Without a well communicated plan soon, the economic and human crisis would be unimaginable. Please see my article in the Nevada Appeal on May 20th that we need to reopen and with a well documented plan in advance.

The Board of Supervisors know this city much better than Governor Sisolak. The Board of Supervisors know that a top-down, one size fits all, is not the answer. I urge them to have a custom reopening plan for Carson City with success stats published every week.

Board of Supervisors could provide enabling policies to reopen faster like temporary contractual protections to businesses against lawsuits, or allow restaurants to use the public space (e.g. parking lots) to place tables 6 feet apart, or even being visible around the city. At the very least, it would raise the confidence level and hope for our residents.

Thank you,  
Bepsy Strasburg
