

**TRANSPORTATION IMPROVEMENT PROGRAM
For
Federal Fiscal Year 2025 through 2028**

This report was funded in part through grants from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation. The views and opinions of the Carson Area Metropolitan Planning Organization expressed herein do not necessarily state or reflect those of the U.S. Department of Transportation.

CAMPO TIP FFY 2025-2028 Document Revision History

Version	CAMPO Adoption Date	TIP Action	Summary of Changes
25-00	12/11/2024	Formal Adoption	Document revision & update; Consultation with Carson City, Lyon County, Douglas County, Washoe Tribe of Nevada & California, and NDOT stakeholders;
25-01	1/8/2025	Formal Amendment	Updated funding for District 3 Fifth Street Roundabout Project; Updated funding for Curry Street Complete Streets Improvement Project; Add District 2, Little Lane Project; Add FTA 5307 Small Urban Apportionment; Delete project CC20240004 and combine funding into FTA 5339 Bus/Facility Grant Awards

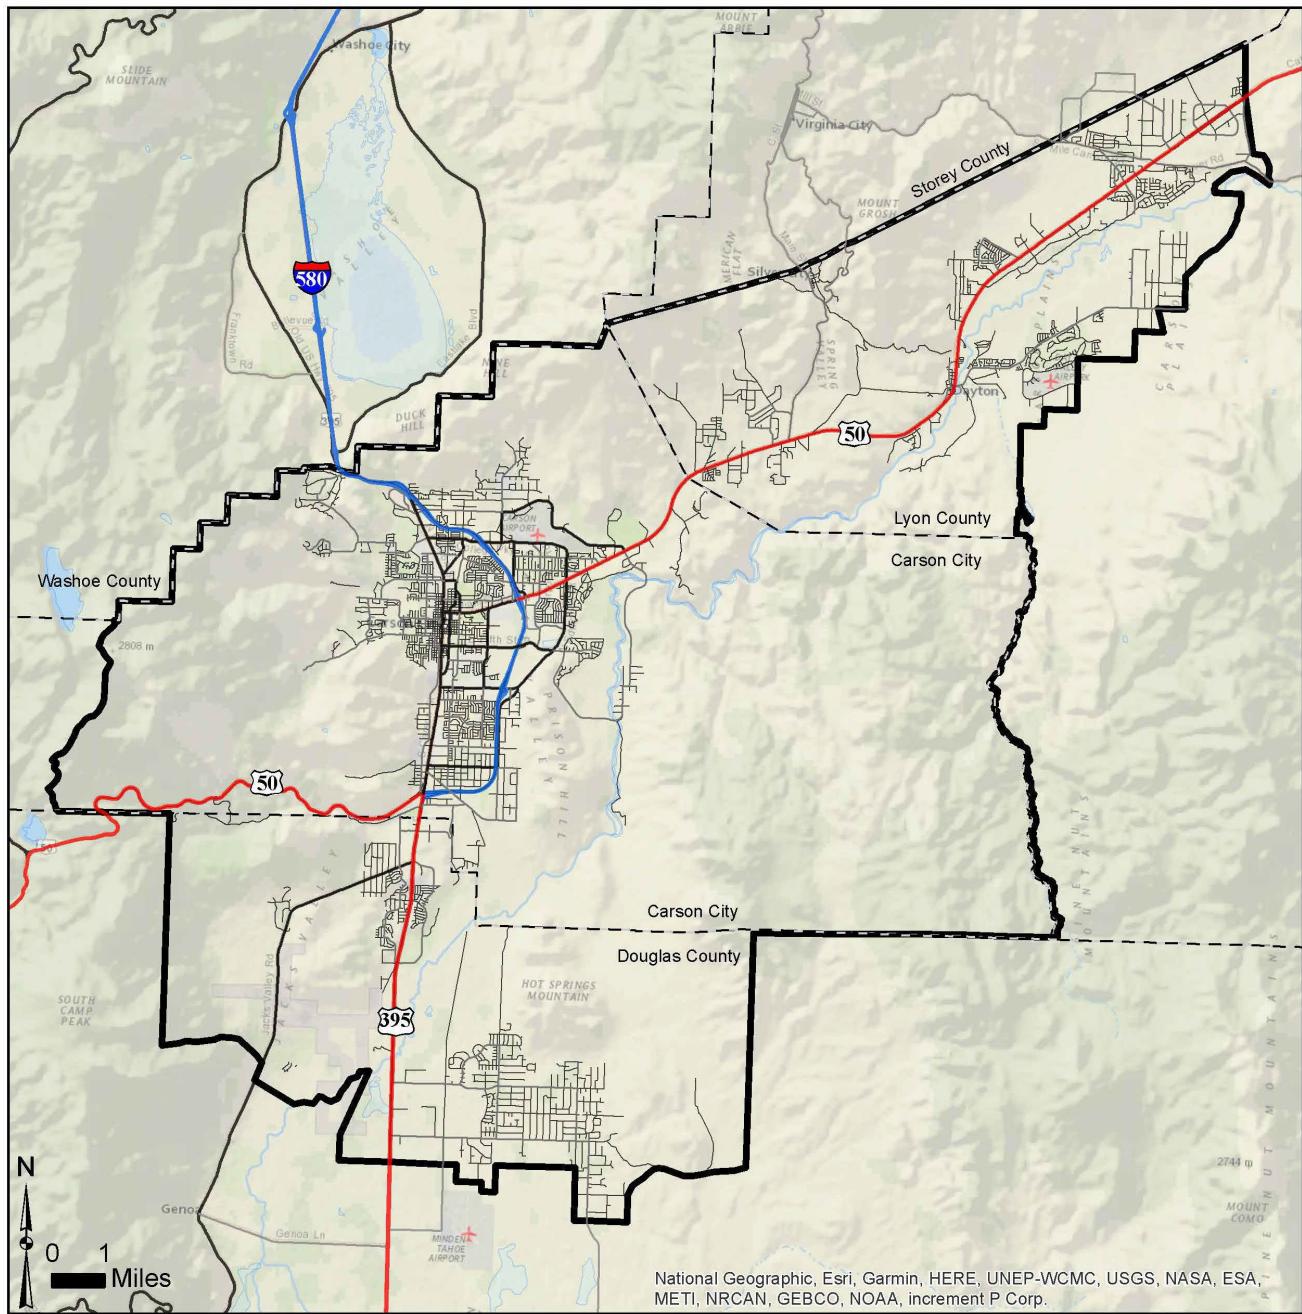

Introduction/ Purpose

The Transportation Improvement Program (TIP) is a prioritized listing of transportation improvement projects covering a four-year period that is developed and formally adopted by the Carson Area Metropolitan Planning Organization (CAMPO). The Nevada Governor, in accordance with Federal regulations, designated the CAMPO in 2003. CAMPO is responsible for carrying out transportation planning activities within the Metropolitan Planning Area (MPA), shown in Figure 1. The MPA encompasses the urbanized areas, as defined by the US Census Bureau, and a larger geographical area that is likely to urbanize within the next 20 years. The central contiguous urbanized area includes most of the City of Carson City, a portion of northern Douglas County, and a portion of western Lyon County. Additionally, there are two urban clusters within the MPA, which are the Johnson Lane area in Douglas County and the Dayton area in Lyon County.

