My concern is the radiation that will blanket the valley from these RFR towers. Many scientific publications have reported effects such as cancer, cellular stress, high levels of harmful free radicals, reproductive issues, neurological disorders, & learning deficits. These EMF issues are not only a problem for humans but also animals & plants, this leaves me wondering why we would be willing to further jeopardize the health of life & planet at such a delicate point in history. Please reconsider installing these towers.

RFR=radio frequency radiation
EMF=electromagnetic fields
