miles of bicycle lane added or reconstructed
- Miles of sidewalk added or reconstructed
- Miles of shared use path added or reconstructed

### Transit Asset Management

MAP-21 required a system to monitor and manage public transportation assets to improve safety, increase reliability and performance, and established performance measures. MAP-21 grouped transit providers in two categories: Tier 1 and Tier 2. CAMPO is under the Tier 2 category. The following table defines the two categories, which generally are based on size of the public transportation agency.

**Table 1: Transit Agency Tiers**

Tier 1	Tier 2
Operates rail OR; More than 100 vehicles across all fixed route modes OR;	Subrecipient of 5311 funds OR; American Indian Tribe OR;
More than 100 vehicles in one non-fixed route mode	Less than 100 vehicles across all fixed route modes OR; Less than 100 vehicles in one non-fixed route mode

Tier 2 agencies are responsible for four elements of Transit Asset Management (TAM)

- **An inventory of assets:** A register of capital assets and information about those assets.
- **A condition assessment of inventoried assets:** A rating of the assets' physical state; to be completed for assets an agency has direct capital responsibility for; should be at a level of detail sufficient to monitor and predict performance of inventoried assets.
- **Description of a decision support tool:** An analytic process or tool that (1) assists in capital asset investment prioritization and/or (2) estimates capital needs over time.
- **A prioritized list of investments:** A prioritized list of projects or programs to manage or improve the state of good repair (SGR) of capital assets.

Transit asset management is measured by asset class. The following table provides a description of each asset class and the performance measure used for each. CAMPO only reports on equipment, rolling stock, and facilities since it does not own any assets that would qualify under the infrastructure category.

**Table 2: Transit Agency Tiers**

Asset Class	Description	Performance Measure
Equipment	Non-revenue support-service and maintenance vehicles	Percentage of vehicles met or exceeded Useful Life Benchmark*
Rolling Stock	Revenue vehicles by mode	Percentage of vehicles met or exceeded Useful Life Benchmark
Facilities	Maintenance and administrative facilities; and passenger stations (buildings) and parking facilities	Percentage of assets with condition rating below 3.0 on FTA TERM Scale

\*Useful Life Benchmark is a measure transit agencies use to track the performance of revenue vehicles and service vehicles.

## Financially Constrained Project Listing

Per federal regulation, projects included in the State's Transportation Improvement Program and CAMPO's Transportation Improvement Program shall be prioritized and financially constrained by year. CAMPO is establishing a performance based planning approach to help prioritize projects, based on goals and objectives approved in CAMPO's 2040 Regional Transportation Plan. The objectives from the plan will be incorporated into the prioritization of TIP projects.

### eSTIP

The eSTIP, which stands for the Electronic State Transportation Improvement Program, is a searchable database that can be filtered based on project criteria. This online platform was developed by the Nevada Department of Transportation, in coordination with Nevada's four Metropolitan Planning Organizations.

Changes to the projects are in real-time so users can find the most up-to-date information. Project details and customized reports are available to view and download on the eSTIP website, at <https://estip.nevadadot.com>.

The eSTIP categorizes transportation projects by five general categories: roadway, transit, bicycle and pedestrian, environmental, or other. Additionally, project funding and schedule are broken into four potential phases: preliminary engineering (PE), right-of-way (ROW), construction, and other.

Information from the eSTIP website on funding sources and projects are incorporated into this formal document as follows:

- A list and description of all federal funding sources present in CAMPO's 2018-2021 Transportation Improvement Program
- A table showing programmed funds by funding source and year for CAMPO's 2018-2021 Transportation Improvement Program
- A detailed project listing for all projects in CAMPO's 2018-2021 Transportation Improvement Program (see Appendix A)