The TIP must be consistent with the Statewide Transportation Improvement Program (STIP) and must be updated at a minimum of every four years and is based on the federal fiscal year (FFY) (October – September). The TIP must be consistent with CAMPO's long-range Regional Transportation Plan (RTP), available at www.CarsonAreaMPO.com. The TIP contains a listing of all federally funded transportation projects and projects of regional significance, regardless of the funding source. The TIP must identify funding from public and private sources that are reasonably expected to be made available to implement a project. Per federal guidelines, the TIP must include a financially constrained project list. See page 11 for TIP requirements.

The projects that have remained or added to the FFY 2025 - FFY 2028 CAMPO TIP have been prioritized through a performance-driven, outcome-based approach based on the consideration of the goals, objectives, performance measures, and targets within Federal Legislation, Federal Planning Emphasis Areas, Federal Planning Factors, the Nevada Department of Transportation (NDOT) Strategic Highway Safety Plan (SHSP), NDOT State project prioritization process (One Nevada Transportation Plan), regional priorities outlined in the 2050 CAMPO RTP, CAMPO's Annual Monitoring Report Performance Targets, and the Jump Around Carson (JAC) Transit Asset Management Plan. CAMPO has coordinated with partner agencies including Lyon County, Douglas County, Carson City, NDOT, Washoe Tribe of Nevada and California, and Jump Around Carson (JAC).

