### VICINITY MAP:

**RECOMMENDED CONDITIONS OF APPROVAL:**

1. The applicant must sign and return the Notice of Decision for conditions for approval within 10 days of receipt of notification. If the Notice of Decision is not signed and returned within 10 days, then the item may be rescheduled for the next Planning Commission meeting for further consideration.

**The following conditions are applicable throughout the life of the billboard:**

2. The maximum permitted sign height is 28 feet from the adjacent street elevation if the sign height is proposed to be changed.
3. Any modifications or additions of light fixtures, excluding the replacement of light bulbs, require Planning Division approval and may require a Building Permit. Such modifications may only be done in accordance with the lighting standards of the Carson City Municipal Code. Any proposed change of lighting of the billboard shall be shielded so as not to project light and/or glare onto adjacent properties or right-of-way. A detailed lighting plan, including light fixture details (cut sheets) must be provided with the building permit application if a light fixture change is proposed.
4. The sign support structure must remain a monopole design, and structure must remain painted an earth-tone color as previously approved by the Planning Division. Any change of color requires submission of proposed color samples for the structure for review and approval by the Planning Division. Any Building Permit submission will require Planning Division review as well.
5. This approval is for the continued use of the existing off-premises sign only. Replacement of the sign structure may only be done in accordance with the provisions of the Carson City Municipal Code for new off-premises signs, and with the approval of a new Special Use Permit.
6. Without further notice, the subject Special Use Permit shall expire the last day of June 2024, unless a new Special Use Permit to continue the use of the off-premises sign is acquired by that date. It is the applicant's responsibility to submit a complete Special Use Permit application in sufficient time to be scheduled for review prior to the expiration date.
7. Carson City Business License fees shall be paid for the billboard and kept current at all times.
8. All portions of the billboard structure shall be maintained free of graffiti. Failure to do so may constitute cause for revocation of the Business License and Special Use Permit.

**LEGAL REQUIREMENTS:** CCMC 18.02.050 (Review); 18.02.080 (Special Use Permits); 18.04.135 (General Commercial zoning); and Development Standards, Section 4.8 (Requirements for Billboards and Off-Premises Signs).

The billboard has been at this location on the site since it was constructed in 2004. No known complaints or concerns have been registered regarding the location or existence of the billboard.

The following is a review of the billboard with regard to the specific guidelines of Development Standards Division 4.8.3:

**DEVELOPMENT STANDARDS DIVISION 4.8.3 BILLBOARD REQUIREMENTS:**

- a. Special Use Permit Required: Approval of a Special Use Permit is required for a billboard. The current Special Use Permit is scheduled to expire on June 30, 2019. Upon approval of the required review, the next required review date to continue the billboard will be June 30, 2024.
- b. Permitted Streets: Billboards are permitted along North and South Carson Street between Douglas and Washoe Counties, US Highway 50 between Lyon County and North Carson Street, and the south side of US Highway 50 West from the Douglas County line to 660 feet (one-eighth mile) east of that point within Section 31 of Township 15N, Range 20E. This property is addressed as 5853 South Carson Street and is located along Carson Street between Douglas and Washoe Counties. The billboard location is in compliance.
- c. Height: The maximum permitted sign height is 28 feet from the adjacent "permitted street" elevation with an additional height of two feet allowed for a minor extension not exceeding 10% of the maximum allowed sign area. Height is approximately 29 feet above street grade at the western area with the extension. The overall height of the majority of the sign is 22 feet above the ground with the extension adding three feet in height for a distance of four feet on the south façade of the billboard at the western area. The billboard is in compliance.
- d. Number of Sign Faces: One sign face per side (single or double-faced sign) is permitted. The subject billboard is a double-faced sign. The billboard is in compliance.
- e. Zoning of the Site: New billboards are only permitted within the General Commercial (GC) or General Industrial (GI) zoning districts. The subject site is located on a parcel zoned General Commercial (GC). The billboard is in compliance.
- f. Spacing Distance: Billboards may not be located within 1,000 feet of each other. The billboard is in compliance.
- g. Area of Sign: The maximum permitted sign area for billboards is 400 square feet per side. This billboard measures 10.5 feet by 36 feet or 378 square feet, and has an extension of 12 square feet on the south side. The billboard is in compliance.
- h. Setback from Certain Uses and Zoning: A billboard sign may not be within 300 feet of a property zoned Agriculture (A), Conservation Reserve (CR), or any residential district. The billboard is in compliance.
- i. Setback from Redevelopment Areas: A billboard sign may not be within 1,000 feet of a redevelopment area. This billboard is located in a Redevelopment Area. CCMC 4.8.4.6 advises the continuation of a non-conforming sign may not be denied on account of the sign failing to comply with the setback from a redevelopment area.
- j. Prohibited Supporting Structures: A sign may not be attached to a roof or wall or other surface of a building. A sign must be a freestanding sign. The billboard is freestanding. The billboard is in compliance.

- k. Prohibited Characteristics and Materials: Signs cannot display three-dimensional objects, have movable reflective/lighted materials or beams, flash, be internally lit, have or simulate moving parts, nor may have external lighting glare onto adjacent properties or rights-of-way. The billboard is in compliance.

**PUBLIC COMMENTS:** Public notices were mailed on June 7, 2019 to 40 adjacent property owners, and 73 mobile home park residents within 600 feet of the subject site, pursuant to the provisions of NRS and CCMC. As of the writing of this report no comments in support or opposition of the billboard have been received. Any comments that are received after this report is completed will be submitted prior to or at the Planning Commission meeting on June 26, 2019, depending on their submittal date to the Planning Division.

**CITY DEPARTMENTS OR OUTSIDE AGENCY COMMENTS:** No concerns were noted by other City departments in their responses and no comments were received from any outside agency.

**FINDINGS:** Staff's recommendation is based upon the findings as required by CCMC Section 18.02.062 (Special Use Permits) enumerated below and substantiated in the public record for the project. The Special Use Permit for the billboard expires automatically five years from the date of issuance. If this request is approved the new expiration date will be June 30, 2024.

**2. *The project will not be detrimental to the use, peaceful enjoyment, economic value, or development of surrounding properties or the general neighborhood; and is compatible with and preserves the character and integrity of adjacent development and neighborhoods or includes improvements or modifications either on-site or within the public right-of-way to mitigate development related to adverse impacts such as noise, vibrations, fumes, odors, dust, glare or physical activity.***

The continued use of this billboard is located in an area zoned for commercial activity, with traffic passing north and south adjacent to this site while traveling on Highway 395/50. This is an area that is currently developed with commercial enterprises and no complaints regarding the billboard have been received. The sign generates no noise, vibrations, fumes, odors, dust, glare or physical activity which could have an adverse impact on adjacent uses.

**3. *Will have little or no detrimental effect on vehicular or pedestrian traffic.***

The billboard will have little or no detrimental effect on vehicular or pedestrian traffic. No additional traffic will be generated in conjunction with the existing sign that could adversely impact vehicular or pedestrian circulation in the subject area.

The existing sign has been in the present location for approximately 15 years, in an area that is developed with commercial uses, and has not had adverse effects noted by or on neighboring properties. The continued use of the billboard sign is not anticipated to result in material damage or prejudice to other properties in the vicinity.