## Federal Funding Sources

### Federal Highway Administration (FHWA)

<b>HIP</b>	<b>Highway Infrastructure Program</b>
HSIP	Highway Safety Improvement Program
NHPP	National Highway Performance Program
SRTS	Safe Routes to School
STBG 5K-200K	Surface Transportation Block Grant Program – areas with population over 5,000 to 200,000
STP 5K-200K	Surface Transportation Program (superseded by STBG Program) – areas with population over 5,000 to 200,000
TAP 5K-200K	Transportation Alternatives Program (cancelled) – areas with population over 5,000 to 200,000
TAP Flex	Transportation Alternatives Program (cancelled) – funds flexed by the State DOT to small urban and rural areas
TIGER	Transportation Investment Generating Economic Recovery – DOT competitive discretionary grant

### Federal Transit Administration (FTA)

5307	Urbanized Area Formula Grants – Section 5307, small urban areas with population between 50,000 and 200,000
5310	Enhanced Mobility of Seniors & Individuals with Disabilities – Section 5310, small urban areas with population between 50,000 and 200,000
5339	Bus and Bus Facilities – Section 5339, small urban areas with population between 50,000 and 200,000
5339(b)	Bus and Bus Facilities Discretionary Program – competitive program open to all urban and rural recipients eligible under Section 5307, as well as States and Indian Tribes

The Carson Area Metropolitan Planning Organization (CAMPO) certifies that the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

1. 23 U.S.C. 134, 49 U.S.C. 5303, and 23 CFR Part 450;
2. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
3. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, religion, national origin, sex, disability or age in employment or business opportunity;
4. Fixing America's Surface Transportation Act (FAST Act, P.L. 114-357) regarding the involvement of disadvantaged business enterprises in the FHWA and the FTA funded projects (see also 49 CFR Part 26);
5. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
6. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
7. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
8. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
9. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.
10. Public notice of public involvement activities and time established for public review and comment on the TIP will satisfy the POP requirements of the Section 5307 Program.
11. 23 CFR part 450 section 218, a TIP shall include, to the maximum extent practicable, a discussion of the anticipated effect of the TIP toward achieving performance targets, linking investment priorities to those performance targets.
12. 49 CFR 625 (under the authority of Sec. 20019 of Pub. L. 112-141, 126 Stat. 707, 49 U.S.C. 5326; Sec. 20025(a) of Pub. L. 112-141, 126 Stat., 718, 49 CFR 1.91.) regarding transit asset management (TAM).