**Figure 1: CAMPO MPA
Boundary**

Federal Transportation Legislation

The Moving America Ahead for Progress in the 21st Century (MAP-21) Act was signed into law in 2012. MAP-21 focused on implementing performance measures and performance-based planning. Under MAP-21, the United States Department of Transportation (DOT) established a requirement for State DOTs and MPOs to set performance targets. Per MAP-21, MPOs must incorporate these targets and associated performance measures into their TIP and RTP.

MAP-21 requires that transportation improvement programs developed by MPOs include a description of the anticipated effort of the program on achieving regional performance targets identified in the RTP. This requirement is designed to directly link investments to performance targets. The TIP is used to program and track the progress of projects in meeting these performance measures. MAP-21 establishes national performance goals for the Federal-aid highway program in seven areas:

- safety;
- infrastructure condition;
- congestion reduction;
- system reliability;
- freight movement and economic vitality;
- environmental sustainability, and
- reduced project delivery delays.

On December 4, 2015, the Fixing America's Surface Transportation Act (FAST Act) was signed into law. The FAST Act confirms all the performance-based planning requirements established under the previous transportation act, MAP-21.

On November 15, 2021, the Infrastructure Investment and Jobs Act (IIJA) was signed into law. This five- year transportation bill continues core provisions from the two previous transportation bills (FAST Act and MAP-21) with an updated emphasis on safety and research, reconnecting communities, and the link between housing and transportation.

The Federal Highway Administration (FHWA) has established defined performance measures and target- setting methodology for MPOs and state transportation agencies to monitor and report. The performance measures are aimed at tracking safety, infrastructure condition, and system performance. CAMPO reports on these targets through its annual Transportation Network Monitoring Report.

Using this Transportation Network Monitoring Report, CAMPO can prioritize projects and programs that aim to achieve these performance measures and help CAMPO's member agencies be competitive when applying for State and Federal discretionary grant funding. The DOT FHWA Safety Performance Measure (PM) Final Rule establishes requirements to assess fatalities and serious injuries on public roads. The five established safety performance measures, based on a five-year rolling average, are:

- Number of Fatalities
- Rate of Fatalities per 100 million Vehicle Miles Traveled
- Number of Serious Injuries
- Rate of Serious Injuries per 100 million Vehicle Miles Traveled
- Number of Non-motorized Fatalities and Serious Injuries

Federal Planning Emphasis Areas

In December 2021, the FHWA and the Federal Transit Administration (FTA) jointly developed Planning Emphasis Areas (PEAs) to promote policy, procedural, and technical topics that are to be considered by metropolitan planning organizations. The PEAs address a mix of planning issues and priority topics identified as requiring additional focus by MPOs.

- Tackling the Climate Crisis- Transition to Clean Energy, Resilient Future
- Equity and Justice40 in Transportation Planning
- Complete Streets
- Public Involvement
- Strategic Highway Network (STRAHNET)/U.S. Department of Defense (DOD) Coordination
- Federal Land Management Agency (FLMA) Coordination
- Planning and Environment Linkages (PEL)
- Data in Transportation Planning

Federal Planning Factors

Transportation legislation lists ten factors that must be considered as part of the transportation planning process for all metropolitan areas. The most recent update with the IIJA includes housing in the fifth planning factor. The following factors shall be explicitly considered, analyzed as appropriate, and reflected in the planning process products (23 USC 134 (h)):

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- Increase the safety of the transportation system for motorized and non-motorized users;
- Increase the security of the transportation system for motorized and non-motorized users;
- Increase accessibility and mobility of people and freight;
- Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth, housing, and economic development patterns;
- Enhance the integration and connectivity of the transportation system, across and between modes throughout the State, for people and freight;
- Emphasize the preservation of the existing transportation system;
- Promote efficient system management and operation;
- Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
- Enhance travel and tourism.

