I received three letters from Monica Ward, Office Manager at Pioneer Academy. The letters are from students who ride JAC. The three letters attached are from Issaac, Damien, and Austin, respectively.

### Jac Bus Station

The jac buses and jac bus passes are important because it's useful for everybody to use to get from place to place without transportation or a vehicle to use in any position. Not everybody is perfect which is why the free passes are helpful because most of us are going through financial problems which people don't have enough money to provide for everyday transportation. And elders need transportation because not all of them but most of them have health problems or people that can't really walk well need somewhere important to go and have someone provide them with the service they need. In general everybody should at least ride the city bus at least once because it's convenient that people know where the stops are to get to there designated destination.

We would like the city of Carson to please listen and hear our pleas. We need the city to keep funding the buses for kids and adults that need them. I can speak for me and my friends and classmates that take the city buses that we need bus passes to ride the bus. The buses help people like me get to school and back home safely. If I walk it home it'll take me a good amount of time to get there. And in the mornings I need the bus to get to school because my parents can not take me because they are always busy or there on their way to work and can not be late. As you can see I really need the bus and there bus passes. It would mean alot if you guys can continue lending your aid to us and help us achieve our dreams and help us get there with these bus passes. Thank you for your time.

**I need the jack bus everyday to get home because my dad doesn't have enough to pick me up everyday. And the walk home is across Carson, and me and my dad rely on the jack bus and the school's ability to keep supplying bus passes to get home.**
