Subject: Rehab facility permit

This message originated outside of Carson City's email system. Use caution if this message contains attachments, links, or requests for information.

Dear Ms Ferris,

I own Forever Dance, a dance school for children 2-19. We are located on the corner of Roop and Mallory, in the building next to the proposed rehab facility. I feel it is important for those making this decision be aware of the closeness of that facility to a school that caters to children.

I hope that if you choose to approve this, that you do so with caveats attached to the permit that will protect the children I am responsible for. I expect it will be a fully locked facility with patients staying in the facility and not free to roam the surrounding area. But I also hope their will be security procedures required so that our families are secure in the fact that there is never a risk to our children, our teachers and the parents dropping off/picking up their kids.

I know of many successful recovering addicts. I also know that during the course of the rehab process, there is much time spent digging into the emotions of people, facing demons that they have lived with, that can bring up deep anger and hatred. It is during that time of rehabilitation that some go off the rails and can be dangerous. I hope the Carson City Planning Board takes this decision very seriously. None of us want to answer for an avoidable tragedy down the road. I know the board has a lot of responsibility on their shoulders when making these decisions. I hope knowing the facts about this area will help make provisions to keep everyone safe.

I would like to hear from you as to whether this permit is approved and if so, what provisions the facility will have to comply with to maintain the safety and security of the children in the area.

Thank you for your time and attention to this matter.

Ellen Dauscher