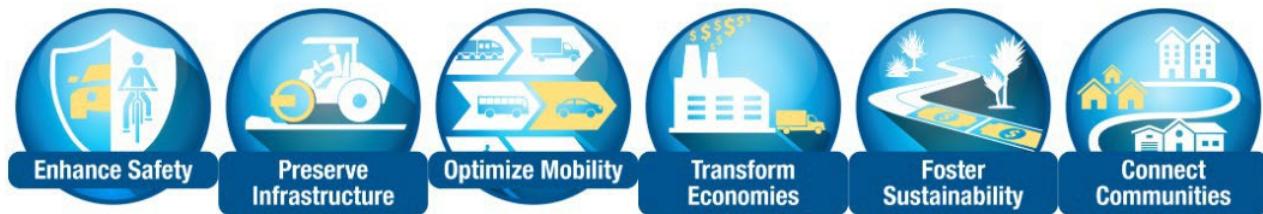

Nevada Strategic Highway Safety Plan (SHSP)

NDOT and the Department of Public Safety formed a Technical Working Group to develop a statewide safety plan in 2004, with a recent update in 2021 for the years 2021-2025. Nevada's Strategic Highway Safety Plan (SHSP) is a comprehensive data-driven statewide safety plan that identifies the highest causes of fatalities and serious injuries on Nevada's roadways and provides a

coordinated framework for reducing the crashes that cause fatalities and serious injuries. The SHSP establishes statewide goals and critical emphasis areas focusing on the 6 E's of traffic safety: Equity, Engineering, Education, Enforcement, Emergency Medical Services/Emergency Response/Incident Management, and Everyone. Goals and strategies are developed in consultation with federal, tribal, state, local, and private-sector safety stakeholders. The purpose of the SHSP is to eliminate traffic-related fatalities and serious injuries by combining and sharing resources across disciplines and strategically targeting efforts to the areas of greatest need. Nevada has enlisted state, local, tribal, and federal agencies; institutions; private-sector firms; and concerned citizens to help solve this problem.

One Nevada Transportation Plan

One Nevada Transportation Plan (One Nevada) is Nevada's long-range transportation plan detailing a data-driven, transparent approach to identifying priority projects. CAMPO strives to remain consistent with One Nevada's six goal areas that include data-driven needs identification and validation, consistency with the NDOT priorities, and projects ranked on project readiness, performance targets, and geographic distribution. One Nevada's six critical goal areas are shown below.

CAMPO 2050 RTP

Per federal guidelines, the TIP continues to build upon the goals and objectives articulated in CAMPO's 2050 RTP. By incorporating these goals into short-range programming activities, projects are linked to the region's vision and long-term investment strategy. The five CAMPO goals and performance measures are listed below.

- Increase the safety of the transportation system for all users
- Maintain a sustainable regional transportation system
- Increase the mobility and reliability of the transportation system for all users
- Maintain and develop a multi-modal transportation system that supports economic vitality
- Provide an integrated transportation system

Transit Asset Management

MAP-21 required a system to monitor and manage public transportation assets to improve safety, increase reliability and performance, and established performance measures. MAP-21 grouped transit providers into two categories: Tier 1 and Tier 2 based in part on the number of vehicles and the number of fixed routes operated. CAMPO is under the Tier 2 category.

Tier 2 agencies are responsible for four elements of Transit Asset Management (TAM)

- **An inventory of assets:** A register of capital assets and information about those assets.
- **A condition assessment of inventoried assets:** A rating of the assets' physical state; to be completed for assets an agency has direct capital responsibility for; should be at a level of detail sufficient to monitor and predict the performance of inventoried assets.
- **Description of a decision support tool:** An analytic process or tool that (1) assists in capital asset investment prioritization and/or (2) estimates capital needs over time.
- **A prioritized list of investments:** A prioritized list of projects or programs to manage or improve the state of good repair (SGR) of capital assets.

Transit asset management is measured by asset class. The following table provides a description of each asset class and the performance measure used for each. CAMPO only reports on equipment, rolling stock, and facilities since it does not own any assets that would qualify under the infrastructure category.

