of the public's help. He acknowledged that poachers know where to find big game, and advised that they have an intricate communication system and are wealthy enough to afford high caliber legal counsel. He expressed the opinion that the premeditation involved elevates the crime to felony status. Discussion took place regarding the Law Enforcement Division's definition of poaching, tactics used by poachers to apply for multiple tags, the possibility of cross-referencing tag applicants, and procedures for routine stops. Mr. Buonamici commented that elevating the charge to a felony will be move in the right direction.

Vice Chairperson Walker provided information on the presentation by Tom Wilson of proposed amendments to NRS 501.376, and the Board's decision to support the amendments. Vice Chairperson Walker expressed an interest in publishing more information on the activities of the Law Enforcement Division and the success of Operation Game Thief. Mr. Buonamici advised that donations to Operation Game Thief have decreased, and that he recently informed NDOW Administrator Terry Crawforth, in writing, of the importance of having a "product" to show the public.

(1-1462) Mr. Baily disagreed with an earlier comment by Mr. Buonamici that one fish over the limit is not considered poaching.

Mr. Buonamici relayed an example of poaching fish at the Hobart Reservoir. In response to a question, he advised that fines for poaching fish are allocated to the state school fund. Civil penalties associated with the unlawful killing or possession of big game animals, not having a license, or over limit of fish are allocated to NDOW and Operation Game Thief. In response to a question, Mr. Buonamici clarified that civil penalties are assessed during criminal hearings. In response to a further question, Mr. Buonamici advised that a portion of Operation Game Thief donations are allocated to fund his salary. His position is the only in the country which is funded by Operation Game Thief donations, and he discussed the difficulties created by this situation, including officer safety. Vice Chairperson Walker thanked Mr. Buonamici for his presentation. He recessed the meeting at 7:26 p.m. and reconvened at 7:31 p.m.

8. REPORT ON GOVERNOR'S SAGE GROUSE CONSERVATION PLAN - GIL YANUCK

(1-2212) - Member Yanuck referred to the letters included in the agenda materials and provided an overview of recent meetings. He reviewed the February meeting schedule, which includes meetings on February 5 and 13. He advised that a draft plan was required to be submitted by December 31, 2002. He circulated a draft of the bi-state management plan, and advised that there are six local area planning groups throughout the State of Nevada. The Bi-State Planning Group was the only group to have submitted the draft plan on time. Member Yanuck provided an overview of discussions which took place at the Governor's Team Meeting held two weeks ago to review the various plans submitted. He commented that the Bi-State Planning Group has the largest amount of public participation in attendance at meetings and on field trips. He discussed plans for submittal of the final plan to the Governor, the emergency listing request submitted by an Oregon-based conservation group for sage grouse in the Mono County area, and the economic impact of listing a species. He advised that Bureau of Land Management ("BLM") representatives are working closely with California agency representatives. California Department of Fish and Game representatives are working closely with NDOW, U.S. Forest Service, and BLM representatives in both California and Nevada. U.S. Fish and Wildlife Service representatives have also been very supportive of the process. A science committee is being formed to verify the technical content of the planning groups' submittals. He explained that implementation of the plans will be an additional goal of the plan. He discussed development of a 501(c)(3) corporation which will receive donations to fund the programs. Vice Chairperson Walker thanked Member Yanuck for his report.

(1-2471) Member Yanuck acknowledged that the subspecies of the greater sage grouse is that which is being considered for listing. Mr. Carsten expressed opposition to the Endangered Species Act "because it is an abused piece of legislation." He advised of attending many public land use meetings, and expressed the opinion that the Act is a tool being used by environmentalists to close off more land. He expressed difficulty with the legitimacy of the Act. Member Yanuck advised that the U.S. Fish and Wildlife Service is "backlogged" to 2004 with requests to emergency list species. He discussed the process for reviewing an emergency listing request.

(1-2543) Mr. Baily expressed agreement with Mr. Carsten's comments.

In response to a question, Member Yanuck discussed the Bi-State Planning Group's efforts to evaluate and consider rebuilding habitat. Vice Chairperson Walker thanked Member Yanuck for his dedication to this process.

Member Zuber agreed with appointing an alternate representative, and discussed the importance of ensuring the Board is represented at the Commission meetings.