Project List .....Appendix A

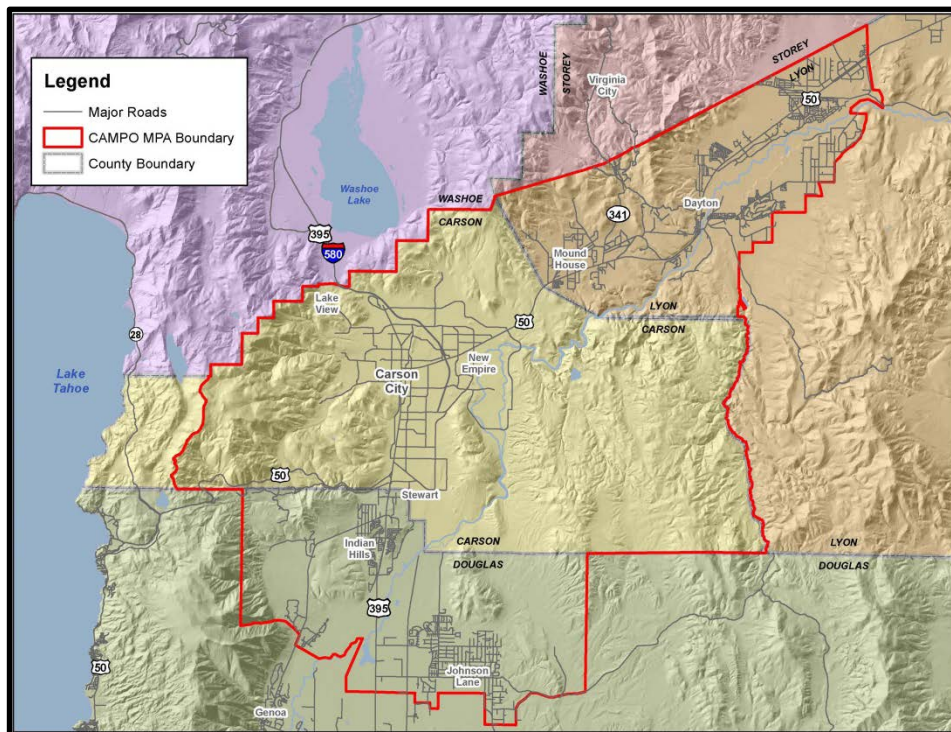

**Introduction**

**What is the Purpose of this Document?**

The Transportation Improvement Program (TIP) is a prioritized listing of transportation improvement projects covering a four-year period that is developed and formally adopted by the Carson Area Metropolitan Planning Organization (CAMPO). CAMPO is responsible for carrying out transportation planning activities within the Metropolitan Planning Area (MPA), shown in Figure 1. The MPA encompasses the urbanized areas, as defined by the US Census Bureau, and a larger geographical area that is likely to urbanize within the next 20 years. The central contiguous urbanized area includes most of the City of Carson City, a portion of northern Douglas County, and a portion of western Lyon County. Additionally, there are two urban clusters within the MPA, which are the Johnson Lane area in Douglas County and the Dayton area in Lyon County.

The TIP must be consistent with the Statewide Transportation Improvement Program (STIP) and must be updated at a minimum of every four years. The TIP must be consistent with CAMPO’s long-range Regional Transportation Plan (RTP), available at [www.CarsonAreaMPO.com](http://www.CarsonAreaMPO.com). The TIP contains a listing of all federally funded transportation projects and projects of regional significance, regardless of the funding source. The TIP must identify funding from public and private sources that are reasonably expected to be made available to implement a project. Per federal guidelines, the TIP must include a financially constrained project list.

**Figure 1: CAMPO MPA Boundary**

## Performance Based Planning and Programming

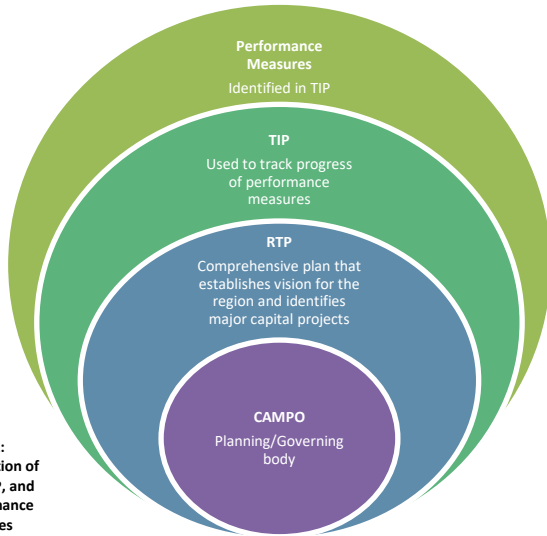

Figure 2:  
Integration of  
RTP, TIP, and  
Performance  
Measures

The Moving America Ahead for Progress in the 21<sup>st</sup> Century (MAP-21) Act was signed into law in 2012. The highlight of this transportation bill was a focus on implementing performance measures and performance based planning. Under MAP-21, the United States Department of Transportation (DOT) established a requirement for State DOTs and MPOs to set targets. Per MAP-21, MPOs must incorporate these targets and associated performance measures into their TIPs and RTP. Figure 2 provides a graphical representation of the relationship between a governing body, its planning documents, and its performance measures.

MAP-21 requires that transportation improvement programs developed by MPOs include a description of the anticipated effort of the program on achieving regional performance targets identified in the RTP. This requirement is designed to directly link investments to performance targets. The TIP will be used to track progress of these performance measures, specifically those related to project accomplishment.

