The property is developed with office, warehouse, and storage uses. The proposed amendments will result in uniform master plan and zoning across the entire parcel as well as zoning that is consistent with the underlying master plan.

The Planning Commission adopts the master plan amendment and makes a recommendation to the Board of Supervisors by resolution, and makes a recommendation to the Board of Supervisors on the zoning map amendment.

FINDINGS: Staff recommends the following findings for approval of the Master Plan Amendment and Zoning Map Amendment pursuant to CCMC 18.02.070 Master Plan and 18.02.075, Zoning Map Amendments and Zoning Code Amendments.

Master Plan Amendment Findings:

1. The proposed amendment is in substantial compliance with the goals, policies and action programs of the Master Plan.

The proposed amendment is in substantial compliance with the goals, policies, and action programs of the Master Plan. The property has a split master plan designation of MUC and MDR and is developed with office, warehouse, and storage uses. The proposed amendment will result in the entire parcel having a designation of MUC. The MUC designation is intended to encourage a more compact, mixed-use pattern of development along the City's major gateway corridors. Commercial retail and offices are anticipated to be the primary used within the MUC designation; however, residential uses are also anticipated. While single use developments are not encouraged in the MUC zoning district, they may be appropriate when considering the surrounding area. The area surrounding the subject parcel has a diversity of uses including residential, commercial, light industrial, and recreational uses. The proposed amendment is in substantial compliance with the goals, policies, and action programs of the Master Plan.

2. The proposed amendment will provide for land uses compatible with existing adjacent land uses and will not have detrimental impacts to other properties in the vicinity.

The property is currently developed with office, warehouse, and storage uses and has a split master plan designation of MUC and MDR. The proposed amendment will result in the entire parcel having a designation of MUC which will provide consistency with parcels to the north and east and will result in a master plan and zoning that are consistent with one another and consistent with the existing on-site use. There is no proposed change in use.

- 3. The proposed amendment is in response to changed conditions that have occurred since the plan was adopted and the requested amendment represents a more desirable use of land.**

At its meeting of January 20, 2022, the Board of Supervisors accepted the 2021 Master Plan report from the Planning Commission and identified the subject parcel as appropriate for consideration of a mapping correction. The proposed amendment will provide for a uniform master plan designation across the entire parcel and consistency with the land use designations to the north and east.

- 4. The requested amendment will promote the desired pattern of orderly physical growth and guides development based on the projected population growth with the least amount of natural resource impairment and the efficient expenditure of funds for public services.**

The proposed amendment will provide the desired pattern of orderly growth. The proposed amendment will result in the parcel having a designation of MUC which will provide consistency with parcels to the north and east and will result in a master plan and zoning that are consistent with one another and consistent with the existing on-site use. The property is currently developed with office, warehouse, and storage uses and there is no proposed change in use; therefore, the amendment will not result in impacts to public services.

Zoning Map Amendment Findings:

- 1. That the proposed amendment is in substantial compliance with and supports the goals and policies of the master plan.**

The proposed amendment is consistent with the Master Plan. Chapter 3 of the Master Plan identifies the land use designations and identifies what zoning districts corresponds to the land use designation.

The property is currently developed with office, warehouse, and storage uses and has a master plan designation of MUC and MDR. A master plan amendment to MUC for the entire parcel is being considered concurrently with the zoning map amendment. The MUC designation is intended to encourage a more compact, mixed-use pattern of development along the City's major gateway corridors. Commercial retail and offices are anticipated to be the primary used within the MUC designation; however, residential uses are also anticipated. While single use developments are not encouraged in the MUC zoning district, they may be appropriate when considering the surrounding area. The area surrounding the subject parcel has a diversity of uses including residential, commercial, light industrial, and recreational uses. If the master plan is amended to designate the entire parcel as MUC, the proposed Limited Industrial zoning district would be a corresponding zoning district that will implement the Master Plan.

- 2. That the proposed amendment will provide for land uses compatible with existing adjacent land uses and will not have detrimental impacts to other properties in the vicinity.**

The proposed zoning map amendment will create consistency with the proposed master plan designation of MUC. Additionally, the LI zoning will be consistent with the zoning of the properties to the north and west as well as consistency with the existing on-site uses.

3. **That the proposed amendment will not negatively impact existing or planned public services or facilities and will not adversely impact the public health, safety and welfare.**

The proposed zoning map amendment will not negatively impact existing or planned public services or facilities and will not adversely impact the public health, safety and welfare. The property is currently developed with office, warehouse, and storage uses and there is no proposed change in use; therefore, the amendment will not result in impacts to public services.