Table 1: Transit Agency Tiers

Asset Class	Description	Performance Measure
Equipment	Non-revenue support service and maintenance vehicles	Percentage of vehicles met or exceeded Useful Life Benchmark*
Rolling Stock	Revenue vehicles by mode	Percentage of vehicles met or exceeded Useful Life Benchmark
Facilities	Maintenance and administrative facilities; and passenger stations (buildings) and parking facilities	Percentage of assets with condition rating below 3.0 on FTA TERM Scale

*Useful Life Benchmark is used by transit agencies to track the performance of revenue vehicles and service vehicles

Financially Constrained Project Listing

Per federal regulation, projects included in the STIPs and CAMPO's TIP shall be prioritized and financially constrained by year and based on funding reasonably expected to be available. CAMPO is committed to developing a transparent programming process that allocates funding effectively to maintain an efficient multi-modal transportation system. National performance goals, Nevada State Transportation Planning goals, Regional Transportation goals, and Transit Asset Management are considered during project evaluation and selection. These multi-tiered and coincident goals help plan, prioritize, and program CAMPO transportation investments.

eSTIP

The eSTIP (Electronic State Transportation Improvement Program) is a searchable database that can be filtered based on project criteria. This online platform was developed by the Nevada Department of Transportation, in coordination with Nevada's four Metropolitan Planning Organizations.

Changes to the projects are in real-time so users can find the most up-to-date information. Project details and customized reports are available to view and download on the eSTIP website, at <https://estip.nevadadot.com>.

The eSTIP categorizes transportation projects into five general categories: roadway, transit, bicycle and pedestrian, environmental, or other. Additionally, project funding and schedule are broken into four potential phases: preliminary engineering (PE), right-of-way (ROW), construction, and others.

Information from the eSTIP website on funding sources and projects are incorporated into this formal document as follows:

- A list and description of all federal funding sources present in CAMPO's FFY 2025 - 2028 Transportation Improvement Program
- A table showing programmed funds by funding source and year for CAMPO's FFY 2025 - 2028 Transportation Improvement Program
- A detailed project listing for all projects in CAMPO's FFY 2025 - 2028 Transportation Improvement Program (see Appendix A)

Administrative Modifications and Formal Amendments

Administrative modifications, as defined in 23 CFR 450.104, are minor revisions to the TIP, as defined by the Public Participation Plan, as small increases to project costs (less than \$5 Million or less than 20% of the total project cost), changes to non-federal funding sources previously included in the TIP, changes to a project phase initiation date or other changes to contact information, description, maps, etc. An administrative modification does not require public review and comment period or a redemonstration of fiscal constraint. All other changes require Formal Amendments. Formal Amendments may include only appendices and a shortened list of projects for efficiency purposes.

TIP Funding Sources

Federal Highway Administration (FHWA)

AC	Advanced Construction (AC) allows a state to conserve obligation authority and maintain flexibility in its transportation funding program. This is referenced in Title 23, Section 115. You may see (AC) after a funding source, such as TAP.
Carbon 50K-200K	Carbon Reduction Program Funding – areas with population over 50,000 to 200,000
CDS	Congressionally Designated Funding
FLAP	Federal Lands Access Program- The FLAP improves transportation facilities that provide access to, are adjacent to, or are located within Federal Lands.
HIP	Highway Infrastructure Program (HIP) – Made up of two apportionments: FHWA N4510.826 & FHWA N4510.835; distributed to States, suballocated within States. Projects MUST be on the Federal Aid System, with few exceptions.
HSIP	Highway Safety Improvement Program
NHPP	National Highway Performance Program
RAISE	Rebuilding American Infrastructure with Sustainability and Equity - DOT competitive discretionary grant
SRTS	Safe Routes to School
STBG 5K-200K	Surface Transportation Block Grant Program (canceled) – areas with population over 5,000 to 200,000
STBG 50K-200K	Surface Transportation Block Grant Program – areas with population over 50,000 to 200,000
STBG Statewide	Surface Transportation Block Grant Program – Statewide
TAP 5K-200K	Transportation Alternatives Program (canceled) – areas with a population over 5,000 to 200,000
TAP 50K-200K	Transportation Alternatives Program – areas with a population over 50,000 to 200,000
TAP Flex	Transportation Alternatives Program (canceled) – funds flexed by the State DOT to small urban and rural areas
TAP Flex STBG	Transportation Alternatives Set-Aside Program – funds for various smaller-scale transportation projects across the state
TIGER	Transportation Investment Generating Economic Recovery – DOT competitive discretionary grant