MAP-21 establishes national performance goals for the Federal-aid highway program in seven areas: 1) safety; 2) infrastructure condition; 3) congestion reduction; 4) system reliability; 5) freight movement and economic vitality; 6) environmental sustainability; and 7) reduced project delivery delays. A performance based planning and funding system is more likely to identify and mitigate transportation system deficiencies than a fixed allocation funding process. CAMPO is committed to developing a transparent programming process that allocates funding effectively to maintain an efficient multi-modal transportation system. National performance goals are considered during project evaluation and selection. CAMPO has developed performance measures to help allocate transportation funds based on performance data. The national goals help plan and program transportation investment. Established performance measures and adopted targets will be used to evaluate projects.

On December 4, 2015, the Fixing America's Surface Transportation Act, also known as the "FAST Act", was signed into law. The FAST Act confirms all the performance based planning requirements established under the previous transportation act, MAP-21.

Below are the national goals (in bold) established under MAP-21 and examples of how specific projects are prioritized by national goals and performance measures.

**1. Safety - Achieve significant reduction in traffic fatalities and serious injuries on all public roads.**

Example, locations may be prioritized that have high crash rates, or safety improvements, such as FHWA proven countermeasures, may be incorporated into projects.

**2. Infrastructure Condition - Maintain the highway infrastructure asset system in a state of good repair.**

Example, projects may be prioritized by roadway condition.

**3. Congestion Reduction - Achieve a significant reduction in congestion on the National Highway System.**

Example, projects may be evaluated using traffic counts or travel demand modeling outputs to identify congested areas.

**4. System Reliability - Improve the efficiency of the surface transportation system.**

Example, projects may be prioritized if the project improves system redundancy or increases roadway capacity without adding traffic lanes.

**5. Freight Movement and Economic Vitality - Improve the national freight network and support regional economic development.**

Example, projects may be prioritized if the project improves the movement of freight along a primary freight network.

**6. Environmental Sustainability - Enhance the performance of the transportation system while protecting and enhancing the natural environment.**

Example, projects may be prioritized if the project demonstrates the reduction of mobile emissions as an effort to maintain or improve air quality.

**7. Reduce Project Delivery Delays - Reduce the project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process.**

Example, projects may be prioritized if the project is shovel ready and has support from multiple agencies.

Per federal guidelines, the TIP continues to build upon the goals and objectives articulated in CAMPO's 2040 Regional Transportation Plan. By incorporating these goals into short-range programming activities, projects are linked to the region's vision and long-term investment strategy. A comprehensive list of CAMPO's goals and performance measures is provided below:

**Goal - Increase the safety of the transportation system for all users**

Related Performance Measures

- Number (5-year rolling average) of fatal crashes in CAMPO boundary
- Number (5-year rolling average) of fatal crashes involving a bicyclist or pedestrian in the CAMPO boundary
- Number (5-year rolling average) of serious crashes in the CAMPO boundary
- Number (5-year rolling average) of serious injuries involving a bicyclist or pedestrian in the CAMPO boundary
- Rate of fatalities (5-year rolling average) per 100 million VMT (vehicle miles traveled) in the CAMPO boundary
- Rate of serious injuries (5-year rolling average) per 100 million VMT (vehicle miles traveled) in the CAMPO boundary

**Goal - Maintain a sustainable regional transportation system**

Related Performance Measures

- Average Pavement Condition Index (PCI) rating for collector and arterial roadways within the CAMPO boundary by jurisdiction
- Percentage of roadways with a PCI rating of 55 or below in the CAMPO boundary by jurisdiction
- Percentage of structurally deficient bridge decks with a roadway functional classification of 1-5

**Goal - Increase the mobility and reliability of the transportation system for all users**Related Performance Measures

- The number of transportation facilities improved to ADA standards within the CAMPO boundary by jurisdiction
- The cost per revenue hour/mile/trip for Jump Around Carson (fixed route and paratransit) and RTC Intercity
- The number of passengers per revenue hour/mile for Jump Around Carson (fixed route and paratransit) and RTC Intercity
- Monthly ridership for Jump Around Carson (fixed route and paratransit) and RTC Intercity
- Farebox recovery rate for Jump Around Carson (fixed route and paratransit) and RTC Intercity
- On-time performance for Jump Around Carson's fixed route and RTC Intercity
- Travel Demand Model estimated travel times

**Goal - Maintain and develop a transportation system that supports economic vitality**Related Performance Measure

- Travel times, during peak hours, from the travel demand model for U.S. Highway 395 and Highway 50

**Goal - Provide an integrated transportation system**Related Performance Measures

- Number of Complete Street projects constructed within the CAMPO boundary
- Miles of bicycle lane added or reconstructed
- Miles of sidewalk added or reconstructed
- Miles of shared use path added or reconstructed

### Transit Asset Management

MAP-21 required a system to monitor and manage public transportation assets to improve safety, increase reliability and performance, and established performance measures. MAP-21 grouped transit providers in two categories: Tier 1 and Tier 2. CAMPO is under the Tier 2 category. The following table defines the two categories, which generally are based on size of the public transportation agency.

**Table 1: Transit Agency Tiers**

Tier 1	Tier 2
Operates rail OR; More than 100 vehicles across all fixed route modes OR;	Subrecipient of 5311 funds OR; American Indian Tribe OR;
More than 100 vehicles in one non-fixed route mode	Less than 100 vehicles across all fixed route modes OR; Less than 100 vehicles in one non-fixed route mode

Tier 2 agencies are responsible for four elements of Transit Asset Management (TAM)

- **An inventory of assets:** A register of capital assets and information about those assets.
- **A condition assessment of inventoried assets:** A rating of the assets' physical state; to be completed for assets an agency has direct capital responsibility for; should be at a level of detail sufficient to monitor and predict performance of inventoried assets.
- **Description of a decision support tool:** An analytic process or tool that (1) assists in capital asset investment prioritization and/or (2) estimates capital needs over time.
- **A prioritized list of investments:** A prioritized list of projects or programs to manage or improve the state of good repair (SGR) of capital assets.

Transit asset management is measured by asset class. The following table provides a description of each asset class and the performance measure used for each. CAMPO only reports on equipment, rolling stock, and facilities since it does not own any assets that would qualify under the infrastructure category.

**Table 2: Transit Agency Tiers**

Asset Class	Description	Performance Measure
Equipment	Non-revenue support-service and maintenance vehicles	Percentage of vehicles met or exceeded Useful Life Benchmark*
Rolling Stock	Revenue vehicles by mode	Percentage of vehicles met or exceeded Useful Life Benchmark
Facilities	Maintenance and administrative facilities; and passenger stations (buildings) and parking facilities	Percentage of assets with condition rating below 3.0 on FTA TERM Scale

\*Useful Life Benchmark is a measure transit agencies use to track the performance of revenue vehicles and service vehicles.

## Financially Constrained Project Listing

Per federal regulation, projects included in the State's Transportation Improvement Program and CAMPO's Transportation Improvement Program shall be prioritized and financially constrained by year. CAMPO is establishing a performance based planning approach to help prioritize projects, based on goals and objectives approved in CAMPO's 2040 Regional Transportation Plan. The objectives from the plan will be incorporated into the prioritization of TIP projects.

### eSTIP

The eSTIP, which stands for the Electronic State Transportation Improvement Program, is a searchable database that can be filtered based on project criteria. This online platform was developed by the Nevada Department of Transportation, in coordination with Nevada's four Metropolitan Planning Organizations.

Changes to the projects are in real-time so users can find the most up-to-date information. Project details and customized reports are available to view and download on the eSTIP website, at <https://estip.nevadadot.com>.

The eSTIP categorizes transportation projects by five general categories: roadway, transit, bicycle and pedestrian, environmental, or other. Additionally, project funding and schedule are broken into four potential phases: preliminary engineering (PE), right-of-way (ROW), construction, and other.