Department of Housing and Urban Development (HUD)

CDBG	Community Development Block Grant
------	-----------------------------------

Federal Transit Administration (FTA)

5307	Urbanized Area Formula Grants – Section 5307 for small urban areas with a population between 50,000 and 200,000
5310	Enhanced Mobility of Seniors & Individuals with Disabilities – Section 5310 for small urban areas with a population between 50,000 and 200,000
5339	Bus and Bus Facilities – Section 5339 for small urban areas with a population between 50,000 and 200,000
5339(b) or (c)	Bus and Bus Facilities Discretionary Program – competitive program open to all urban and rural recipients eligible under Section 5307, as well as States and Indian Tribes

Appendix 2: FFY 2025-2028 TIP Signature Page

The Carson Area Metropolitan Planning Organization (CAMPO) certifies that the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

1. 49 U.S.C. 5303, Transportation Planning;
2. 23 U.S.C. 134, Federal-Aid Highways;
3. 23 CFR Part 450, Planning Assistance & Standards;
4. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-l) and 49 CFR part 21;
5. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, religion, national origin, sex, disability, or age in employment or business opportunity;
6. Fixing America's Surface Transportation Act (FAST Act, P.L. 114-357) regarding the involvement of disadvantaged business enterprises in the FHWA and the PTA-funded projects (see also 49 CFR Part 26);
7. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
8. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
9. The Older Americans Act, as amended (42 U.S.C. 6101), prohibits discrimination on the basis of age in programs or activities receiving Federal financial assistance;
10. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
11. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.
12. Public notice of public involvement activities and time established for public review and comment on the TIP will satisfy the POP requirements of the Section 5307 Program.
13. 23 CFR part 450 section 218, a TIP shall include, to the maximum extent practicable, a discussion of the anticipated effect of the TIP toward achieving performance targets, linking investment priorities to those performance targets.
14. 49 CFR 625 (under the authority of Sec. 20019 of Pub. L. 112-141, 126 Stat. 707, 49 U.S.C. 5326; Sec. 20025(a) of Pub. L. 112-141, 126 Stat., 718, 49 CFR 1.91.) regarding transit asset management (TAM).

Current Change Reason

SCHEDULE / FUNDING / SCOPE - Other, Total Project cost increases to \$4,686,780. STBG funding added. JC 12/16/2024

Funding Change(s):

Total project cost increased from \$4,680,134 to \$4,686,780

State TIP ID CC20230006

Lead Agency Carson City

Project Type @Road Improvement

Project Name District 3, Fifth Street Roundabout

Project

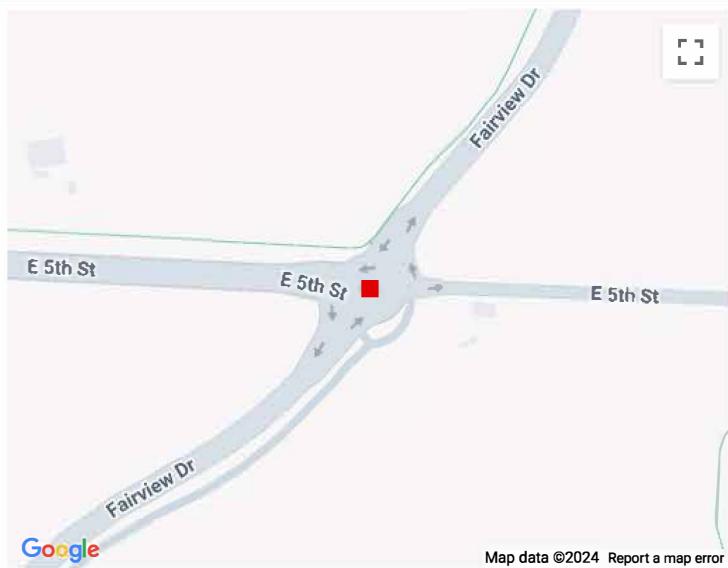

At 5th Street From Fairview Drive To Carson River Road of Distance (mile) 0.2615

Limits

Pavement improvements between Fairview Drive and Carson River Road, including operational and capacity enhancements to the Fifth Street/Fairview Drive roundabout.