Information from the eSTIP website on funding sources and projects are incorporated into this formal document as follows:

- A list and description of all federal funding sources present in CAMPO's 2018-2021 Transportation Improvement Program
- A table showing programmed funds by funding source and year for CAMPO's 2018-2021 Transportation Improvement Program
- A detailed project listing for all projects in CAMPO's 2018-2021 Transportation Improvement Program (see Appendix A)

## Federal Funding Sources

### **Federal Highway Administration (FHWA)**

HIP	Highway Infrastructure Program
HSIP	Highway Safety Improvement Program
NHPP	National Highway Performance Program
SRTS	Safe Routes to School
STBG 5K-200K	Surface Transportation Block Grant Program – areas with population over 5,000 to 200,000
STP 5K-200K	Surface Transportation Program (superseded by STBG Program) – areas with population over 5,000 to 200,000
TAP 5K-200K	Transportation Alternatives Program (cancelled) – areas with population over 5,000 to 200,000
TAP Flex	Transportation Alternatives Program (cancelled) – funds flexed by the State DOT to small urban and rural areas
TIGER	Transportation Investment Generating Economic Recovery – DOT competitive discretionary grant

### **Federal Transit Administration (FTA)**

5307	Urbanized Area Formula Grants – Section 5307, small urban areas with population between 50,000 and 200,000
5310	Enhanced Mobility of Seniors & Individuals with Disabilities – Section 5310, small urban areas with population between 50,000 and 200,000
5339	Bus and Bus Facilities – Section 5339, small urban areas with population between 50,000 and 200,000
5339(b)	Bus and Bus Facilities Discretionary Program – competitive program open to all urban and rural recipients eligible under Section 5307, as well as States and Indian Tribes

**Table 3**

The Carson Area Metropolitan Planning Organization (CAMPO) certifies that the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

1. 23 U.S.C. 134, 49 U.S.C. 5303, and 23 CFR Part 450;
2. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
3. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, religion, national origin, sex, disability or age in employment or business opportunity;
4. Fixing America's Surface Transportation Act (FAST Act, P.L. 114-357) regarding the involvement of disadvantaged business enterprises in the FHWA and the FTA funded projects (see also 49 CFR Part 26);
5. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
6. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
7. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
8. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
9. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.
10. Public notice of public involvement activities and time established for public review and comment on the TIP will satisfy the POP requirements of the Section 5307 Program.
11. 23 CFR part 450 section 218, a TIP shall include, to the maximum extent practicable, a discussion of the anticipated effect of the TIP toward achieving performance targets, linking investment priorities to those performance targets.
12. 49 CFR 625 (under the authority of Sec. 20019 of Pub. L. 112-141, 126 Stat. 707, 49 U.S.C. 5326; Sec. 20025(a) of Pub. L. 112-141, 126 Stat., 718, 49 CFR 1.91.) regarding transit asset management (TAM).

## STAFF REPORT

**Report To:** The Carson Area Metropolitan Planning Organization (CAMPO)

**Meeting Date:** May 8, 2019

**Staff Contact:** Lucia Maloney, Transportation Manager

**Agenda Title: For Information Only** – Presentation and discussion about the 2018 Jump Around Carson (JAC) Non-Rider survey conducted October 29 through December 2, 2018 as part of the Unified Planning Work Program.

**Staff Summary:** A survey was conducted from October 29 through December 2, 2018, to understand travel preferences and capture basic demographics of the portion of the public that chooses not to use JAC transit services. The survey was conducted as part of CAMPO's 2019/2020 Unified Planning Work Program (UPWP) transit non-rider survey (Task 2.2). Survey results were compared to the JAC transit user survey conducted in 2017 to understand opportunities to increase ridership and customer satisfaction.

**Agenda Action:** Other/Presentation

**Time Requested:** 10 minutes

### Proposed Motion

N/A

### Previous Action

CAMPO staff provided information on the 2017 transit rider surveys at the January 10, 2018 CAMPO meeting. In total, 295 surveys were completed. Key findings of that survey effort included:

- Over half of respondents would be likely to use some form of electronic fare payment, should JAC implement such a feature (i.e., reloadable card or payment by mobile app).
- Respondents prefer to get information and news about JAC from the JAC Website and JAC Mobile App.
- The most commonly suggested way to improve service, across all routes, was to implement improve convenience of routes and/or stops.
- Respondents ranked nine different potential improvements to JAC in order of importance, the two highest ranked were "Additional Hours of Service" and "Additional Days of Service".

### Background/Issues & Analysis

As a subsequent planning activity to the 2017 transit rider surveys, CAMPO staff conducted an online survey of transit non-riders from October 29 through December 2, 2018. The survey was available online and was distributed to every City resident on their utility bills and advertised on the City's Public Works social media page (Facebook). Survey respondents that provided contact information were entered into a raffle for a \$50 Visa gift card. In total, 43 respondents completed the survey.

Although not a statistically significant sampling, information gleaned from the completed surveys is useful for future service planning and enhancements. The survey results are contained in Exhibit 1 of this staff report. Takeaways from the survey include:

- The main reason people choose to not ride the JAC bus is they require their car during the day for work or to run errands (46%). 21% reported the main reason was that there is no bus stop near their house.
- 71% of respondents reported being Not very familiar or Not at all familiar with JAC's bus routes and stop locations.
- 72% of respondents reported that they have used transit when travelling to other Cities.
- 22% reported regardless of service delivery improvements they will never ride the JAC bus.
- The survey asked for agreement/disagreement on four primary facets of the transit service, including safety, comfort/cleanliness, convenience, and affordability. 90% of respondents disagreed with the statement that the bus service is convenient, as a result, future improvements addressing convenience should be prioritized.
- When asked what service delivery improvements would make someone more inclined to use JAC transit, the top responses included: Improved bus stop amenities (15%), increased frequency of service (13%), addition of bus stops near my house (13%), and addition of bus stops near preferred destinations (11%).

**Applicable Statute, Code, Policy, Rule or Regulation**

N/A

**Financial Information**

Is there a fiscal impact?  Yes  No

If yes, Fund Name, Account Name / Account Number: CAMPO, Unified Planning Work Program account, Task 2.2 Regional Transit Coordination and Engagement / 245-3028-431.12-01

Is it currently budgeted?  Yes  No

Explanation of Fiscal Impact: UPWP tasks are reimbursable with Federal planning funds at a rate of 95%. The 5% local match has been budgeted.

## 2018 Jump Around Carson (JAC) Transit Non-Rider Survey Results

n = 43 completed surveys

How often do you ride a Jump Around Carson (JAC) bus?

	Count	Percent
Never or almost never	43	100.0%
<i>Total</i>	43	100.0%

What mode of travel do you typically use to travel to your most frequent destination (such as work, school, or shopping)?

	Count	Percent
Drive alone	42	97.7%
Walk/bike	1	2.3%
<i>Total</i>	43	100.0%

What is the main reason that you don't ride JAC for your most frequent trips?

	Count	Percent
Need my car during the day for work or to run errands on the way home	20	46.5%
No bus stop near my house	9	20.9%
Bus does not go where I need to	3	7.0%
Bus ride would take too long	2	4.7%
Have kids and am not able to take them on the bus	2	4.7%
I don't know anything about the service, availability	2	4.7%
Buses don't run often enough	1	2.3%
Never considered it an option	1	2.3%
Don't like to wait for the bus	1	2.3%
I ride my bike	1	2.3%
Don't know	1	2.3%
<i>Total</i>	43	100.0%

How familiar are you with JAC's bus routes and stop locations?

	Count	Percent
Not at all familiar	21	48.8%
Not very familiar	10	23.3%
Somewhat familiar	10	23.3%
Very familiar	2	4.7%
<i>Total</i>	43	100.0%

Have you used transit service when travelling to other Cities?

	Count	Percent
No	12	27.9%
Yes	31	72.1%
<i>Total</i>	43	100.0%

Please indicate whether you agree or disagree to the following statements and why.

I feel Safe and Secure on the Bus

	Count	Percent
Agree	19	44.2%
Disagree	24	55.8%
<i>Total</i>	43	100.0%

<i>I feel safe and secure on the bus – Why?</i>		Count	Percent
Agree	Airy	1	10.0%
	Came from New York City. Always took public transportation.	1	10.0%

The bus service is convenient for me

	<b>Count</b>	<b>Percent</b>
Agree	4	9.3%
Disagree	39	90.7%
<b><i>Total</i></b>	<b>43</b>	<b>100.0%</b>

<b><i>The bus service is convenient for me – Why?</i></b>		<b>Count</b>	<b>Percent</b>
Agree	I see them everywhere I would go	1	50.0%
	Stop nearby	1	50.0%
	<b><i>SUBTOTAL</i></b>	<b>2</b>	<b>100.0%</b>
Disagree	After surgery I would have had to walk 8 blocks w/ walker & no sidewalks	1	8.3%
	I currently don't need to use bus service but certainly am happy that there is one in place in Carson. If I needed to take the bus, there is a stop a few blocks from me.	1	8.3%
	It is more convenient for me to use my private transportation.	1	8.3%
	It's not convenient	1	8.3%
	No bus stop off King Street	1	8.3%
	No close stops	1	8.3%
	No stops near my house	1	8.3%
	No, I use my own transport	1	8.3%
	Not really	1	8.3%
	Routes and times are not particularly useful	1	8.3%
	The bus does not stop near my house. I would like it to run later in the night	1	8.3%
	The stops and the routes make no sense. I could not rely on this service to travel anywhere.	1	8.3%
	<b><i>SUBTOTAL</i></b>	<b>12</b>	<b>100.0%</b>
<b><i>Total</i></b>		<b>14</b>	

The bus fares are affordable

	Count	Percent
Agree	20	46.5%
Disagree	23	53.5%
<i>Total</i>	43	100.0%

<i>The bus fares are affordable – Why?</i>		Count	Percent
Agree	Cheap fares	1	11.1%
	Experience	1	11.1%
	I can afford it	1	11.1%
	I see enough people riding the bus that I assumed it was affordable	1	11.1%
	I think so	3	33.3%
	My dad rides on it almost daily	1	11.1%
	Prices are very reasonable with options to choose from. As a senior, cost is always a factor and affordable rides can help to budget	1	11.1%
	<i>SUBTOTAL</i>	9	100.0%
Disagree	I do not know the fares	1	33.3%
	The fares are far too expensive for the inconvenience of using the bus system in Carson City	1	33.3%
	The rates have gone up	1	33.3%
	<i>SUBTOTAL</i>	3	100.0%
<i>Total</i>	12		

What service delivery improvements would make you more inclined to use JAC transit service? (multiple response)

	Count	Percent
Improved bus stop amenities (i.e. bench, bus shelter, etc.)	12	14.5%
Increased frequency of service (i.e., buses that serve my preferred destinations every 30 minutes as opposed to every hour)	11	13.3%
Addition of bus stop near my house	11	13.3%
Addition of bus stop(s) near my preferred destination(s)	9	10.8%
Faster Service (currently, the bus ride would take too long)	6	7.2%
Improved technology (i.e. ability to purchase fares on my phone, improved website, etc.)	6	7.2%
Increased safety/security at bus stops/on the bus	3	3.6%
Improved ease of use (i.e. the service is too complicated; rider training could be offered to familiarize people with how to use the service)	3	3.6%
Improve public communication about the services that are available	2	2.4%
Create a late night shuttle	1	1.2%
Provide free transit	1	1.2%
None - I will never ride the JAC bus	18	21.7%
<i>Total</i>	83	100.0%

If JAC wanted to let you and other people in your neighborhood know about a new route that would make it easier to take the bus, what's the best way to get you that information? (multiple response)

	Count	Percent
JAC website	14	21.9%
Newspaper (i.e. Nevada Appeal)	13	20.3%
Other Websites	11	17.2%
JAC System Map & Transit Guide	8	12.5%
JAC Mobile App	7	10.9%
